In Conflict 1998 anthony feinstein served as a young medical officer in the south african defence force he was based at oshakati and tsandi in northern namibia in 1983 in conflict is a diary of his experiences

**intimates in Conflict** 2013-09-05 first published in 1991 routledge is an imprint of taylor francis an informa company

*Interventions in Conflict* 2016-04-08 this book presents reflections of prominent international peacemakers in the middle east including jimmy carter lakhdar brahimi jan eliasson alvaro de soto and others it provides unique insights and lessons learned about diplomacy and international peace mediation practice based on real life experience

**Leadership In Conflict** 1990-12-31 the first world war was a conflict in which personality and character mattered its course and outcome were decided by determined individuals who had to make momentous decisions in very trying circumstances as battles raged on land sea and air across europe africa and asia the generals and politicians tried to steer a course to victory it was never easy and they often disagreed on the best strategy yet men s lives depended on the outcome this collection of authoritative essay examines these disagreements portraying the decision making process on both sides in the great war the personalities involved are now household names haig foch lloyd george woodrow wilson and the german kaiser william ii

**We Or They** 2013-10 this is a new release of the original 1937 edition

Narrative(s) in Conflict 2017 revised and updated fourth edition the world today rests on increasingly unstable fault lines from the conflict in ukraine or fresh upheavals in the middle east to the threats posed to humanity by a global pandemic climate change and natural disasters the world s danger zones once again draw their battle lines across our hyperconnected yet fragmented globe join veteran economist journalist john andrews as he analyses the old enmities and looming collisions that underlie conflict in the twenty first century region by region discover the causes contexts participants and likely outcomes of every globally significant struggle now underway from drug cartels to cyber war this is the indispensable guide for anyone who wants to understand our perilous world

**The World in Conflict** 2016-01-14 focuses on conflict theory from historical structural legal economic psychological international and environmental perspectives and considers the validity of rational and subjective approaches to conflict resolution

**New Directions in Conflict Theory** 1991-09-26 this book provides a comprehensive interdisciplinary original and holistic analysis of the socio psychological dynamics of intractable conflicts daniel bar tal s analysis rests on the premise that intractable conflicts share certain socio psychological foundations despite differences in context and other characteristics he describes a full cycle of intractable conflicts their outbreak escalation and reconciliation through peace building

Intractable Conflicts 2013-03-18 civil war and reconciliation international war and reconciliation rethinking rationality in social theory implications for policy and practice and avenues for further research

War and Reconciliation 2003 definitely worth reading billy graham colson s criticisms of the religious right are especially noteworthy colson s

warnings echo a concern that religious conservatives would be reckless to ignore richard n ostling religion editor time the timing could hardly be better for an author with a new book newsweek kingdoms in conflict speaks with wisdom and guts to the major issues of our day charles r swindoll kingdoms in conflict is a classic that belongs on every christian s bookshelf dr james c dobson this was a book waiting for chuck colson to write as no other evangelical author can colson brings his political experience thoroughly changed life and lucid writing together at just the right time moody monthly the arguments church state the correct admixture between the two are familiar grist for controversial mills but colson does wonderful theatrical instruction in his book william f buckley jr in kingdoms in conflict charles w colson masterfully weds the two subjects he knows best politics and christian faith russell chandler kingdoms in conflict offers a welcomed new insight into an age old question jack anderson one cannot be a passive reader of chuck colson s kingdoms in conflict mark o hatfield

*Children in Conflict* 1974 what happens when the international community simultaneously pursues peace and justice in response to ongoing conflicts what are the effects of interventions by the international criminal court icc on the wars in which the institution intervenes is holding perpetrators of mass atrocities accountable a help or hindrance to conflict resolution this book offers an in depth examination of the effects of interventions by the icc on peace justice and conflict processes the peace versus justice debate wherein it is argued that the icc has either positive or negative effects on peace has spawned in response to the court s propensity to intervene in conflicts as they still rage this book is a response to and a critical engagement with this debate building on theoretical and analytical insights from the fields of conflict and peace studies conflict resolution and negotiation theory the book develops a novel analytical framework to study the court s effects on peace justice and conflict processes this framework is applied to two cases libya and northern uganda drawing on extensive fieldwork the core of the book examines the empirical effects of the icc on each case the book also examines why the icc has the effects that it does delineating the relationship between the interests of states that refer situations to the court and the icc s institutional interests arguing that the negotiation of these interests determines which side of a conflict the icc targets and thus its effects on peace justice and conflict processes while the effects of the icc s interventions are ultimately and inevitably mixed the book makes a unique contribution to the empirical record on icc interventions and presents a novel and sophisticated means of studying analyzing and understanding the effects of the court s interventions in libya northern uganda and beyond

