for courses in general methods student teaching and school law written in concise and accessible language school law for teachers concepts and applications is written for both preservice and inservice teachers it is meant to provide them with a broad legal background and to help them understand their rights and responsibilities as well as the rights of their students it covers the issues that are of greatest concern to classroom teachers today namely employment and tenure teachers rights teachers legal responsibilities students rights education of students with disabilities student discipline and due process discrimination and harassment religion and more

# *Pre-Service and In-Service Teacher Education 2018-08-23*

excellent teaching of mathematics at the elementary school level requires that the teacher be an expert in school mathematics this textbook for prospective teachers presents topics from the k 6 mathematics curriculum but at a greater depth than is usually found in the classroom the added knowledge that comes from this approach gives the teacher essential insight into how the topics interrelate and where difficulties might lie with this deeper mathematical preparation the teacher is better able to explain concepts demonstrate computational procedures and lead students through problem solving techniques the primary focus is on the foundations of arithmetic along with a selection of topics from geometry and a wide range of applications the number line is used throughout to visualize concepts and to tie them to the solution of problems the book emphasizes how to explain the concepts and how to explain problem solutions this is a textbook for a college course in mathematics for prospective elementary school teachers it will also be a resource for the instructors of such courses

# Pre-Service and In-Service Teacher Education *2018-08-23*

this book examines the relationship between teacher theorizing and teacher action as illustrated by the curricular and instructional practices of teachers the authors show that all teaching is guided by theory developed by the teachers teachers could not begin to practice without some knowledge of the context of their practice and without ideas about what can and should be done in those circumstances in this sense teachers are guided by personal practical theories that structure their activities and guide them in making decisions this literature is very significant in explaining and interpreting many phenomena of schooling such as why teachers alter curriculum documents and other policies how inservice education can be improved how supervisors can help teachers to improve their practices and how administrators can become leaders to improve education this perspective has broad and specific implications for every facet of education those interested in teacher education and development in supervision in curriculum and in administration will find it especially relevant

# *Integrating Video into Pre-Service and In-Service Teacher Training 2016-09-12*
