optimal control theory applications to management science international series in  
~~nasa funds eight studies to protect astronaut health on long~~ ~~management science operations resear .pdf~~ ~~May 11 2024~~

nasa is funding eight new studies aimed at better understanding how the human body reacts to spaceflight these studies will be done on earth without the need for samples and data from astronauts

**investigators launch study aimed at accelerating** Apr 10 2024 a multidisciplinary team of researchers based at yale will launch a series of studies aimed at accelerating understanding of bipolar disorder and generating new and more effective treatments

*the effectiveness of postpartum interventions aimed at* Mar 09 2024

limited intervention studies aimed at improving postpartum mental disorders after medically complicated pregnancy were found most with a high risk of bias there was some evidence to suggest that postpartum depression and anxiety scores improved after early intervention

replicability reproducibility and replicability in science Feb 08 2024

we repeat our definition of replicability with emphasis added obtaining consistent results across studies aimed at answering the same scientific question each of which has obtained its own data

a review of intervention studies aimed at household energy Jan 07 2024

in this paper studies using antecedent interventions commitment goal setting information and modeling will be discussed first followed by studies using consequence interventions feedback and rewards

**the role of artificial intelligence in achieving the nature** Dec 06 2023

the emergence of artificial intelligence ai and its progressively wider impact on many sectors requires an assessment of its effect on the achievement of the sustainable development goals

*reproducibility and replicability in research national* Nov 05 2023

replicability means obtaining consistent results across studies aimed at answering the same scientific question using new data or other new computational methods one typically expects reproducibility in computational results but expectations about replicability are more nuanced

**reproducibility and replicability in science report** Oct 04 2023

replicability means obtaining consistent results across studies aimed at answering the same scientific question each of which has obtained its own data in short reproducing research involves using the original data and code while replicating research involves new data collection and similar methods used by previous studies

**secondary kit mutations the gist of drug resistance and** Sep 03 2023

studies aimed at improving our understanding of the molecular basis of sensitivity and resistance will soon allow us to further tailor our therapeutic strategies main

**efficacy of health literacy interventions aimed to improve** Aug 02 2023

the studies included interventions aimed at higher education students based on the transmission of information on a topic related to health

optimal control theory applications to management science international series in  
~~and with the aim of developing competences in the participants to~~  
management science operations resear .pdf  
understand the information and adopt healthy behaviours that protect health

summary reproducibility and replicability in science ncbi Jul 01 2023  
replicability is obtaining consistent results across studies aimed at answering the same scientific question each of which has obtained its own data two studies may be considered to have replicated if they obtain consistent results given the level of uncertainty inherent in the system under study

**the caper studies five case control studies aimed at** May 31 2023 this paper reviews the background to five primary care case control studies collectively known as the caper studies cancer prediction in exeter these studies on colorectal lung prostate

research synthesis wikipedia Apr 29 2023 research synthesis or evidence synthesis is the process of combining the results of multiple primary research studies aimed at testing the same conceptual hypothesis it may be applied to either quantitative 1 or qualitative research 2

full article gut bacteroides species in health and disease Mar 29 2023 various studies have been conducted to analyze the gut bacteriome in adults and children to get comparative insight into the respective microbiota the most common techniques involved in these comparative studies have been 16s rrna gene sequencing and shotgun metagenomic sequencing

*a systematic review of methodology used in studies aimed at* Feb 25 2023 a systematic review of methodology used in studies aimed at creating charts of fetal brain structures by vera donadono 1 2 angelo cavallaro 2 nia w roberts 3 christos ioannou 2 aris t papageorghiou 2 4 and raffaele napolitano 1 2 5 1 fetal medicine unit university college london hospitals nhs foundation trust london wcle 6db uk 2

encouraging pro environmental behaviour an integrative Jan 27 2023 1 a systematic approach to encourage pro environmental behaviour various environmental problems pose a threat to environmental sustainability among which global warming urban air pollution water shortages environmental noise and loss of biodiversity

**descriptive analysis in education a guide for researchers** Dec 26 2022 whether the goal is to identify and describe trends and variation in populations create new measures of key phenomena or describe samples in studies aimed at identifying causal effects description plays a critical role in the scientific process in general and education research in particular

review of studies aimed at bringing social skills for Nov 24 2022 1 introduction being a social creature enables human to be in tendency to create social relations and to join other social relations in any stage of his life individuals who have been in socialization period since his

*make free full text benchmarking studies aimed at* Oct 24 2022

benchmarking studies aimed at clustering and classification tasks using  
k means fuzzy c means and evolutionary neural networks by adam pickens  
and saptarshi sengupta department of computer science and information  
systems murray state university murray ky 42071 usa author to whom  
correspondence should be addressed mach learn knowl

*the receipt of health information on neonatal dangers signs* Sep 22 2022

background identification of neonatal danger signs and immediate access  
to health care are two global efforts aimed at enhancing newborn and  
child survival by preventing 75 of neonatal deaths despite various small  
scale studies on women s awareness of neonatal danger signs in ethiopia  
little is known about the level of receiving health information on those  
danger signs during the
