these original essays mean to provoke rather than reassure to challenge rather than codify instead of summarizing existing knowledge after the fashion of the now ubiquitous literary companions these essays aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate although major authors such as chaucer and langland are richly represented many little known and neglected texts are considered as well analysis is devoted not only to self sufficient works but to the general conditions of textual production and reception contributors to this collection include some recognized and admired names but also a good many newer faces younger scholars whose groundbreaking research is just coming into full view and whose perspectives will influence the terms of literary discussion in the decades to come encouraged to speculate they have addressed topics that unsettle previous categories of investigation each is oriented toward the emergent the unfinalized the yet to be done each essay stirs new questions and concludes with suggestions for further reading and investigation that will allow readers to extend their own research into the questions it has raised

this is a truly paradigm shifting study that reads a key text in latin humanist studies as the culmination rather than an early example of a tradition in university drama it persuasively argues against the common assumption that there was no drama in the medieval universities until the syllabus was influenced by humanist ideas and posits a new way of reading the performative dimensions of fourteenth and fifteenth century university education in for example ciceronian tuition on epistolary delivery david bevington calls it an impressively learned discussion and commends the sophistication of its use of performativity theory

humanism is usually thought to come to england in the early sixteenth century in this book however daniel wakelin uncovers the almost unknown influences of humanism on english literature in the preceding hundred years he considers the humanist influences on the reception of some of chaucer s work and on the work of important authors such as lydgate bokenham caxton and medwall and in many anonymous or forgotten translations political treatises and documents from the fifteenth and early sixteenth centuries at the heart of his study is a consideration of william worcester the fifteenth century scholar wakelin can trace the influence of humanism much earlier than was thought because he examines evidence in manuscripts and early printed books of the english study and imitation of antiquity in polemical marginalia on

classical works and translations he also examines how various english works were shaped by such reading habits and in turn how those english works reshaped the reading habits of the wider community humanism thus contrary to recent strictures against it appears not as top down dissemination but as a practical process of give and take between writers and readers humanism thus also prompts writers to imagine their potential readerships in ways which challenge them to re imagine the political community and the intellectual freedom of the reader our views both of the fifteenth century and of humanist literature in english are transformed

the making of felony procedure in middle english literature explores the literary inheritance of criminal procedure in thirteenth to fifteenth century english law focusing on felony the gravest common law offense most scholarship in medieval law and literature has focused on statute and theory drawing from the instantiating texts of english law acts of parliament judicial treatises the magna carta but those whose job it was to write about the law rarely wrote about felony its definition was left to its practice from investigation to conviction and that procedure fell to local communities who were generally untrained in the law left with many practical and ethical questions and few legal answers they turned to cultural ones archived in sermons they had heard plays they had seen and poetry they knew this book reads the documents of criminal procedure coroners reports plea rolls and gaol delivery records alongside literary scenes of investigation interrogation and witnessing to tell a new intellectual history of criminal procedure s beginnings the chapters of the making of felony procedure guide the reader through the steps of a felony prosecution from act to conviction examining the questions local communities faced at each step what evidence should be prioritized in a death investigation should the accused consider narrative satisfaction when building his plea what are the dangers of a witnessing system that depends so heavily on a few oathworthy men what can a jury do if the accused s guilt seems partial or complex and what if the defendant for whatever reason refuses to participate in this new still delicate system of justice the book argues that answers they found and the sources that informed them created the system that became modern criminal procedure the epilogue offers some thoughts about the resilience and incoherence of the concept of felony from the start of the jury trial to the present day
