

soon stormed in with their own sophisticatedly engineered and marketed suvs pickups and minivans detroit suffering from a good enough syndrome and wedded to ineffective marketing gimmicks like rebates and zero percent financing failed to give consumers what they really wanted reliability the latest technology and good design at a reasonable cost drawing on a wide range of interviews with industry leaders including toyota s fuji cho nissan s carlos ghosn chrysler s dieter zetsche bmw s helmut panke and gm s robert lutz as well as car designers engineers test drivers and owners maynard presents a stark picture of the culture of arrogance and insularity that led american car manufacturers astray maynard predicts that by the end of the decade one of the american car makers will no longer exist in its present form this book is an upb306d and expanded version of the course notes for the composite awareness course run by the warwick manufacturing group in 1998 1999 the book gives readers an appreciation of composites materials properties manufacturing technologies and the wider implications of using composites in the automotive sector it will be useful for those already working with composites in automotive applications and for those who are considering using them in the future singapore s best homegrown car magazine with an editorial dream team driving it we fuel the need for speed this report examines the application of plastics in european cars in the middle of the year 2000 it evaluates the changes in use and considers possible developments over the next decade the use of plastics for specific components is examined comparison is made between competitive materials and examples of commercial application are included estimates are presented for current plastics usage in european cars with forecasts to 2008 i was born and raised in rockland county which until the mid fifties was a region of new york state characterized by small villages and farms just 18 miles or so from new york city after high school and college and having seen enough of progress destroying this wonderful way of life my wife and i moved to a small community a few miles from cooperstown new york home of the baseball hall of fame after raising three daughters and a career in education i decided to change the tempo of life and began a new occupation as a full time writer of automotive history this was simply an extension of what i had been doing since my preadolescent years when my brother and i would collect sales brochures from any auto dealer who wouldn t show us the exit door since we obviously had no cash no credit and no intention of buying a new car ever since i was in elementary school i was fascinated by the hopped up fords and chevys and even an occasional plymouth of the late 30 s and 40 s that the older cool boys drove to school recollections of those cars from long ago instantly came to mind when i first saw the pt cruiser in 2000 having previously written numerous articles and several books on chrysler vehicles my interest in the pt as the subject of a forthcoming volume was instantaneous go from ebay beginner to ebay pro in no time whether you an in depth hard hitting account of the mistakes miscalculations and myopia that have doomed america's automobile industry in the 1990s. detroit's big three automobile companies were riding high. the introduction of the minivan and the suv had revitalized the industry and it was widely believed that detroit had miraculously overcome the threat of foreign imports and regained its ascendant position. as micheline maynard makes brilliantly clear in the end of detroit however the traditional american car industry was in fact headed for disaster. maynard argues that by focusing on high profit trucks and suvs the big three missed a golden opportunity to win back the american car buyer. foreign companies like toyota and honda solidified their

dominance in family and economy cars gained market share in high margin luxury cars and in an ironic twist soon stormed in with their own sophisticatedly engineered and marketed suvs pickups and minivans detroit suffering from a good enough syndrome and wedded to ineffective marketing gimmicks like rebates and zero percent financing failed to give consumers what they really wanted reliability the latest technology and good design at a reasonable cost drawing on a wide range of interviews with industry leaders including toyota s fujio cho nissan s carlos ghosn chrysler s dieter zetsche bmw s helmut panke and gm s robert lutz as well as car designers engineers test drivers and owners maynard presents a stark picture of the culture of arrogance and insularity that led american car manufacturers astray maynard predicts that by the end of the decade one of the american car makers will no longer exist in its present form
