Lake of Fire - Hope for the Wicked One Day? - Essays in First Christianity 2019-01-01

christ centered universalism has been a hope in first christianity among the earliest orthodox christians as testified even as late in st augustine of hippo s infamous quote in that even he didn t call them as heretics but soft hearted christians who did not deny holy scripture a form of christian universalism by origen of alexandria may have been condemned by a later council for protestants please take note that both st augustine and that later council consists of members who pray to virgin mary something which is absent from even origen of alexandria therefore just because something is majority by later early christianity it does not necessarily mean that it was first christianity doctrine in light of this we discuss various viewpoints quotes by church fathers and ancient christian writings in support of this hope since the time lapse and loss of records to these first christians being replaced by later christianity is hard to trace or prove due to scarcity of evidences nevertheless we endeavour to present as much as we can including some rarely known quotes within christian universalism hopefuls itself an example of a set of rare quotes which point to christ centered universalism in this book which may not be popularly known is that by st hillary of poitiers the champion of trinity in the west and a set of interesting quotes likewise by st ignatius of antioch who was a direct disciple if st john the apostle of christ himself we see traces of such an understanding in a quote by st justin martyr toward the wicked being made subject to obey god eventually as one child while st ireneous of lyons has a few interesting quotes especially those that relate to the concept of ages aeons olam to come where in a particular instance st ireneus clearly shows that the strongest phrase ages of ages refers to the subset ages out of a larger set of ages implying limitedness just like god of abraham does not limit god to abraham only the phrase god s glory to the age aeon olam singular need not limit god s glory to one age only but may be highlighting it for that age unknown long time period we do not need to teach it as a 100 certain doctrine but we may hope for it as the bible verses can also be understood consistently to present this hope in some way one day we will know and all things are possible with god who alone decides peace to you

a myth busting insider s account of the iranian revolution of 1979 that destroyed us influence in the country and transformed the politics of the middle east and the world the 1979 islamic revolution in iran was one of the seminal events of our time it inaugurated more than thirty years of war in the middle east and fostered an islamic radicalism that shapes foreign policy in the united states and europe to this day drawing on his lifetime of engagement with iran james buchan explains the history that gave rise to the revolution in which ayatollah khomeini and his supporters displaced the shah with little diffi culty mystifyingly to outsiders the people of iran turned their backs on a successful westernized government for an amateurish religious regime buchan dispels myths about the iranian revolution and instead assesses the historical forces to which it responded he puts the extremism of the islamic regime in perspective a truly radical revolution it can be compared to the french or russian revolu tions using recently declassified diplomatic papers and persian

language news reports diaries memoirs interviews and theological tracts buchan illuminates both khomeini and the shah his writing is always clear dispassionate and informative the iranian revolution was a turning point in modern history and james buchan's days of god is as london's independent put it a compelling beautifully written history of that event

this book investigates rabbinic treatises relating to animals humans and other lifeforms through an original analysis of creaturely generation and species classification by late ancient palestinian rabbis and other thinkers in the roman empire rafael rachel neis shows how rabbis blurred the lines between the human and other beings this they did even as they were intent on classifying creatures and delineating the contours of the human recognizing that life proliferates via multiple mechanisms beyond sexual copulation between two heterosexual male and female individuals of the same species the rabbis produced intricate alternatives this expansive view of generation included humans likewise in parsing the variety of creatures the rabbis attended to the overlaps and resemblances across seemingly distinct species upsetting in turn unmitigated claims of human distinctiveness intervening in conversations in animal studies queer theory trans theory and feminist science studies when a human gives birth to a raven provincializes sacrosanct ideals of reproduction in favor of a broader range of generation kinship and species offering powerful historical alternatives to the paradigms associated with so called traditional ideas

Forest Fires in Pennsylvania 1978

it is the author's contention that at the heart of the muslim predicament lies ignorance and or lack of commitment to core islamic values thus what is advocated throughout this work is a return to what is termed a value oriented approach we further learn that with the passage of time what we today consider to be the shariah is in effect an original hub enveloped in a labyrinthine shroud of scholastic views and deductions hindering muslim development and to rely on fraudulent hadith and fallacious implementation of hudud law is not only to betray the spirit of the qur'an and the prophet's message but a disastrous exercise consequences being blatant abuse of the muslim populace under cover of implementing a bogus shariah this abuse and misapplication is explored throughout the work
