Art 2007-01-01

the new study provides a fresh and timely reassessment of the political philosophy of hannah arendt while analysing the central themes of arendt s work

phillip hansen also shows that her work makes a significant contribution to contemporary debates specifically hansen argues that arendt provides a powerful account of what it means to think and act politically this account can establish the grounds for a contemporary citizen rationality in the face of threat to a genuine politics among other issues hansen discusses arendt's conception of history and historical action her account of politics and of the distinction between public and private her analysis of totalitarianism as the most ominous form of false politics and her treatment of revolution the book is a balanced and opportune reappraisal of arendt's contributions to social and political theory it will be welcomed by students and scholars in politics sociology and philosophy

Fifty Key Contemporary Thinkers 2006-08-21

this book is the first comprehensive exposition of the work of one of the most important intellectual historians and political theorists writing today quentin skinner's treatment of political theory as a dimension of political life marks a revolutionary move in the historical as well as the philosophical study of political thought skinner brings the study of political theory closer to the language of agents and treats theorists as politicians of a special kind this is as true of his accounts of his contemporaries such as rawls rorty geertz and habermas as it is of his interpretations of classical thinkers such as machiavelli and hobbes skinner has become internationally renowned for this approach which ties together historical and contemporary analysis in order to integrate the study of the past and the present and which tries fully to uncover the historical context and development of key concepts in political theory such as freedom and the state this volume charts skinner's work from the early 1960s right up to the present including his most recent studies in the theory of persuasive speech and is organized around five major themes history linguistic action political thought liberty and rhetoric it pays particular attention to skinner's work in relation to that of continental thinkers especially max weber and reinhart koselleck the book will be essential reading for students and scholars of political and social theory history philosophy and cultural studies

Hannah Arendt 1993-08-30

bruno latour is among the most important figures in contemporary philosophy and social science his ethnographic studies have revolutionized our understanding of areas as diverse as science law politics and religion to facilitate a more realistic understanding of the world latour has introduced a radically fresh philosophical terminology and a new approach to social science actor network theory in seminal works such as laboratory life we have never been modern and an inquiry into modes of existence latour has outlined an alternative to the foundational categories of modern western thought Ð particularly its distinction between society and nature Ð that has major consequences for our understanding of the ecological crisis and of the role of science in democratic societies latour's empirical philosophy has evolved considerably over the past four decades in this lucid and compelling book gerard de vries provides one of the first overviews of latour's work he guides readers through latour's main publications from his early ethnographies to his more recent philosophical works showing with considerable skill how latour's ideas have developed this book will be of great value to students and scholars attempting to come to terms with the immense challenge posed by latour's thought it will be of

interest to those studying philosophy anthropology sociology science and technology studies and almost all other branches of the social sciences and humanities

Quentin Skinner 2003-06-02

Fifty Major Political Thinkers 2003

space and place are at the heart of how geographers and sociologists think this updated edition of the essential undergraduate text will introduce you to the most influential thinkers in the tradition of social theory with a new focus on the past fifty years this book is designed to engage with theoretical debates in human geography through the individuals who have made the most significant contributions to this field this will show you how ideas are shaped by contexts and how those ideas in turn effect change this book shows how theoretical understandings evolve shift and change it also highlights the connections between different thinkers whose ideas are developed in collaboration with or in reaction to others spatial thought is never developed in a vacuum but is always constructed by individuals and groups of people located in particular institutional and social structures with their own sets of personal and political beliefs the biographical approach of this book reveals how individual thinkers draw on a rich legacy of ideas from past and contemporary generations with increased coverage of international and female thinkers as well as those who work against eurocentric notions of space and place this book reveals the exciting reorientation of geography towards new ideas and methods in the last decade each entry contextualises its subject within on going inter disciplinary debates and important political moments as well as highlighting connections between different thinkers together the chapters uncover the rich and diverse evolution of social theory equipping you with the foundational ideas of geographical thought each entry offers the following components i a short biography ii an explanation of ideas iii an exploration of how their ideas have been used and critiqued iv a selective bibliography of key publications and key publications which review or critique

Key Contemporary Concepts 2003-02-24

zizek is hailed as the most significant interdisciplinary thinker of modern times his work is a powerful often explosive combination of lacanian psychoanalysis and philosophy which tests key psychoanalytical concepts against the ideas of major european thinkers especially hegel it has ignited enthusiasm and stimulated new approaches across a vast range of disciplines and seems to be attracting an ever growing readership in part this is because zizek himself has a panoramic range of interests encompassing film studies literature cyber culture ethics theology and above all politics it is also because he is a highly entertaining writer having a flair for anecdote a smutty sense of humour and the knack of capturing complex ideas in concrete form sarah kay s book provides a lucid and comprehensive introduction to zizek s work his writings to date are presented and evaluated here for the first time together with an outline of their development and explanations of his key premises themes and terms this book will be essential reading for students of cultural studies literary studies philosophy and social and political theory

