

# Reading free Mitsubishi 1200 scv p0089 obd codes (PDF)

i got this p0089 fault code after i have replaced injectors and high pressure fuel pump ive already checked all the inlet fuel line like fuel filter and fuel tank nad every think seams to be ok the engine starts with no problem but after one minute i get this trouble code and the yellow light comes on got hold of a reader that worked in obd mode only the mitsubishi option wouldn t connect this gave the code of p0089 fuel pressure regulator 1 performance back to this forum and found it was the scv fitted new scv and fuel filter deleted code and issue came back function the engine ecu monitors the signals input from the rail pressure sensor the engine ecu monitors the difference between the target fuel pressure and actual fuel pressure to check whether the suction control valve is open or fixed potential causes of a p0089 trouble code may include fuel pump output restricted or pinched fuel lines clogged fuel filter faulty regulator faulty fuel pressure sensor or electrical wiring possible solutions fuel pressure fuel pressure can be checked by using a mechanical gauge attached to the fuel rail a p0089 code is caused by an ecm engine control module receiving a signal from the pcm that there is a problem with the fuel pressure regulator and is not performing as designed and has improper fuel pressure when this happens code p0089 is set by the ecm foreign materials mixed in the suction control valve can possibly cause the stuck suction control valve check the followings check it for the fuel conditions mixed foreign materials smell colour or viscosity if the fuel conditions are abnormal replace the fuel check fuel filter itself the p0089 code means there s a problem with controlling the fuel pressure in your car this could be due to a bad part in the fuel system or a wiring issue it s important to fix this to make sure your car runs smoothly and doesn t stall or have trouble accelerating that s the fault code for fuel pump so chances are the scv is stuffed but it could be the whole pump something else to consider could be if you managed to blow a injector tube that it over pressurised and damaged either the fuel pressure sensor on the rail or the relief valve at the other end if you re facing a p0089 code indicating fuel pressure regulator issues check the low pressure side fuel pressure sensor g410 and fuel pump control module j538 use an obd ii scanner for confirmation and conduct pressure tests to identify irregularities the meaning of fault code p0089 dtc p0089 is triggered when the powertrain control module pcm detects that there is a problem with the petrol or diesel fuel pressure regulator the regulates the amount of fuel that gets sent to the injectors helping to maintain a steady fuel pressure so i ve had a p0089 valve for fuel metering n290 implausible signal code for awhile but the car has been drivable and have sort of ignored it today my car starting shaking while it was sitting at idle and now i can t get it started i would clear the code and then restart no code shut off wait a minute and then turn back on the the code would pop up on idle everytime after doing some r forum searching i feel it is either the fps on the fuel rail or the internal fuel regulator on the pump fault code p0089 is logged when the powertrain control module pcm has detected an issue with the fuel pressure regulator the fuel pressure regulator is responsible for doing what its name suggests it regulates and controls the pressure of the fuel entering the fuel injection system here s how to read obd codes so that when that check engine light pops on you can use an obd scanner to find out what s wrong with your vehicle a car repair resource site that helps you diagnose vehicle obd obd ii and obd2 problems we have many articles on how to diagnose and repair many check engine light codes there are many on board diagnostic obd system codes used to identify specific problems with modern engines and vehicle systems these codes are generated by an automobile s computer system when an issue arises triggering the check engine light on the dashboard tokyo sushi valencia order here 10 off your online order with promo code tokyo10 irrashai mase welcome tokyo sushi is the best place to get a taste of japan in santa clarita valley since 2018 we have strived to use the freshest ingredients and provide the friendliest service to our guests tokyo sushi valencia valencia 456 likes 3 talking about this 577 were here tokyo sushi offers the highest quality japanese cuisine exceptional when your dashboard check engine light cel or other warning lights illuminate your vehicle s engine control module ecm senses a problem the ecm then generates and stores a diagnostic trouble code dtc in its memory what do these codes mean and why should you care come into tokyo sushi scv on superbowl sunday 2 11 and buy any draft beer to get a second for just 1 cent we have sapporo kirin asahi and michelob ultra on tap for you to enjoy sushi sushitime scv scvfoodies foodie food beer superbowl football

**mitsubishi 1200 scv p0089 obd codes com** May 21 2024 i got this p0089 fault code after i have replaced injectors and high pressure fuel pump ive already checked all the inlet fuel line like fuel filter and fuel tank nad every think seams to be ok the engine starts with no problem but after one minute i get this trouble code and the yellow light comes on

