2002

this book discusses the american short story composite or short story cycle a neglected form of writing consisting of autonomous stories interlocking into a whole the critical work done on this genre has so far focused on the closural strategies of the composites on how unity is accomplished in these texts this study takes into consideration to a greater degree than earlier criticism the short story composite as an open work emphasizing the tension between the independent stories and the unified work between the discontinuity and fragmentation on the one hand and the totalizing strategies on the other the discussion of the genre is illustrated with references to numerous american short story

composites

## **American Stories**

2008

for too long we've lacked a compact inexpensive authoritative and compulsively readable book that offers american readers a clear informative and inspiring narrative account of their country such a fresh retelling of the american story is especially needed today to shape and deepen young americans sense of the land they inhabit help them to understand its roots and share in its memories all the while equipping them for the privileges and responsibilities of citizenship in american society the existing texts simply fail to tell that story with energy and conviction too often they reflect a fragmented outlook that fails to convey to american readers the grand trajectory of their own history this state of affairs cannot continue for long without producing serious consequences a great nation needs and deserves a great and coherent narrative as an expression of its own self understanding and its aspirations and it needs to be able to convey that narrative to its young effectively of course it goes without saying that such a narrative cannot be a fairy tale of the past it will not be convincing if it is not truthful but as land of hope brilliantly shows there is no contradiction between a truthful account of the american past and an inspiring one readers of land of hope will find both in its pages

1999

over the past few decades the complicated divides of geography class religion and race created deep fractures in the united states each side fighting to advance its own mythology and political interests we lack a central story a common ground we can celebrate and enrich with deeper meaning unable to agree on first principles we cannot agree on what it means to be american as we dismantle or disregard symbols and themes that previously united us can we replace them with stories and rites that unite our tribes and maintain meaning in our american identity against this backdrop our american story features leading thinkers from across the political spectrum jim banks pulitzer prize winner david w blight spencer p boyer eleanor clift john c danforth cody delistraty richard a epstein nikolas gvosdev cherie harder jason kuznicki gerard n magliocca markos moulitsas ilya somin cass r sunstein alan taylor james v wertsch gordon s wood and ali wyne each draws on expertise within their respective fields of history law politics and public policy to contribute a unique perspective about the american story this collection explores whether a unifying story can be achieved and if so what that story could be

excerpt from the true story of the united states of america told for young people the story of the united states of america has already been told and re told for young americans by competent writers and yet there is room for another re telling to avoid as far as possible the dreary array of dates and the dull succession of events that may comprise the history hut do not tell the story to awaken an interest in motives as well as persons in principles rather than in battles in the patriotism and manliness that make a people rather than in the simply personal qualities that make the leader or the individual is the aim of the writer of this latest story the future of the republic depends on the upbringing of the boys and girls of to day any new light on the doings of the boys and girls of america s past when they grew to manhood and womanhood should be of service to the boys and girls of america s to day and to morrow the hope that this volume may help as such a light has inspired its author to write as concisely and as simply as he is able the story of the great republic s origin development and growth from the far off days of columbus the discoverer to the nobler times of washington the defender and lincoln the savior of america s liberties it has seemed advisable in view of the chain of events that have made the close of the nineteenth century notable years in the history of the republic to bring this true story of the united states as nearly as possible to date and thus include the stirring episode of the war with spain this new material is here thankfully offered to those young americans who have by their approval and appreciation made this book so gratifying a success may they live to be old americans proud of their native land worthy of it and loyal to it as it takes
