david horowitz has single handedly exposed the intellectual corruption that exists within the classrooms of american colleges like all forms of corruption indoctrination flourishes when kept in the dark here horowitz turns on the bright lights to expose what has become profoundly wrong with our colleges and universities we are all in his debt ward

connerly former regent university of california david horowitz and coauthor jacob laksin take us inside twelve major universities where radical agendas have been institutionalized and scholarly standards abandoned the schools they examine are not the easily avoided bottom of the barrel rather they are an all too representative sampling of american higher education today horowitz and laksin have conducted the first comprehensive in depth multiyear investigation of what is being taught in colleges and universities across the country public to private from large state schools to elite ivy league institutions they have systematically scrutinized course catalogs reading lists professors biographies scholarly records and the first person testimonies of students administrators and faculty citing more than 150 specific courses they reveal how academic standards have been violated and demonstrate beyond dispute that systematic indoctrination in radical politics is now an integral part of the liberal arts curriculum of america s colleges the extreme ideological cant that today s students are being fed includes promoting marxist approaches as keys to understanding human societies with no mention of the bloody legacy of these doctrines and total collapse in the real world of the societies they created instilling the idea that racism brutally enforced by a white male patriarchy to oppress people of color and other marginalized groups has been the organizing principle of american society throughout its history and into the present requiring students to believe that gender is not a biological characteristic but a socially created aspect of human behavior designed by men to oppress women persuading students that america and israel are imperialistic and racist states and that the latter has no more right to exist than the south african regime in the days of apartheid in page after shocking page horowitz and laksin demonstrate that america s colleges and universities are platforms for a virulent orthodoxy that threatens academic ideals and academic freedom in place of scholarship and the dispassionate pursuit of truth that have long been the hallmarks of higher learning the new militancy embraces activist zealotry and ideological fervor in disturbingly large segments of today s universities students are no longer taught how to think but are told what to think

Contemplative Pedagogies for Transformative Teaching, Learning, and Being *2019-11-01*

this accessible and cutting edge work offers a new look at the history of western civilization one that brings into focus the interrelated suffering of oppressed humans and other animals nibert argues persuasively that throughout history the exploitation of other animals has gone hand in hand with the oppression of women people of color and other oppressed groups he maintains that the oppression both of humans and of other species of animals is inextricably tangled within the structure of social arrangements nibert asserts that human use and mistreatment of other animals are not natural and do little to further the human condition nibert s analysis emphasizes the economic and elite driven character of prejudice discrimination and institutionalized repression of humans and other animals his examination of the economic entanglements of the oppression of human and other animals is supplemented with an analysis of ideological forces and the use of state power in this sociological expose of the grotesque uses of the oppressed past and present nibert suggests that the liberation of devalued groups of humans is unlikely in a world that uses other animals as fodder for the continual growth and expansion of transnational corporations and conversely that animal liberation cannot take place when humans continue to be exploited and oppressed