**Kingdoms in Conflict** 1989-01-27 the contemporary conflict scenarios are beyond the reach of standardized approaches to conflict resolution given the curious datum that culture is implicated in nearly every conflict in the world culture can also be an important aspect of efforts to transform destructive conflicts into more constructive social processes yet what culture is and how culture matters in conflict scenarios is contested and regrettably unexplored the handbook of research on the impact of culture in conflict prevention and peacebuilding is a critical publication that

examines cultural differences in conflict resolution based on various aspects of culture such as morals traditions and laws highlighting a wide range of topics such as criminal justice politics and technological development this book is essential for educators social scientists sociologists political leaders government officials academicians conflict resolution practitioners world peace organizations researchers and students

Justice in Conflict 2016-06-24 contemporary feminist advocacy in human rights international criminal law and peace and security is gripped by the issue of sexual violence in conflict but it hasn't always been this way analyzing feminist international legal and political work over the past three decades karen engle argues that it was not inevitable that sexual violence in conflict would become such a prominent issue engle reveals that as feminists from around the world began to pay an enormous amount of attention to sexual violence in conflict they often did so at the cost of attention to other issues including the anti militarism of the women's peace movement critiques of economic maldistribution imperialism and cultural essentialism by feminists from the global south and the sex positive positions of many feminists involved in debates about sex work and pornography the grip of sexual violence in conflict offers a detailed examination of how these feminist commitments were not merely deprioritized but undermined by efforts to address the issue of sexual violence in conflict engle's analysis reinvigorates vital debates about feminist goals and priorities and spurs readers to question much of today's common sense about the causes effects and proper responses to sexual violence in conflict

**Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding** 2020-03-20 these are the results of a workshop held at trinity college dublin in collaboration with the broken narratives project univ of vienna exploring the interaction between narrative and conflict it tries to develop a narrative theory of culture

**The Grip of Sexual Violence in Conflict** 2020-04-07

*Narrative(s) in Conflict* 2017 this edited volume brings together alternative and innovative approaches in conflict resolution with traditional military intervention repeatedly leading to the transformation of entire regions into zones of instability and violence afghanistan iraq libya syria the study of alternative and less violent approaches to conflict resolution has become imperative four approaches are presented here negotiation religion and gender reconciliation and forgiveness and the arts this volume contains the insights and experiences of fourteen internationally renowned scholars and practitioners from different contexts can forgiveness help heal relationships in post apartheid south africa how can art assist dealing with unrememberable events such as the genocide in rwanda what transformational resources do women offer in contexts of massive human rights violations the aim here is twofold to provide and encourage critical reflection of the approaches presented here and to explore concrete improvements in conflict resolution strategies in its interdisciplinary and international outlook this work combines the tried and tested approaches from conflict resolution experts in academia ngos and civil society making it an invaluable tool for academics and

practitioners alike

Women Waging War and Peace 2011-08-18 in the context of ongoing or historical violence people tell stories about what happened who did what to whom and why yet frequently the speaking of violence reproduces the social fractures and delegitimizes again those that struggle against their own marginalization this speaking of violence deepens conflict and all too often perpetuates cycles of violence alternatively sometimes people do not speak of the violence and it is erased buried with the bodies that bear it witness this reduces the capacity of the public to address issues emerging in the aftermath of violence and repression this book takes the notion of narrative as foundational to conflict analysis and resolution distinct from conflict theories that rely on accounts of attitudes or perceptions in the heads of individuals this narrative perspective presumes that meaning structured and organized as narrative processes is the location for both analysis of conflict as well as intervention but meaning is political in that not all stories can be told or the way they are told delegitimizes and erases others thus the critical narrative theory outlined in this book offers a normative approach to narrative assessment and intervention it provides a way of evaluating narrative and designing better formed stories better in that they are generative of sustainable relations creating legitimacy for all parties in so doing they function aesthetically and ethically to support the emergence of new histories and new futures indeed critical narrative theory offers a new lens for enabling people to speak of violence in ways that undermine the intractability of conflict

