Larry Hurtado's *One God, One Lord* has been described as one of the most important and provocative Christologies of all time. Alan F. Segal says the book has taken its place among works on Jesus as one consistently cited, consistently read, and consistently examined in scholarly discourse. Hurtado examines the early cultic devotion to Jesus through a range of Jewish sources. Hurtado outlines an early high Christological theology showing how the Christ of faith emerges from monotheistic Judaism. The book has already found a home on the shelves of many in its two previous editions. In this new Cornerstones edition, Hurtado provides a substantial epilogue of some twenty thousand words which brings this ground-breaking work to the fore once more in a format accessible to scholars and students alike.

but the bible says is a common enough refrain in many conversations about christianity the written verses of the four canonical gospels are sometimes volleyed back and forth and taken as fact while the apocryphal and oral accounts of the life of jesus are taken as mere oddities early thinkers inside and outside the community of jesus followers similarly described a contentious relationship between the oral and the written though they often focused on the challenges of trusting the written word over the spoken socrates described the written word an illegitimate bastard compared to the spoken word of a teacher nevertheless the written accounts of the jesus tradition in the gospels have taken a far superior position in the christian faith to any oral tradition in the gospel as manuscript chris keith offers a new material history of the jesus tradition s journey from voice to page showing that the introduction of manuscripts played an underappreciated but crucial role in the reception history of the gospel from the textualization of mark in the first century ce until the eventual usage of liturgical readings as a marker of authoritative status in the second and third centuries early followers of jesus placed the gospel as manuscript on display by drawing attention to the written nature of their tradition many authors of gospels saw themselves in competition with

Rise to Conquer 1979

this is a print on demand book and is therefore non returnable this monograph is a detailed examination of the

textual characteristics and relationships of important early greek manuscripts of the gospel of mark chiefly codex washingtonianus w and also family 13 and p45 and challenges the generally accepted view that these manuscripts are witnesses to an early stage of the caesarean text type the study begins with a discussion and critique of previous studies on the caesarean text type showing the methodological weaknesses that demand a fresh analysis of the data and emphasizing the crucial importance of codex w for the whole question of the textual history of mark then a methodological approach is set forth involving both careful quantitative measurement of manuscript agreements and detailed analysis of variants in the interest of determining both the textual relationships and textual character of manuscripts when this more sophisticated approach is applied to the chief witnesses to the so called pre caesarean text of mark it is confirmed that w and p45 do show a significant relationship with each other and that family 13 is a weaker member of the same group however the commonly held view that these witnesses reflect the early stage of the caesarean text type is shown to be erroneous in addition to clarifying the textual relationships of the witnesses the study defines more accurately their textual character showing the scribal purposes reflected in the variants that characterize these manuscripts and adding considerably to our knowledge of the forces affecting the early transmission of the text of mark this is the first detailed examination of the markan text of codex w since the publication of the manuscript and the first published book length study dealing with the caesarean text of mark since the initial work of kirsopp lake and his colleagues blake and new this work not only addresses a

major issue in the textual history of mark but offers methodological suggestions for the continuing investigation of the textual history of the new testament

Text-critical Methodology and the Pre-Caesarean Text 1981

given the dearth of non messianic interpretations of psalm 110 1 in non christian second temple jewish texts why did it become such a widely used messianic proof-text in the new testament and early christianity previous attempts to answer this question have focused on why the earliest christians first began to use ps 110 1 the result is that these proposals do not provide an adequate explanation for why first century christians living in the greek east employed the verse and also applied it to jesus s exaltation i contend that two greco roman politico religious practices royal and imperial temple and throne sharing which were cross cultural rewards that greco roman communities bestowed on beneficent pious and divinely approved rulers contributed to the widespread use of ps 110 1 in earliest christianity this means that the earliest christians interpreted jesus s heavenly session as messianic and thus political as well as religious in nature
