explore the current issue of the american mathematical monthly
volume 131 issue 6 2024 the college mathematics journal 1985
current math horizons 1993 current browse the list of issues and
latest articles from the american mathematical monthly the monthly
publishes articles as well as notes and other features about
mathematics and the profession its readers span a broad spectrum
of mathematical interests and include professional mathematicians
as well as students of mathematics at all collegiate levels first
published in 1894 the american mathematical monthly publishes
articles notes and other features about mathematics and the
profession in ten issues each year its readers span a broad
spectrum of mathematical interests and abilities all journal articles
featured in the american mathematical monthly vol 127 issue 10
the american mathematical monthly is an active peer reviewed
academic journal covering all components of mathematics pure and
applied it was established in 1894 and is published 10 times a year

by taylor francis inc on behalf of the mathematical association of america the american mathematical monthly website has tables of contents and article summaries for recent issues and more information about the journal and its sponsoring society volume 131 number 1 january 2024 reviews political geometry rethinking redistricting in the us with math law and everything in between edited by moon duchin and olivia walch birkhäuser 2022 477 pp isbn 978 3319691602 32 99 87 92 the american mathematical monthly 1999 vol 106 index publication date 1999 topics mathematics scholarly journals microfilm publisher mathematical association of america collection pub american mathematical monthly sim microfilm periodicals american mathematical monthly volume 97 number 1 january 1990 source the american mathematical monthly vol 88 no 7 aug sep 1981 pp 485 494 published by mathematical association of america stable url jstor org stable 2321753 american mathematical monthly volume 125 number 2 2018 bruce c berndt and sun kim and alexandru zaharescu the circle problem of gauss and the divisor problem of dirichlet still unsolved american mathematical monthly volume 88 number 4 april 1981 r arthur knoebel exponentials reiterated 235 252 j l brenner and r c lyndon proof of the fundamental theorem of