**Alternative Approaches in Conflict Resolution** 2017-10-24 a conflict in visions stands at the center of major international and national crises in the middle east africa asia or elsewhere whether in mass killing genocide or intractable conflict ideology is usually present and plays important role by ideology political religious economic social or some other is meant visions of social arrangements and human relations that provide meaning and hope for a group such ideologies can identify others as enemies who stand in the way of their fulfillment the present volume contains essays written by authors from around the world on powerful vehicles of conflict resolution namely religion psychology education and training psychotherapy and sports it is our sincere hope that these essays shed light on the process of peace and reconciliation

Speaking of Violence 2013-05-27 the book brings together analyses of u s based conflicts with those from many regions of the world international intra state and local conflicts are explored along with those that have been violent and non violent

**Visions in Conflict** 2010 a collection of poems stories plays and essays illustrating conflicts involving personal values

Overcoming Intractable Conflicts 2019 unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

*Reality in Conflict* 1976 as oliver richmond explains there is a level to peacemaking that operates in the realm of dialogue declarations symbols and rituals but after all this pomp and circumstance is where the reality of security development politics economics identity and culture figure in conflict cooperation and reconciliation are at their most vivid at the local scale thus local peace operations are crucial to maintaining order on the ground even in the most violent contexts however as richmond argues such local capacity to build peace from the inside is generally left unrecognized and it has been largely ignored in the policy and scholarly literature on peacebuilding in peace and political order richmond looks at peace processes as they scale up from local to transnational efforts to consider how to build a lasting and productive peace he takes a comparative and expansive look at peace efforts in conflict situations in countries around the world to consider what local voices might suggest about the inadequacy of peace processes engineered at the international level as well he explores how local workers act to modify or resist peace processes headed by international ngos and to what degree local actors have enjoyed success in the peace process and how they have affected the international peace process

**The Meaning of the War, Life and Matter in Conflict** 2013-06 drawing material from dozens of divided societies this text constructs a theory of ethnic conflict relating ethnic affiliations to kinship and intergroup relations to the fear of domination

Peace Formation and Political Order in Conflict Affected Societies

2016-02-23 this book advances an interdisciplinary understanding of moral injury by analysing the stories of military veterans of combat and peace missions

**The Meaning of the War** 2016-06-23 this volume is based on the presentations and discussions of a national symposium on couples in conflict that focused on family issues a common thread throughout is that constructive conflict and negotiation are beneficial for relationships together the chapters provide a foundation for thinking about creative ways in which our society can work to prevent or minimize destructive couple conflict and to enhance couples abilities to constructively handle their differences divided into four parts this book addresses the societal and bioevolutionary underpinnings of couple conflict presents the interpersonal roots of couple conflict and the consequences for individuals and couples discusses what effects couple conflict have on children and how individual differences in children moderate these effects and outlines the issue of policies and programs that address couple conflict this book concludes with an essay that pulls these four themes together and points to new directions for research and program efforts

**Ethnic Groups in Conflict** 1985 traces the history of iraq from its mesopotamian origins to its current political turbulence and its crises with international relations

*Abnormal Behavior* 1972 early work in conflict resolution and peace research focused on why wars broke out why they persisted and why peace agreements failed to endure later research has focused on what actions and circumstances have actually averted destructive escalations stopped the perpetuation of destructive conduct produced a relatively good

conflict transformation or resulted in an enduring and relatively equitable relationship among former adversaries this later research which began in the 1950s recognizes that conflict is inevitable and is often waged in the name of rectifying injustice additionally it argues that damages can be minimized and gains maximized for various stakeholders in waging and settling conflicts this theory which is known as the constructive conflict approach looks at how conflicts can be waged and resolved so they are broadly beneficial rather than mutually destructive in this book louis kriesberg one of the major figures in the school of constructive conflict looks at major foreign conflict episodes in which the united states has been involved since the onset of the cold war to analyze when american involvement in foreign conflicts has been relatively effective and beneficial and when it has not in doing so he analyzes whether the us took constructive approaches to conflict and whether the approach yielded better consequences than more traditional coercive approaches realizing peace helps readers interested in engaging or learning about foreign policy to better understand what has happened in past american involvement in foreign conflicts to think freshly about better alternatives and to act in support of more constructive strategies in the future

Moral Injury and Soldiers in Conflict 2023-05 for building sustainable peace and security the time is always now violence in our world extends beyond armed conflicts it exists in our social and economic structures not to mention in our destruction of the environment how can we build more sustainable development and peace in this innovative ambitious book dr luc reychler argues that we must drastically change our temperament or the way we deal with time he surveys the vast temporal landscape and considers its many dimensions such as how time relates to emotions religion and conflict and how our time horizons affect the natural world using examples such as hurricane katrina and regime change in libya reychler shows how time is misused in conflicts be it the failure to anticipate a disaster or the manipulation of time to create a false sense of urgency ultimately he proposes a more adaptive attitude to time so that we can be proactive rather than reactive in our efforts at sustainable development and conflict resolution