***Fifty Key Thinkers in International Relations* 2013-03-07**

michael dummett stands out among his generation as the only british philosopher of language to rival in stature the americans davidson and quine in conjunction with them he has been responsible for much of the framework within which questions concerning meaning and understanding are raised and answered in the late twentieth century anglo american tradition dummett s output has been prolific and highly influential but not always as accessible as it deserves to be this book sets out to rectify this situation karen green offers the first comprehensive introduction to dummett s philosophy of language providing an overview and summary of his most important arguments she argues that dummett should not be understood as a determined advocate of anti realism but that his greatest contribution to the philosophy of language is to have set out the strengths and weaknesses of the three most influential positions within contemporary theory of meaning realism as epitomised by frege the holism to be found in wittgenstein quine and davidson and the constructivism which can be extracted from brouwer it demonstrates that analytic philosophy as dummett practices it is by no means an outmoded approach to thinking about language but that it is relevant both to cognitive science and to phenomenology

Key Thinkers on Space and Place 2024-05-11

this book explores the relevance of key thinkers in social science from historical traditions to contemporary philosophers and the nature of modern society and how theories and concepts can be used to shed light on trends and inequalities around the world in which these thinkers lived history is fast moving the book attempts to explore the works of weber durkheim and marx in the first three chapters to illustrate how their varieties of social science gave intimation about the social world in terms of social disorder and the remedies and actions needed to bring about social justice the latter three chapters explore arguably the three most influential thinkers in social science of the 20th century parsons foucault and habermas these thinkers in different ways gave a number of diagnoses of modern society some arguing for more balance between individuals and society as best regulated by institutions such as the

family parsons others argued for a more sophisticated understanding of power and how it plays out for social groups in modern society foucault whilst for others critical social scientists should be focusing on defending the enlightenment ideals of reason and rationality as we go further into the 21st century the book raises questions and provides many examples to stimulate thoughtful reflection about all our yesterdays todays and tomorrows

Zizek 2003-04-29

a collection of biographies of fifty people who have helped make management what it is today

Dummett 2001-10-08

Heidegger 2014-04-10

hayek has been one of the key liberal thinkers of the twentieth century he has also been much misunderstood his work has crossed disciplines economics philosophy and political science and national boundaries he was an early critic of keynes and became famous in the 1940s for his warnings that the advance of collectivism in western democracies was the road to serfdom he was a key figure in the post war revival of free market liberalism and achieved renewed notoriety and some political influence in the 1970s and 1980s as one of the chief intellectual inspirations for the new right in britain and the united states this book traces hayek s intellectual formation in austrian economics and english liberalism it analyzes the main themes of his thought such as the idea of a market order the nature of knowledge the limits of government and his critiques of socialism and conservatism and assesses the originality and internal coherence of his account of liberalism and modernity as well as his interventions in policy debates it argues that hayek the social scientist has to be disentangled from hayek the ideologue in order to appreciate the importance and implications of some of his insights into the nature of modern societies as a critical guide to one of the most influential thinkers of our

times this book is an indispensable source it will be of interest to students in politics economics and philosophy as well as to all those interested in a comprehensive introduction to one of the most controversial thinkers of the twentieth century

Dummett 2013-05-02

are your students baffled by baudrillard dazed by deleuze confused by kristeva other beginners guides can feel as impenetrable as the original texts to students who think in images contemporary thinkers reframed instead uses the language of the arts to explore the usefulness in practice of complex ideas short contemporary and accessible these lively books utilise actual examples of artworks films television shows works of architecture fashion and even computer games to explain and explore the work of the most commonly taught thinkers conceived specifically for the visually minded the series will prove invaluable to students right across the visual arts single handedly responsible for the influential and ominous notion of the gaze d by everybody yet fully understood by few lacan s work can be difficult to grasp going back to basics this introduction guides the reader through lacan s key concepts by looking at art from the mona lisa through to bridget riley s paintings and by looking afresh at key works discussed by lacan himself from holbein s famous the ambassadors to velazquez s las meninas making sense of lacan s sometimes convoluted style this highly readable introduction to one of the most frequently d thinkers also explores the reasons why human beings make and look at art bloomsbury publishing

Fifty Contemporary Film Directors 2010-10-04

this two volume set is part of a growing body of literature concerned with the history of biblical interpretation the ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the enlightenment identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed volume 1 contains fourteen essays on twenty two interpreters who were principally active before 1980 and volume 2 has nineteen essays on twenty seven of those who were active primarily after this date each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field this is followed by an often new application of the scholar s theory by focusing on the individual scholars and their work the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live this set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed
