## **International Economic Law**

2003

as conflict and cooperation among states turn to an ever greater extent on economic issues this treatise presents a comprehensive exploration of the legal foundations of the international economy the subjects covered include the world trade organization and its antecedents dumping subsidies and other devices that alter the market the international monetary system including the collapse of the bretton woods system the debt of the developing countries and the rise of the euro the law of transnational investment including changing perceptions of the rights of host states and multinational enterprises economicsanctions including embargoes and boycotts and the international aspects of competition law and of the law of the environment professor lowenfeld brings to his task a life time of practice and teaching experience to produce a book that will be of use to international lawyers and non specialists alike

## **International Economic Law**

1999-09-29

this is the third revised edition of international economic law which was first published in 1989 and based on a general course held by the author at the hague academy of international law in 1986 the success of both the first and second editions have proven this work to be a standard textbook on international economic law which has been widely used and studied this third edition takes account of some of the new developments in international economic law such as the ramifications of the internet the comprehensive analysis of all rules of public international law having direct influence on economic relations has been maintained and elaborated special attention is paid to the claims for a new international economic order the extraterritorial reach of domestic legislation the effects of nationalization the protection of the environment state immunity and economic welfare

## ***International Economic Law, Globalization and Developing Countries***

2010

this book is both breathtaking in its scope and impressive in its attention to legal and institutional detail in situating developing countries in the evolving body of international economic law essays in this volume canvas most important areas of international economic law including international trade law international financial regulation the regulation of foreign direct investment and multinational corporations foreign aid the enforcement of human rights standards and core international labour standards on multinational corporations international enforcement of anti corruption conventions international competition law international intellectual property rights and international environmental law a pervasive theme compellingly developed in most of these papers is the asymmetric structure of international institutions that generate rules in these various areas in which developing countries are mostly rule takers rather than equal participants the current global financial crisis may provide a welcome opportunity for re evaluating these institutional asymmetries in any such re evaluation this book will provide a veritable cornucopia of constructive new insights

## **Documents in International Economic Law**

2006

a unique collection of the full texts of major international treaties and agreements

## **Foundations of International Economic Law**

2019-12-27

## **International Economic Law**

2016-12-29

this volume scrutinises the main challenges faced by states in their current international economic relations from an interdisciplinary perspective it combines legal research with political and economic analysis and favours dialogue among scientific disciplines readers are offered a series of in depth studies on a rich variety of topics how to reconcile states interest to benefit from economic liberalization with their need to pursue social goals such as the protection of human rights or of the environment recent developments under wto law and regional integration processes international cooperation in the energy sector national regulatory developments in the banking sector sovereign wealth funds and investor state arbitration

## **New Voices and New Perspectives in International Economic Law**

2019-12-10

this book brings together a series of contributions by international legal scholars that explore a range of subjects and themes in the field of international economic law and global economic governance through a variety of methodological and theoretical lenses it introduces the reader to a number of different ways of constructing and approaching the study of international economic law the book deals with a series of different theoretical agendas and perspectives ranging from the more traditional empirical legal studies to the more alternative language theory and it expands the scope of substantive discussion and thematic coverage beyond the usual suspects of international trade international investment and international finance while the volume still gives due recognition to the traditional theoretical project of international economic law it invites the reader to extend the scope of disciplinary imagination to other less commonly acknowledged questions of global economic governance such as food security monetary unions and international economic coercion in addition to historically focused and critical perspectives the volume also includes a number of programmatic and forward looking explorations which makes it appealing to a broad audience with a variety of contrasting interests therefore the volume is of particular

interest to academics and postgraduate students in the fields of international law  
international relations international political economy and international history

anniversary they were originally published as the third issue of volume 10 of the journal in september 2007

## **The Future of International Economic Law**

2008

no detailed description available for international economic law

## **International Economic Law**

2019-03

reconciling all fields of international economic law iel and creating bridges between disciplines in a conceptual as well as practical manner this book stands out as the first modern comprehensive international economic law textbook containing a technically solid yet critically rich body of knowledge that spans disciplines from trade law to investment from trade finance to fisheries subsidies from development to the digital economy and other new age topics the book offers the widest possible coverage of issues in current international economic law positioning iel as a truly global practice the comprehensive coverage includes various treaty texts landmark cases and new materials and is supplemented by case studies real life examples exercises and illustrations the case extracts and legal texts are selectively chosen with careful editing and serious deliberation to engage modern law students mini chapters show examples of interdisciplinary interactions and provide a window into the future disciplines of international economic law

## ***International Economic Law***

2019-11-05

the fairness of institutions of global economic governance ranks among the most pressing issues of our time

