*Intellectual Property Rights: The Way Forward (IPRMCW-2016)* 2017-07-21 while a rapid gdp growth rate is a necessary condition for well being it is by no means a sufficient condition economists have long accepted that the market may be a very efficient allocator of resources to maximise output but not an adequate dispenser of social justice gdp growth depends very materially on the commodity producing sectors of agriculture and manufacturing industry performing much better than now and in a more consistent fashion this is of course possible but the chances of achieving such a growth rate require the stepping up of domestic investment rather steeply and an all round increase in factor productivities together with more employment of labour further productive distributive and social justice must be ensured for a real development and an overall well being in order to brainstorm on the subject in indian as well as global context the lead trust and unity degree college jointly organised a national seminar on april 10 2016 at unity degree college campus lucknow india noted academicians experienced administrators planners developers bankers trainers faculty members research scholars and students from different indian states submitted their papers for the seminar this book is a compendium of these papers

**Proceedings of National Seminar on Green IT** 1979 the seminar was conducted to highlight the vital role of graph theory combinatorics in developing mathematical theories for technological advancement and industrial innovation to bridge the gap between academia and industry to provide a platform for sharing the knowledge of the experts in the field among young students and researchers

**Advanced Polymers—A Gateway to Research & Industries** 2017-12-23 micro small and medium enterprises msme sector has emerged as a highly vibrant and dynamic sector of the indian economy over the last six decades msmes not only play crucial role in providing large employment opportunities at comparatively lower capital cost than large industries but also help in industrialization of rural backward areas thereby reducing regional imbalances assuring more equitable distribution of national income and wealth msmes are complementary to large industries as ancillary units and this sector contributes enormously to the socio economic development of the country the principal focus of this seminar is to create an awareness about msme amongst the participants and also make them understand the process of starting an enterprise this seminar will provide a platform where the government programmes related to msmes can be very well understood