**ask an expert p0089 not scv 1200 owners discussion** Apr 20 2024 got hold of a reader that worked in obd mode only the mitsubishi option wouldnt connect this gave the code of p0089 fuel pressure regulator 1 performance back to this forum and found it was the scv fitted new scv and fuel filter deleted code and issue came back

**code no p0089 suction control valve stuck mitsubishi** Mar 19 2024 function the engine ecu monitors the signals input from the rail pressure sensor the engine ecu monitors the difference between the target fuel pressure and actual fuel pressure to check whether the suction control valve is open or fixed

**p0089 fuel pressure regulator 1 performance obd codes com** Feb 18 2024 potential causes of a p0089 trouble code may include fuel pump output restricted or pinched fuel lines clogged fuel filter faulty regulator faulty fuel pressure sensor or electrical wiring possible solutions fuel pressure fuel pressure can be checked by using a mechanical gauge attached to the fuel rail

**p0089 code what does it mean how to fix it obd2pros** Jan 17 2024 a p0089 code is caused by an ecm engine control module receiving a signal from the pcm that there is a problem with the fuel pressure regulator and is not performing as designed and has improper fuel pressure when this happens code p0089 is set by the ecm **code no p0089 suction control valve stuck mitsubishi** Dec 16 2023 foreign materials mixed in the suction control valve can possibly cause the stuck suction control valve check the followings check it for the fuel conditions mixed foreign materials smell colour or viscosity if the fuel conditions are abnormal replace the fuel check fuel filter itself

**fix p0089 mechanic s solutions that worked iamcarhacker** Nov 15 2023 the p0089 code means there s a problem with controlling the fuel pressure in your car this could be due to a bad part in the fuel system or a wiring issue it s important to fix this to make sure your car runs smoothly and doesnt t stall or have trouble accelerating

**p0089 code nissan navara truck forum** Oct 14 2023 that s the fault code for fuel pump so chances are the scv is stuffed but it could be the whole pump something else to consider could be if you managed to blow a injector tube that it over pressurised and damaged either the fuel pressure sensor on the rail or the relief valve at the other end

**p0089 code fuel pressure regulator performance** Sep 13 2023 if you re facing a p0089 code indicating fuel pressure regulator issues check the low pressure side fuel pressure sensor g410 and fuel pump control module j538 use an obd ii scanner for confirmation and conduct pressure tests to identify irregularities

**obd2 code p0089 causes symptoms how to fix it autodoc club** Aug 12 2023 the meaning of fault code p0089 dtc p0089 is triggered when the powertrain control module pcm detects that there is a problem with the petrol or diesel fuel pressure regulator the regulates the amount of fuel that gets sent to the injectors helping to maintain a steady fuel pressure

**p0089 code have replaced everything i can think up need help** Jul 11 2023 so i ve had a p0089 valve for fuel metering n290 implausible signal code for awhile but the car has been drivable and have sort of ignored it today my car starting shaking while it was sitting at idle and now i can t get it started

**code p0089 what to do swedespeed volvo performance forum** Jun 10 2023 i would clear the code and then restart no code shut off wait a minute and then turn back on the the code would pop up on idle everytime after doing some r forum searching i feel it is either the fps on the fuel rail or the internal fuel regulator on the pump

**p0089 fault code meaning faultcodes co** May 09 2023 fault code p0089 is logged when the powertrain control module pcm has detected an issue with the fuel pressure regulator the fuel pressure regulator is responsible for doing what its name suggests it regulates and controls the pressure of the fuel entering the fuel injection system

**how to read obd codes techradar** Apr 08 2023 here s how to read obd codes so that when that check engine light pops on you can use an obd scanner to find out what s wrong with your vehicle

**obd codes obd ii trouble codes dtc codes car repair** Mar 07 2023 a car repair resource site that helps you diagnose vehicle obd obd ii and obd2 problems we have many articles on how to diagnose and repair many check engine light codes

**here are 10 common obd codes and what they mean** Feb 06 2023 there are many on board diagnostic obd

system codes used to identify specific problems with modern engines and vehicle systems these codes are generated by an automobile s computer system when an issue arises triggering the check engine light on the dashboard
