art and identity in dark age greece 1100 700 b c e by langdon susan helen 1952 publication date 2008 topics art prehistoric greece art and society greece greece civilization to 146 b c publisher the greek dark ages c 1200 800 bc were earlier regarded as two continuous periods of greek history the postpalatial bronze age c 1200 1050 bc 1 and the prehistoric iron age or early iron age c 1050 800 bc which included all the ceramic phases from the protogeometric to the middle geometric i 1 and lasted until the susan langdon s art and identity in dark age greece 1100 700 b c e sets out to offer a more comprehensive view of early greece by recognizing the place of children and women in a warrior based society preface this book explores how art and material culture were used to construct age gender and social identity in the greek early iron age 1100 700 bc coming between the collapse of the bronze age palaces and the creation of archaic city states these four centuries witnessed fundamental cultural developments and political realignments in this bold innovative and highly original study susan langdon does away with many old rather tired and often labored ways of looking at greek geometric art and in so doing breathes new life into the iconography of the period between 1100 and 700 b c art and identity in dark age greece 1100 700 b c e this book explores how art and material culture were used to construct age gender and social identity in the greek early iron age 1100 700 b c e coming between the collapse of the bronze age palaces and the creation of archaic city states these four centuries witnessed fundamental this book explores how art and material culture were used to construct age gender and social identity in the greek early iron age 1100 700 bc coming between the collapse of the bronze age palaces and the creation of archaic city states these four centuries witnessed fundamental cultural developments and political realignments but what can we infer about the political organization of the period between c 1100 and 700 bce what kind of leaders soon after the destruction or decline of the mycenaean administrative centers greece was segmented into petty kingdoms this book explores how art and material culture were used to construct age gender and social identity in the greek early iron age 1100 700 bc alex r knodell argues that in order to understand how ancient greece changed over time one must analyze how greek societies constituted and reconstituted themselves across multiple scales from the local to the regional to the mediterranean greece timeline solon replaces the draconian law in athens and lays the foundation for democracy pesistratos dies his sons become tyrants of athens alcmaeonid family and spartans free athens from tyranny silver mines discovered near athens phillip ii assassinated in this innovative study james whitley examines the relationship between the development of pot style and social changes in the dark
