this book presents a unique perspective on the development and status quo of judicial review in

east and southeast asia in particular it answers the questions of whether the system of judicial review of administrative action functions in east and southeast asian countries in the same way as in western countries and whether this system functions in the same way in countries that adopt the principle of concentration of powers and the principle of separation of powers together with papers on judicial review in the netherlands and germany and references to english law the legal systems discussed constitute a heterogeneous group of developed and developing economies continental and anglo saxon systems of law and capitalist and socialist legal orders the research and comparisons presented here form an invaluable resource for any scholar and lawyer interested in contemporary asian law or in the many facets of comparative administrative law

cold war between china and malaysia from 1949 to 1974

Convicted Before Trial 2006

this book examines the extraordinary nature of the power of preventive detention which permits executive dispensation of the personal liberty of an individual on the mere apprehension that if free and unfettered he may commit acts prejudicial to national security or public order in light of the extraordinary scope of this power it therefore contends that the scope of the power should be confined to genuine emergencies threatening the life of the nation against the above background this book sheds light on the fact that article 149 of the federal constitution of malaysia empowers the parliament to enact preventive detention laws authorizing the executive branch of government to preventively detain individuals without the precondition of an emergency furthermore the constitution does not stipulate adequate safeguards for mitigating the harshness of preventive detention laws this book makes it manifestly evident that the weaknesses of the constitutional provisions concerning preventive detention have enabled succeeding generations of executives in malaysia to not only enact a series of preventive detention statues for arrogating to themselves wide powers concerning preventive detention but also to rely on them for arbitrarily detaining their political adversaries consequently on the basis of this analysis this

book puts forward concrete recommendations for insertion in the constitution detailed norms providing for legal limits on the wide power of the executive concerning preventive detention the insertion of such norms would ensure the maintenance of a delicate balance between protecting national interests and simultaneously observing respect for an individual's right to protection from arbitrary deprivation of liberty this book is useful for academics and students of comparative constitutional law human rights and asian law the extensive law reform analysis undertaken in this book also greatly benefits the policy makers in malaysia and the policy makers of constitutional polities facing similar problems with the issue of circumscribing the scope of the powers concerning preventive detention

this book examines the legal principle of judicial independence in comparative perspective with the goal of advancing a better understanding of the idea of an independent judiciary more generally from an initial survey of judicial systems in different countries it is clear that the understanding and practice of judicial independence take a variety of forms scholarly literature likewise provides a range of views on what judicial independence means with scholars often advocating a preferred conception of a model court for achieving true judicial independence as part of a rule of law system this book seeks to reorient the prevailing approach to the study of judicial independence by better understanding how judicial independence operates within domestic legal systems in its institutional and legal dimensions it asks how and why different conceptualisations of judicial independence emerge over time by comparing detailed case studies of courts in two legally pluralistic states which share inheritances of british rule and the common law by tracing the development of judicial independence in the legal systems of malaysia and pakistan from the time of independence to the present the book offers an insightful comparison of how judicial independence took shape and developed in these countries over time from this comparison it suggests a number of contextual factors that can be seen to play a role in the evolution of judicial independence the study draws upon the significant divergence observed in the case studies to propose a refined understanding of the idea of an independent judiciary termed the pragmatic and context sensitive theory which may be seen in contradistinction to a universal approach while judicial independence responds to the core need of judges to be perceived as an impartial third party by constructing formal and informal constraints on the judge and relationships between judges and others its meaning in a legal system is inevitably shaped by the judicial role along with other features at the domestic level the book concludes that the adaptive and pragmatic qualities of judicial independence supply it with relevance and legitimacy within a domestic legal system

in the politics of islamic law iza hussin compares india malaya and egypt during the british colonial period in order to trace the making and transformation of the contemporary category of islamic law she demonstrates that not only is islamic law not the shari ah its present institutional forms substantive content symbolic vocabulary and relationship to state and society in short its politics are built upon foundations laid during the colonial encounter drawing on extensive archival work in english arabic and malay from court records to colonial and local

papers to private letters and visual material hussin offers a view of politics in the colonial period as an iterative series of negotiations between local and colonial powers in multiple locations she shows how this resulted in a paradox centralizing islamic law at the same time that it limited its reach to family and ritual matters and produced a transformation in the muslim state providing the frame within which islam is articulated today setting the agenda for ongoing legislation and policy and defining the limits of change combining a genealogy of law with a political analysis of its institutional dynamics this book offers an up close look at the ways in which global transformations are realized at the local level
