people still think of the cold war as a simple two sided conflict a kind of gigantic arm wrestle on a global scale writes marc trachtenberg but this view fails to grasp the essence of what was really going on america and russia were both willing to live with the status quo in europe what then could have generated the kind of conflict that might have led to a nuclear holocaust this is the great puzzle of the cold war and in this book the product of nearly twenty years of work trachtenberg tries to solve it the answer he says has to do with the german question especially with the german nuclear question these issues lay at the heart of the cold war and a relatively stable peace took shape only when they were resolved the book develops this argument by telling a story a complex story involving many issues of detail but focusing always on the central question of how a stable international system came into being during the cold war period a constructed peace will be of interest not just to students of the cold war but to people concerned with the problem of war and peace and in particular with the question of how a stable international order can be constructed even in our own day

from the time I was old enough to form my first memory my childhood was already headed down the inevitable path of dysfunction with divorce in the books and a new man in the house these events actually turned out to be the easy part the hard part was absolutely everything else that followed from the depths of addiction to the height of recovery from a life threatening diagnosis to the ultimate loss of a lifetime my story will take you through a journey of one mother's love for her two young boys and the relentless courage to protect us at any cost from the very danger that she unwittingly had a hand in creating it was a danger that would force us to disappear without a trace from the only home we ever knew to a small town that no one could even pronounce and as our lives were so quickly being turned upside down all reasons for this upheaval could only point to one thing the new man in the house as the secrets began to pile up there seemed to be far more questions than answers the pressure to keep these secrets from us would inevitably take its toll and by the time the truth was finally revealed the emotional damage had already been done no matter what degree of dysfunction that was dealt us as two innocent boys from Chicago thanks to our mother's unwavering love we always had one thing to hold on to hope hope of a second chance hope of a fresh start the hope of a better ending to our story than the tragic beginning we were so unfairly given from a very young age I always knew my life was far from normal there was just something about it that stood out something that always had me wondering if everything I was experiencing was really what it seemed and it was that mysterious something that would eventually reveal itself and change the course of my life forever

In 1982, Dorothy H. Jordan founded Camp Sunshine to provide children with cancer a safe, normal childhood experience, to show them that others share their challenges, and to help them find community and support. In 1983, approximately forty campers between the ages of seven and eighteen attended the first summer camp held in the North Georgia Mountains. Thirty-five years later, more than four hundred campers attended the 2018 summer camp, and several hundred more children and family members participated. In more than 150 additional recreational, educational, and supportive Camp Sunshine programs held throughout the year in Metro Atlanta, Savannah, and other areas of Georgia, today Camp Sunshine, a nonprofit organization, has hundreds of dedicated volunteers who help the leadership staff of the camp with its multiple year-round programs, as well as pediatric oncology nurses and other medical professionals who take care of the campers' medical needs while they attend those programs. *It's Like Heaven* documents the story of the first thirty-five years of Camp Sunshine through the voices of campers, their nurses, counselors, and other volunteers. Each chapter is a former camper's first-person story about childhood cancer and the Camp Sunshine journey, followed by reflections on the camper's experience by the camper's nurse or another member of the camp community, creating a unique narrative of each camper's struggle and path toward healing. Every story includes photos of both the camper and the camper's mentor, as well as several photos that illustrate the connections, bonds, and strength of community created through Camp Sunshine.
