nations small so as to limit the power of elite directors it is a simple idea with profound implications he spotlights successful small nations around the world as the best working models of sustainable sociocultural systems and shows how these diverse small nations can be the building blocks of a transformed global system that could save the world

An Introduction to Greek Art **2015-02-26**

the four centuries between the composition of the homeric epics and the conquests of alexander the great witnessed an immensely creative period in greek art one full of experimentation and innovation but time has taken its toll damaged statues have lost their colour and wall paintings have been totally destroyed and yet sympathetic study of surviving sculpture and of drawing on vases can give extraordinary insight into and appreciation of these once brilliant works this book designed originally for students introduces the reader to greek sculpture and vase painting in the critical period from the eighth to the fourth centuries bc the works discussed are generously illustrated and lucidly analysed to give a vivid picture of the splendor of greek art the up dated second edition includes a new chapter examining art in greek society a timeline to help relate artistic development to historical events an explanation of how dates bc are arrived at a brief overview of greek temple plans and a further
