there is widespread agreement that status or standing in the international system is a critical element in world politics the desire for status is recognized as a key factor in nuclear proliferation the rise of china and other contemporary foreign policy issues and has long been implicated in foundational theories of international relations and foreign policy despite the consensus that status matters we lack a basic understanding of status dynamics in international politics the first book to comprehensively examine this subject fighting for status presents a theory of status dissatisfaction that delves into the nature of prestige in international conflicts and specifies why states want status and how they get it what actions do status concerns trigger and what strategies do states use to maximize or salvage their standing when does status matter and under what circumstances do concerns over relative position overshadow the myriad other concerns that leaders face in examining these questions jonathan renshon moves beyond a focus on major powers and shows how different states construct status communities of peer competitors that shift over time as states move up or down or out of various groups combining innovative network based statistical analysis historical case studies and a lab experiment that uses a sample of real world political and military leaders fighting for status provides a compelling look at the causes and consequences of status on the global stage one of the enduring myths of the franco state was that the nationalist forces that won the civil war consisted of patriotic spaniards while the republic was defended by a rag tag army of foreign reds during the spanish civil war however many groups on the european right were galvanized by the nationalist cause european fascists conservative catholics and those uneasy with liberal democracy in general rallied to the figure of franco who appeared to be holding the line against secularism modernism and bolshevism this book recounts the experiences of a number of foreign volunteers including the brigades of white russians romanians irish and the french volunteers in the jeanne d arc battalion all of whom saw their engagement in spain as a means of promoting their own political causes at home as well there were individual women and men from the new world and the old who were moved by religion politics or simply adventurism to join up with franco fighting for franco reconstructs their motivation and the mind set which took them to spain it thus casts a new light on nationalist spain and on the specific concerns of a wide variety of right wing movements between the wars in the wake of the global financial crisis water services have come under renewed neoliberal assault across europe at the same time the struggle against water privatization has continued to pick up pace from the re municipalization of water in grenoble in 2000 to the united nations declaration of water as a human right in 2010 in fighting for water andreas bieler draws on years of extensive fieldwork to dissect the underlying dynamics of the struggle for public water in europe from the successful referendum against water privatization in italy via the european citizens initiative on water and sanitation are a human right the struggles against water privatization in greece and water charges in ireland bieler shows why water has been a fruitful arena for resistance against neoliberal restructuring the howard university protests from the perspective and worldview of its participants we are worth fighting for is the first history of the 1989 howard university protest the three day occupation of the

university s administration building was a continuation of the student movements of the sixties and a unique challenge to the politics of the eighties upset at the university s appointment of the republican strategist lee atwater to the board of trustees students forced the issue by shutting down the operations of the university the protest inspired in part by the emergence of conscious hip hop helped to build support for the idea of student governance and drew upon a resurgent black nationalist ethos at the center of this story is a student organization known as black nia f o r c e co founded by ras baraka the group was at the forefront of organizing the student mobilization at howard during the spring of 1989 and thereafter we are worth fighting for explores how black student activists young men and women helped shape and resist the rightward shift and neoliberal foundations of american politics this history adds to the literature on black campus activism black power studies and the emerging histories of african american life in the 1980s be prepared for the fast furious and fatal world of knife fighting written by world renowned martial arts expert sammy franco knife fighting a step by step guide to practical knife fighting for self defense prepares you for the deadly world of knife fighting complete and comprehensive knife fighting instruction with over 200 photographs and easy to follow instructions this comprehensive book cuts through the guess work and teaches you the most practical and effective knife fighting techniques for real world survival knife fighting will teach you how to choose the best combat knife knife carry quick draw and concealment strategies knife grips stances ranges and footwork how to control fear during a knife fight knife targeting and reaction dynamics knife cuts and angles of attack franco s knife fighting blueprint knife fighting defensive skills knife fighting training drills and exercises and much much more 35 years of real world knife fighting experience whether you are a beginner or seasoned knife fighting expert knife fighting a step by step guide to practical knife fighting for self defense teaches you battle tested knife fighting skills that will get you home alive and in one piece explores the political dimensions of north american agriculture when you have to cut ties with the one you always vowed to protect things get hard cannon quickly comes to realize that just because you share dna with a person that does not make them family family will always ride for you and never against you cannon will be forced to choose between siblings but how can there even be a right choice while cannon is trying to protect everyone around him tiff has no choice but to protect her baby when cannon cannot go along with the plan trouble finds its way into their already rocky relationship when shawn is faced with a life or death situation will britt be by his side or will she put the past behind her and move on snakes and secrets are revealed and hard choices have to be made in the end will it be true that these romances were a love worth fighting for with the withdrawal of french forces from south vietnam in 1955 the u s took an ever widening role in defending the country against invasion by north vietnam by 1965 the u s had americanized the war relegating the army of the republic of vietnam arvn to a supporting role while the u s won many tactical victories it had difficulty controlling the territory it fought for as the war grew increasingly unpopular with the american public the north vietnamese launched two large scale invasions in 1968 and 1972 both tactical defeats but strategic victories for the north that precipitated the u s policy of vietnamization the drawdown of american forces that left the arvn to fight alone this book examines the maturation of the arvn and the major battles it fought from 1963 to its demise in 1975 despite its flaws the arvn was a well organized and disciplined force with an independent spirit and contributed enormously to the war effort had the u s vietnamized the war earlier it might have been won in 1967 1968 what makes your heart break for our broken world you want to make a difference in the world you re concerned about all the problems you see the injustices and the suffering but you don t know where to begin designed for the aspiring activist or world changer this book is the key to get you started live action founder

Fighting For Franco 2007-02-10

one of the enduring myths of the franco state was that the nationalist forces that won the civil war consisted of patriotic spaniards while the republic was defended by a rag tag army of foreign reds during the spanish civil war however many groups on the european right were galvanized by the nationalist cause european fascists conservative catholics and those uneasy with liberal democracy in general rallied to the figure of franco who appeared to be holding the line against secularism modernism and bolshevism this book recounts the experiences of a number of foreign volunteers including the brigades of white russians romanians irish and the french volunteers in the jeanne d arc battalion all of whom saw their engagement in spain as a means of promoting their own political causes at home as well there were individual women and men from the new world and the old who were moved by religion politics or simply adventurism to join up with franco fighting for franco reconstructs their motivation and the mind set which took them to spain it thus casts a new light on nationalist spain and on the specific concerns of a wide variety of right wing movements between the wars