**Couples in Conflict** 2001-05-01 previous research proposes that peace is more likely to become durable if all rebel groups are included in the settlement reached the argument implies that if actors are excluded and continue to pursue the military course this could have a destabilizing effect on the actors that have signed an agreement this article argues that all inclusive peace deals signed by the government and all rebel groups are not the panacea for peace that many seem to believe given that the parties are strategic actors who are forward looking when making their decisions the signatories should anticipate that the excluded parties may continue to fight therefore the risk of violent challenges from outside actors is likely to already be factored into the decision making calculus when the signatories decide to reach a deal and so does not affect their commitment to peace implications from this theoretical argument are tested using unique data on the conflict behavior of the government and each of the rebel groups in internal armed conflicts during the post cold war period the results are well in line with the

theoretical expectations and show that whether an agreement leaves out some actor does not affect whether the signatories stick to peace the results demonstrate that even when excluded rebel groups engage in conflict this does not affect the signatories commitment to peace hence the findings suggest that partial peace is possible

*Iraq 2000-01-01* this unique text challenges the notion that absence of conflict is the foundation and norm of a stable political environment combining complexity theory and the notion of signature with case studies it argues that political processes need to be understood within their social and cultural contexts it thus develops the idea of enduring conflict referring to both the enduring nature of political conflict and the endurance of people in conflict ridden societies looking at countries involved in conflict transformation such as northern ireland cambodia indonesia and south africa examining debates around trauma memory and reconciliation the work shows how conflicts are so socially and culturally ingrained and protracted that political agreements alone cannot bring substantive change in addition key texts such as peace agreements along with interviews of politicians participants and ngos help identify the conditions under which notions like peace democracy and conflict resolution can even be conceived let alone implemented this innovative text is a significant contribution to the literature as it highlights the limitations of conflict resolution strategies and identifies the issues that pertain to conflicts throughout global politics written in an accessible manner it will be highly attractive to students in conflict processes peace studies and international relations theory

*Realizing Peace 2015-03-30* this volume provides an overall assessment of ethnic diversity in central europe in historical context and presents a critical assessment of the conflict in former yugoslavia it advances a hypothesis on the origins of ethnic conflict proposes an approach to the prevention and reduction of ethnic conflict in general and in central europe in particular and forwards concrete policy recommendations for the region of east and central europe and beyond

*In Conflict and Order 1998* examining the social laboratory of the israeli and palestinian societies to better understand social conflicts and the construction of diverse and conflicting collective narratives this book gives readers a window into professor shifra sagy s unique approach to intergroup conflicts and peace education with a focus on both theory and practice it describes the model of perceptions of collective narratives that she developed with her colleagues the contributions here offer insight into the intergroup conflicts between israelis and palestinians palestinian muslims and christians jewish national religious and people of ultra orthodox faith and palestinians living in israel and those living in the west bank perceptions of collective narratives help crystallize social identity a sense of community and national coherence and a culture of conflict often this creates obstacles to peace and conflict resolution this book instead looks at how we can use these constructions to promote reconciliation

**Time for Peace 2015-10-01** this book examines the evolution impact and future prospects of the security sector reform SSR model in conflict affected countries in the context of the wider debate over the liberal

peace project since its emergence as a concept in the late 1990s SSR has represented a paradigm shift in security assistance from the realist regime centric train and equip approach of the cold war to a new liberal holistic and people centred model the rapid rise of this model however belied its rather meagre impact on the ground this book critically examines the concept and its record of achievement over the past two decades putting it into the broader context of peace building and state building theory and practice it focuses attention on the most common celebrated and complex setting for SSR conflict affected environments and comparatively examines the application and impacts of donor supported SSR programming in a series of conflict affected countries over the past two decades including Afghanistan Sierra Leone the Democratic Republic of Congo East Timor and Bosnia Herzegovina the broader aim of the book is to better understand how the contemporary SSR model has coalesced over the past two decades and become mainstreamed in international development and security policy and practice this provides a solid foundation to investigate the reasons for the poor performance of the model and to assess its prospects for the future this book will be of much interest to students of international security peacebuilding statebuilding development studies and IR in general
