derivatives investor gov

Nov 03 2022

financial instruments whose performance is derived at least in part from the performance of an underlying asset security or index for example a stock option is a derivative because its value changes in relation to the price movement of the underlying stock

derivative calculator wolfram alpha

Oct 02 2022

how wolfram alpha calculates derivatives wolfram alpha calls wolfram languages s d function which uses a table of identities much larger than one would find in a standard calculus textbook it uses well known rules such as the linearity of the derivative product rule power rule chain rule

and so on additionally d uses lesser known rules