## **International Economic Law**

2021-07-22

this book is on international economic law and as such unavoidably examines international economic institutions which to some extent determine the content and character of international economic law the imf the world bank oecd opec the paris and london clubs of creditors the g8 and g20 regional economic blocs and other economic institutions international economic law principles like the most favored nation principle national treatment standard rules of origin free trade foreign investment loans and sundry other issues are examined by the text showing how the interest of developed nations and international financial institutions sound through these legal issues the book interrogates international economic law than is commonly the case with mainstream texts on the subject

## **Research Handbook on Global Justice and International Economic Law**

2013-09-30

science and technology plays an increasingly important role in the continued development of international economic law this book brings together well known and

rising scholars to explore the status and interaction of science technology and international economic law the book reviews the place of science and technology in the development of international economic law with a view to ensure a balance between the promotion of trade and investment liberalisation and decision making based on a sound scientific process without hampering technological development the book features chapters from a range of experts including lukasz gruszczynski jürgen kurtz andrew mitchell and peter k yu who examine a wide range of issues such as investment law international trade law and international intellectual property by bringing together these issues the book asks how international trade and investment regimes utilise science and technology and whether they do so fairly and in the interest of broader public policies this book will be of great interest to researchers of international economic law health law technology law and international intellectual property law

## **Theory and Practice of International Economic Law**

2017-05-19

how do politics and international economic law interact with each other financial crises and shifts in global economic patterns have refocused our attention on how the fingerprints of the visible hand can be seen all over the institutions that underpin the rules of globalization from trade and investment to finance governments are under pressure to enforce resist and rewrite international economic law lawyers have seldom given enough attention to the influence of politics on law whereas political scientists have had an on again off again fascination with how the law influences relations among states this book leads the way toward filling this interdisciplinary gap through a series of important studies written by leaders in the field on specific problems in international economic relations the book demonstrates a variety of ways in which the international political economic nexus may be researched and understood

## **Science and Technology in International Economic Law**

2013-12-13

the principle of national treatment or the non discrimination clause is a principle that applies across many fields of international economic law this book offers a unique horizontal examination of the principle as it applies within international tr

## **The Politics of International Economic Law**

2011-03-07

volume 10 of the eyiel focusses on the relationship between transnational labour law and international economic law on the occasion of the 100th anniversary of the international labour organisation ilo as one of the oldest un agencies the ilo has achieved considerable progress with respect to labour rights and conditions the contributions to eyiel volume 10 assess these achievements in light of current and future challenges the ilo s core instruments and legal documents are analysed and similarly the impact labour standards have on trade and investment agreements in its regional section eyiel 10 addresses recent developments in the us and the eu including the us trade policy strategy towards china as well as the reform of the nafta in its part on institutions eyiel 10 focusses inter alia on the role of the rule of law in relation to current practices of the international monetary fund and of the wto s appellate body as an international court furthermore it provides an overview of current cases before the wto finally the volume entails a section with review essays on

recently published books in the field of international economic law and international investment law

## ***The Principle of National Treatment in International Economic Law***

2014-10-31

voitovich presents a clear and lucid discussion of the manner and form in which international economic organizations ieos participate in two main stages of the international legal process law making and law implementation the book is based on normative instruments and fragments of practice of about fifty ieos in order to ensure a proper and timely realization of their normative acts ieos exercise a number of law implementing functions which are subject to a thorough comparative examination the author concludes that existing ieos not being ideal institutional models possess a sufficient arsenal of law implementing instruments to make a considerable impact on the international legal regulations in the economic field the book will be of interest to academics and economic political scientists

## **European Yearbook of International Economic Law 2019**

2020-01-13

implementing international economic law focuses on the relationship between the rules of public international law and international economic law from the point of view of dispute settlement mechanisms it demonstrates that the practice of international adjudicative bodies such as the wto and the icsid went beyond merely interpreting and applying the rules of law and became international organisations as law makers this is where the sources of international law play a crucial role

## ***International Economic Organizations in the International Legal Process***

1994-12-08

standardization is a classic form of rulemaking nonetheless it is notoriously diffuse and gives rise to questions and debate in particular over the standards normativity legitimacy and nature whether public or private national or international moritz j k blenk applies a policy orientated approach to international law to comparatively analyze the role of private rulemaking within the context of international economic integration in the world trade organization and the european union he thereby aims to elucidate the opaque phenomenon of private standardization from a legal perspective and more profoundly shed new light on economic integration

