Egypt - The Lost Homeland: Exodus from Egypt, 1947-1967

2015-09-25 in the twentieth century the political zionist movement and egyptian rulers completely uprooted the country s thriving jewish community a goal the pharaohs tried to realize as early as 3500 years ago mostly comprised of descendants of sephardim from the iberian peninsula the world s oldest jewish community totaled 85 000 members in 1948 no more than 100 to 200 jews live in egypt today this book tells the story of egypt s jewish history from biblical times to 1967 the year of one of the last major jewish emigration waves from egypt it highlights the first exodus in ca 1500 bce and the second exodus which was triggered by the foundation of the state of israel and three successive wars in 1948 1956 and 1967 throughout the narrative it becomes evident that the jewish community consistently was subject to the arbitrary will of egyptian rulers starting in 1948 members of this community were forced to leave the country without any of their belongings on short notice like other jews from the arab world egyptian jews were not zionists in the

eurocentric ashkenazi sense their arrival in israel was met with prejudice and disdain even though they were discriminated against in matters of housing and education they still managed to integrate well into israeli society and are now members of the country's upper and middle class the evidence presented in this book is based on interviews with ninety six egyptian jews in israel and the united states

The Zionist Ideas 2018-04 many people realize that the cultural landscape of north america has shifted significantly with such changes new challenges for how churches live as a proclamation of the gospel have and continue to emerge these challenges are related to the church s participation in the mission of god and particularly how local churches live faithfully to god while remaining relevant to such challenges because scripture is revered as god s word this matter also pertains to the way churches read scripture since the bible

does shape how churches embody the gospel
portraits addresses the intersection of mission and
hermeneutics for churches within their local contexts believing
the gospel calls the church to follow jesus and bear witness
to the kingdom of god this book proposes that churches
should read the bible as a christ centered and kingdom
oriented narrative this reading of scripture allows churches to
reimagine how they might embody the gospel within their
local contexts discerning what a contextual embodiment of
the gospel involves churches portray god s new creation in
ways that are coherent with the biblical story and relevant to
their local context in doing so churches live as christ formed
and spirit led communities portraying the gospel

failures of barbaric thinking explores the relationship among geopolitics religion and social theory it argues that during the postcolonial and post holocaust era jewish thinkers in different parts of the world were influenced by global south thought and mobilized this rich set of intellectual resources to confront the assimilation of normative judaism by various incipient neo colonial powers by tracing the historical and conceptual lineage of this overlooked conversation this book explores not only its epistemological opportunities but also the internal contradictions that led to its ultimate unraveling especially in the post 9 11 world

Gospel Portraits 2022-05-17 before the ussr collapsed ethnic identities were imposed by the state this book analyzes how and why jews decided what being jewish meant to them after the state dissolved and describes the historical evolution of jewish identities surveys of more than 6 000 jews in the early and late 1990s reveal that russian and ukrainian jews have a deep sense of their jewishness but are uncertain what it means they see little connection between judaism and being

jewish their attitudes toward judaism intermarriage and jewish nationhood differ dramatically from those of jews elsewhere many think jews can believe in christianity and do not condemn marrying non jews this complicates their connections with other jews resettlement in israel the united states and germany and the rebuilding of public jewish life in russia and ukraine post communist jews especially the young are transforming religious based practices into ethnic traditions and increasingly manifesting their jewishness in public

classic wright clear accessible robust engaging and
challenging paula gooder in third way scholarly accessible
insightful and provocative christianity wright argues
compellingly that the twin themes of kingdom and cross are
inseparably linked this is a much needed reorientation the
book makes its case for rethinking cogently and deserves
widespread attention theology

Advancing Toward Eternity 2003-09 a valuable primer on foreign policy a primer that concerned citizens of all political persuasions not to mention the president and his advisers could benefit from reading the new york times an examination of a world increasingly defined by disorder and a united states unable to shape the world in its image from the president of the council on foreign relations things fall apart

the center cannot hold the rules policies and institutions that have guided the world since world war ii have largely run their course respect for sovereignty alone cannot uphold order in an age defined by global challenges from terrorism and the spread of nuclear weapons to climate change and cyberspace meanwhile great power rivalry is returning weak states pose problems just as confounding as strong ones the united states remains the world s strongest country but american foreign policy has at times made matters worse both by what the u s has done and by what it has failed to do the middle east is in chaos asia is threatened by china s rise and a reckless north korea and europe for decades the world s most stable region is now anything but as richard haass explains the election of donald trump and the unexpected vote for brexit signals that many in modern democracies reject important aspects of globalization including borders open to trade and immigrants in a world in disarray haass argues for an updated global operating system call it world order 2 0 that reflects the reality that power is widely

distributed and that borders count for less one critical element of this adjustment will be adopting a new approach to sovereignty one that embraces its obligations and responsibilities as well as its rights and protections haass also details how the u s should act towards china and russia as well as in asia europe and the middle east he suggests too what the country should do to address its dysfunctional politics mounting debt and the lack of agreement on the nature of its relationship with the world a world in disarray is a wise examination one rich in history of the current world along with how we got here and what needs doing haass shows that the world cannot have stability or prosperity without the united states but that the united states cannot be a force for global stability and prosperity without its politicians and citizens reaching a new understanding

penniless he was traveling from texas to new york to make a new start as he eked his way across the country by bus and by thumb he couldn't avoid berlin's song some people say that it was when he was freezing by the side of the road in a pennsylvania snowstorm that he conceived of a rebuttal it would encompass the dark realities of the dust bowl and great depression and it would begin with the lines this land is your land this land is my land in this land that i love john shaw writes the dual biography of these beloved american songs examining the lives of their authors he finds that guthrie and berlin had more in common than either could have guessed though guthrie's image was defined by train hopping irving berlin had also risen from homelessness having worked his way up from the streets of new york at the same time this land that i love sheds new light on our patriotic musical heritage from yankee doodle and the star spangled banner to martin luther king's recitation from my country 'tis of thee on the steps of the lincoln memorial in august 1963 delving into the deeper history of war songs

minstrelsy ragtime country music folk music and african american spirituals shaw unearths a rich vein of half forgotten musical traditions with the aid of archival research he uncovers new details about the songs including a never before printed verse for this land is your land the result is a fascinating narrative that refracts and re envisions america s tumultuous history through the prism of two unforgettable anthems

The Images of God 2016-02 this book explores the theme of the missional conversion of the church namely how the church is transformed toward its missionary vocation from a biblical theological perspective the purpose of this book is to find biblically grounded theologically sound and practically applicable principles helpful for the church which seeks to be continuously shaped into a missional community which authentically and fully participates in god s mission today the biblical theological findings on how the triune god in the biblical narrative shapes the people of god toward their missionary vocation demonstrates first that in scripture the

missional conversion of the church is primarily the consequence of its continuous encounter with the triune god and second that this divine human encounter for the missional conversion of the church is ineluctable in view of the ongoing tension between the missional faithfulness of god in fulfilling the missionary vocation of the church on the one hand and the missional failure of the church in its missionary vocation on the other hand
