the bootleg guide is the ultimate in reference works for the 1960s and the 1970s

bootleg recordings within these pages lies a history of rock at its best as performed on stage or in the studio each entry is catalogued by title date featured tracks and contains a quality rating and comments on the nature and origin of the recording cross references are provided to other titles and extensive information is available on alternate titles of bootlegs in many cases quirky facts about a particular title are given something that in itself may make a title a highly desirable and sought after rarity amongst collectors limited editions are listed to help the reader and collector develop a clearer picture of just how obtainable a bootleg may be bootlegs are unofficial live and studio recordings of artists and bands that are released onto vinyl tape or cd by definition most are so rare that they change hands only for vastly inflated sums or are traded by networks of dedicated collectors worldwide serious fans and collectors have been known to spend as much as 225 for an original scratchy vinyl recording of bands like deep purple and the grateful dead dating back to the early seventies the rarest of all are akin to valuable paintings as far as collectors and traders are concerned

## **Index of Technical Publications 1977**

mexico s export assembly industry has been the object of an intensely polarized debate while some observers laud the maquiladora industry as a source of much needed employment and foreign exchange for mexico others berate it as a vehicle for exploitation and pollution exports and local development attempts to transcend the dichotomy by taking a practical look at how this export industry could be better utilized to promote local development using data gathered from a field survey of more than seventy maquiladora plants patricia a wilson compares the mexican industry with its more successful asian counterparts to determine how policy initiatives might help mexico use local linkages to tap the potential of both local and foreign owned assembly plants the study grounds its analysis of the maquiladora industry in leading edge issues including the rise of free trade changing corporate sourcing strategies the competitiveness of u s manufacturing the japanese challenge the spread of flexible technology and management methods the impacts of export led development strategies the importance of business networking and the role of small business it will be of interest to a wide audience in international business economic development planning public policy and economic geography
