excerpt from the cambrian and caledonian quarterly magazine and celtic repertory 1833 vol 5 yet it is horrid to think in connexion with dishonest in statesmen that because popular imagination has been fed by a venal press great britain if she be influenced by this upas of literature stands a good chance of being hurried on to an universal immadened state of anarchy while every possible amelioration that can may be gained without it by a careful selection of members of parliament according to the simple precedent we have recorded and here we may be allowed to remark how shamelessly has one portion of the press vilified the tories and another portion the whigs while there have been great and good many great and good men and how insidiously is it now labouring to let the disassonate the philanthropic low neighbouroods of the metropolis during of dissipation which are there nightly going out let him do this and he will as we have done soon discover what sort of reaction is now afloat the miserable attacks formerly made are now at an end we hear no thing of noscy or old bags but camellion like they have chan to true blue and grey and brougham are vilified alike in terms stupidly opprobrious and wicked here is reaction based upon the vilest ebullition of democratic wildness the chief reason of it is that some of our daily weekly and monthly contemporaries look not to religion or moral feeling as their guide out upon it we want an increased circulation let our country fall and still are a portion of the world mad enough to be influenced by these self interested vehicles of demoralization we now wish to offer our opinion upon the system of pledging we think that to extort one million a man as to his future conduct in legislation before he has seen or can judge of the premises on which his pledges are given is in plain terms to pronounce the electors and the elected knaves and idiots suppose the administrators to the laws instead of the makers of them were to pledge themselves in decision previously to hearing the bearings of a civil or criminal case what would be said of them then indeed would the names of scroggs and jeffreys not stand alone and in such cases infamy must necessarily stain the otherwise exalted reputation of the british judge and yet such conduct is not uncommonly required at the hands of parliamentary representatives the cause of this may appear to many of our readers inexplicable to us it seems to be founded on improper interference on direct innovation of the election law a constituency requiring pledges by they who they may exhibit in their demands a most dangerous leaning to misgovernment in its very worst form absolute rule devoid of reasoning power about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

the highland clearances stands out as one of the most emotive chapters in the history of scotland this book traces the origins of the clearances from the eighteenth century to their culmination in thecrofting legislation of the 1880s in considering both the terrible suffering of the highland people as well as the stark choices that faced landowners during a period of rapid economic change it shows how the clearances were one of many attempted solutions to the problem of how to maintain a population on marginal and infertile land and were in fact part of a wider european movement of rural depopulation in drawing attention away from the mythology to the hard facts of what actually happened the highland clearances offers a balanced analysis of events which created a terrible scar on the highland and gaelic imagination

Celtic Fairy Tales 2017-07-27

the brahan seer is a legendary figure known throughout scotland and the scottish diaspora and indeed anywhere there is an interest in looking into the future this book traces the legend of the seer between the sixteenth and twenty first centuries it considers the seer figure in relation to aspects of scottish highland culture and society that shaped its development during this period these include the practice and prosecution of witchcraft the reporting and scientific investigation of instances of second sight and the perennial belief in and use of prophecy as a means of predicting events in so doing the book provides a set of historicised contexts for understanding the genesis of the legend and how it changed over time through a synthesis of historical events oral tradition folklore and literary romanticism it makes a contribution to the debates not only about witchcraft second sight and prophecy but also about the relationship between popular and elite culture in scotland by taking the brahan seer as a case study it argues that popular culture is not antithetical to elite culture but rather in constant and complex interaction with it
