Comprehensive Immigration Reform 2007

this volume presents a comprehensive unbiased and easily accessible review of u s immigration reform and explains why reform efforts have resulted in the current state of political deadlock over the issue in the united states congress comprising seven chapters immigration reform a reference handbook surveys the complex topic for high school undergraduate and general readers chapter 1 gives the historical background to current immigration reform efforts concentrating on the period from 1965 to date chapter 2 discusses problems and controversies and the proposed solutions to them chapter 3 consists of eight original essays contributed by other scholars complementing the perspective and expertise of the author chapter 4 profiles major organizations and people who as stakeholders in the politics of immigration reform drive the agenda on the issue chapter 5 presents data and documents on the topic giving readers the ability to analyze the facts chapter 6 provides additional resources that the reader may wish to consult such as books journal articles and films chapter 7 provides a detailed chronology of important events from 1965 to 2017 that propel the politics and establish the policy of u s immigration reform the book closes with a useful glossary of key terms used throughout the book and a comprehensive subject index

Legal Immigration Reform Proposals 1996

despite the united states history as a melting pot debate has increased of late regarding people crossing the borders illegally into the country this volume explores all sides of this issue including whether or not amnesty and a path to citizenship are viable aspects of immigration reform and who should decide these issues

Opening and Closing the Doors 1989

this report synthesizes the multi tiered debate over immigration reform into key elements legal immigration legalization immigration control refugees asylees and humanitarian migrants and alien rights benefits and responsibilities it delineates the issues for the 111th congress on permanent residence temporary admissions border security worksite enforcement employment eligibility verification document fraud criminal aliens and the grounds for inadmissibility

Immigration Reform 1982

in one convenient source the editors have compiled four recently released reports from the united states commission on immigration reform also known as the jordan commission this commission was established by the president and congress pursuant to the 1990 immigration act to study the effects of the immigration reform and control act of 1986 simpson rodino and propose new policies for legal and illegal immigrants

Interim Recommendations on Legal Immigration Reform 1995

there is a broad consensus that the united states immigration system is broken yet the political momentum behind the movement has not yet led to a consensus on how to fix it this momentum has stemmed from the agreement that we have an immigration crisis on our hands millions of undocumented immigrants living and working in the united states under increasingly harsh conditions tremendous spending on border security and enforcement measures without protection of civil rights changing voter demographics and other pressing issues have ushered in the moment for immigration reform this book presents research and policy recommendations from leading u s immigration experts and scholars who have many valuable insights and nuanced perspectives to offer to the current debate on immigration reform the goal of this immigration study is to disseminate knowledge and policy recommendations to scholars government officials the media and the general policy community on vital issues regarding the present question of immigration reform this book discusses the future prospects of immigration reform and delves into various details options and obstacles related to immigration reform the chapters presented shed light on a number of issues that are currently being debated in the immigration bill some of them address the salience of the immigration issue in latino political behavior and the impact of demographic context other papers hone in on the landscape of legislative initiatives addressing immigration at the state and local levels and some authors address the implications of immigration reform for the labor market and economic climate the book will be of interest to both scholars and policy makers concerned with immigration in the united states

Legal Immigration 1995

the uncomfortable contemporary realities of immigration enmeshed as they

are in economic human rights and national security issues have once again propelled foreign immigration to the top of the list of u s domestic policy concerns three respected authorities on immigration and international affairs here present a carefully calibrated history of u s immigration in primary source documents tracing the roots of the current debate in the history of our profoundly divided and surprisingly cyclical response to foreign immigration this book documents this national ambivalence identifying the major waves of immigration and clarifying the ways in which the existing social and political fabric conditioned both the response to the newcomers and their prospects of eventual integration into american society part i introduces the historical record the early days of the republic when most immigrants arrived from northern europe the most important wave of immigration to the united states in the country s history over 1880 1920 when most immigrants arrived from asia or from southern and eastern europe virulent post world war i anti immigration sentiment the world war ii era absorption of huge numbers of displaced persons fleeing the misery and devastation of europe transition from a quota system to a preference system heightened debate in the 1980s and 1990s the immigration policy repercussions of the terrorist attacks of september 11 2001 part ii takes up special issues in the contemporary immigration debate including the security debate and immigration and the u s judiciary the immigration debate and the economy and the spectrum of public opinion on immigration revealed during the 2008 presidential election campaign the authors demonstrate that today s highly polarized immigration reform debate in many respects recapitulates the antagonisms and chaotic policies of the 1980s and 1990s when ronald reagan s republican administration implemented an amnesty program while the state of california adopted the punitive proposition 187 paramount in today s immigration debate however are the homeland security concerns rendered acute by the 2001 bombing of the world trade center in new york city the controversial usa patriot act of 2001 and the homeland security act of 2002 are among the documents surveyed in relation to the contemporary immigration debate

Implementation of Immigration Reform 1989

immigration makes america what it is and is formative for what it will become america was settled by three different models of immigration all of which persist to the present the virginia colony largely equated immigration with the arrival of laborers who had few rights massachusetts welcomed those who shared the religious views of the founders but excluded those whose beliefs challenged the prevailing

orthodoxy pennsylvania valued pluralism becoming the most diverse colony in religion language and culture this book traces the evolution of these three models of immigration as they explain the historical roots of current policy debates and options arguing that the pennsylvania model has best served the country the final chapter makes recommendations for future immigration reform given the highly controversial nature of immigration in the united states this book provides thoughtful analysis valuable to both academic and policy audiences

Proposals for Immigration Reform 1995

while the united states cherishes its identity as a nation of immigrants the country s immigration policies are historically characterized by cycles of openness and xenophobia outbursts of anti immigrant sentiment among political leaders and in the broader public are fueled by a debate over who is worthy of being considered for full incorporation into the nation and who is incapable of assimilating and taking on the characteristics and responsibilities associated with being an american in illegal alien or immigrant lina newton carefully dissects the political debates over contemporary immigration reform beginning with a close look at the disputes of the 1980s and 1990s she reveals how a shift in legislator s portrayals of illegal immigrants from positive to overwhelmingly negative facilitated the introduction and passing of controversial reforms newton s analysis reveals how rival descriptions of immigrant groups and the flattering or disparaging myths that surround them define shape and can ultimately determine fights over immigration policy her pathbreaking findings will shed new light on the current political battles their likely outcomes and where to go from here

Immigration Reform 2015-12-16

laham argues that ronald reagan demonstrated gross ineptitude in his conduct of immigration policy he failed to press for much needed reforms in legal immigration while he supported the establishment of a fraud ridden employer sanctions regime which had no discernible effect in achieving its goal of stemming the flow of illegal immigration he failed to take the first step toward the establishment of a fraud resistant worker verification system which would enable the employer sanctions provisions of the immigration reform and control act irca to be effectively enforced additionally he supported the amnesty provisions of irca which granted permanent legal residence to 2.7 million often poorly educated unskilled and low wage illegal aliens according to laham reagan s failure to develop a sound and effective immigration policy was not due to the president s urge to satisfy the desires of special interests rather the reagan administration was crippled in its ability to design a sound and effective immigration policy by the lack of accurate and reliable information on this issue and by the president s own ideological hostility toward big government these factors impeded the ability of congress to design an effective employer sanctions regime capable of stemming the flow of illegal immigration to the united states

this thorough and controversial analysis will be of particular interest to scholars students and researchers involved with american immigration studies the presidency and contemporary public policy
