Considerations on Criminal Law, Vol. 1 of 3  
(Classic Reprint) 2018-01-25 in philip k dick s  
short story minority report the institution of  
precrime punishes people with imprisonment for  
crimes they would have committed had they not been  
prevented with dick s allegorical inspiration the  
authors of criminal law and precrime legal studies  
in canadian punishment and surveillance in  
anticipation of criminal guilt posit that recent  
developments in canadian law indicate a trend  
toward imposing punitive measures at increasingly  
earlier stages of the prosecutorial process the  
result is a potentially new field of criminal  
management that could be characterized as precrime  
particularly the use of the law as a technology of  
surveillance and prevention since terror became a  
justification for intervention the authors note  
that as risk management logics based in actuarial  
sciences have shifted to precautionary ones based  
in administrative sciences the law has responded  
by developing techniques in the arena of criminal  
regulation in light of the war on terror the need  
to ensure security the proliferation of digital  
data and the development of drones social  
networking and cloud storage to gather personal  
data the authors view shifts in criminal  
investigation the substantive criminal law of  
sexual expression conduct and work and civil  
forfeiture as emblematic of precrime populism the  
unifying theme of these techniques is that they  
occur prior to state identified crime arise out of  
a precautionary philosophy and seek to presume or  
circumvent criminality the book is a provocative  
read for scholars and students in criminal law  
policing and surveillance as well as for those

health and anti terrorism are mobilizing the logics of risk and surveillance in new ways that emphasize precaution the authors invite legal scholars to place the analytical lens of precrime on criminal and regulatory practices in canada as well as other western nations across the globe