## **Implementing International Economic Law**

2011-09-20

economic activity professor qureshi insists is a visible manifestation of the human condition the laws that regulate it and develop its norms must be deeply human international economic law must be ever vigilant in its efforts to represent the economic needs of all strata of humanity it must not allow the cultural imperatives of any one group to predominate to investigate the validity of this deeply held conviction in may 2001 professor qureshi and the university of manchester school of law brought

together a conference of major iel scholars to elicit as broad a diversity of perspectives as possible this book well informed in its insight and far reaching in its implications grew out of that conference issues and topics that arise in the course of the investigation include globalisation and its institutions the survival of the nation state the role of the international court of justice sustainable development developing countries and dispute settlement developing countries and trade negotiations regional integration human rights and the untouchability of iel and the gender bias of basic iel institutions and rules there are also clear presentations of specifically marxist and islamic perspectives and an analysis along lines of fairness as developed by thomas franck and john rawls perspectives in international economic law offers lawyers economists political scientists and policymakers a multifaceted multidisciplinary approach to one of the most vitally important human endeavours of our time while its immediate value and utility is apparent the depth of clear thinking it evinces on every page will keep it current for many years to come

## ***Uses and Misuses of International Economic Law***

2022-09-12

organized thematically rather than alphabetically the subject is split into four principal sections the foundations and architecture of international economic law its principles its main regulatory areas and the future challenges that it faces comprising over 250 entries traditional international economic law subject matter is supplemented by coverage of newly developing areas thus the concepts and rules of trade investment finance and international tax law are found alongside entries discussing the relationship of international economic law with environmental protection social standards development and human rights

## **Perspectives in International Economic Law**

2002-02-12

## **European Yearbook of International Economic Law 2011**

2011-01-12

this collection explores the theme of fragmentation within international economic law following the global financial crisis

## **EU External Action in International Economic Law**

2020-09-25

since the beginnings of the gatt and the bretton woods institutions and on to the creation of the wto states have continued to develop institutions and legal infrastructure to promote global interdependence international lawyers are experts in understanding how these institutions operate in practice but they tend to uncritically accept comparative advantage as the principal normative criterion to justify these institutions in contrast moral and political philosophers have developed accounts of global justice but these accounts have had relatively little influence on international legal scholarship and on institutional design this volume reflects the results of a

symposium held at tillar house the american society of international law headquarters in washington dc in november 2008 which brought together philosophers legal scholars and economists to discuss the problems of understanding international economic law from the standpoints of rights and justice in particular from the standpoint of distributive justice

## **International Economic Law after the Global Crisis**

2015-04-30

the united nations is commemorating the 25th anniversary of the 1986 declaration on the right to development which proclaimed the right to be an inalienable human right by virtue of which every human person and all peoples are entitled to participate in contribute to and enjoy economic social cultural and political development in which all human rights and fundamental freedoms can be realized the un now aims to mainstream the right into its policies and operational activities and is reviewing prospects for an internationally binding legal instrument the evolution of the right to development however has been dominated by debates about its conceptual validity and practical ramifications it has been hailed as the cornerstone of the entire human rights system and criticized as a distracting ideological initiative questions also persist about the role of the right in reforming the international economic order this book examines the legal and moral foundations of the right to development addressing the major issues it then considers the right to development in the global economy noting the challenges of globalization and identifying key principles such as differential treatment of developing countries participation and accountability it relates the right to broad objectives such as the millennium development goals the human rights based approach to development and environmental sustainability implications for international economic law and policy in the areas of trade development finance and corporate responsibility are assessed the conclusion looks to the legal and ethical contributions and limitations of the right to development in this new context with an academic and professional background in international law human rights and moral theology the author brings a unique interdisciplinary focus to this timely project

## **Global Justice and International Economic Law**

2012-01-09

for centuries international trade has been seen as essential to the wealth and power of nations more recently we have started to understand its problematic role as an engine of distributive justice in this compelling book frank j garcia proposes a new way to evaluate construct and manage international trade one that is based on norms of economic justice comparative advantage and national interest garcia examines three ways to conceptualize the problem of trade and global justice drawn from rawlsian liberalism communitarianism and consent theory these approaches illustrate specific issues of importance to the way global justice has been theorized offering a pluralistic mode of arguing for global justice and highlighting the unique modes of discourse we employ when engaging with global justice and their implications for conceptualizing and arguing the problem garcia suggests a new direction for trade agreements built around truly consensual trade negotiations and the kind of international economic system they would structure

## **International Economic Law and Developing States**

1992

international economic order ieo is a fashionable term sometimes liberally used and often not defined the ieo in the sense in which we are employing the phrase is

essentially modern in character it is a general description of the legal norms of international economic relations and its scope is confined largely to the sphere of public international law and international economic law but occasionally private international law and national legal norms with extraterritorial effects are also included
