## The Huge Pacific Ocean

2013-01-01

the pacific ocean covers almost a third of the planet and is home to many different plants and animals readers find out why this ocean is so important to the plants and animals that live there why it is so important and how people can help clean and protect this ocean

## *Pricing the Land*

2024-07-15

pricing the land reconstructs the complicated history of buying and selling land along the new york frontier after the american revolution scott w anderson focuses on the prices bid for lots in central new york that had been set aside for veterans of the war the new military tract and within the cayuga reservation created by treaty in 1789 comprising a hundred square miles of land on both shores of the northern end of cayuga lake he considers several factors that affected the value of this land the scarcity of money in early america the role that alexander hamilton s assumption policy played in encouraging debt speculation the sale of huge tracts by new york and massachusetts to investment syndicates and the struggles of settlers across the new york frontier to escape debt bondage and poverty anderson who served as an expert witness in the cayuga land claim trials of 1999 to 2001 that awarded the cayuga nation 247.9 million in compensation and damages a judgment overturned in 2005 developed new methodological tools for determining a better estimate of the value of this land in pricing the land he concludes that the only accurate measure of worth lay in the settlers ability to pay their rents or debts which was only possible once the market revolution reached central new york as a result of his historical recovery anderson finds that the cayuga nation might have been entitled to twice the amount they were awarded in their lawsuit

## Forgotten Civilization

2021-03-02

updated throughout with recent developments and additional illustrations reveals how solar outbursts caused the end of the last ice age unleashed catastrophe upon ancient advanced civilizations and led to six millennia of a solar induced dark age includes evidence from solar science geology oceanic circulation patterns the sphinx the underground cities of cappadocia the easter island rongorongo glyphs and the göbekli tepe complex in turkey in this newly revised and expanded edition updated throughout with recent developments geologist robert schoch builds upon his revolutionary theory that the origins of the sphinx date back much further than 2500 bce and examines scientific evidence of the catastrophe that destroyed early high culture nearly 12 000 years ago combining evidence from multiple scientific disciplines schoch makes the case that the abrupt end of the last ice age circa 9700 bce was due to an agitated sun solar outbursts unleashed electrical plasma discharges upon earth triggering dramatic climate change as well as increased earthquake and volcanic activity fires high radiation levels and massive floods schoch explains how these events impacted the civilizations of the time set humanity back thousands of years and led to six millennia of a solar induced dark age sida applying the sida framework to ancient history he explores how many megalithic monuments petroglyphs indigenous traditions and legends fall logically into place including the underground cities of cappadocia the easter island rongorongo glyphs and the göbekli tepe complex in turkey he also reveals that our sun is a much more unstable star than previously believed suggesting that history could repeat itself with a solar outburst powerful enough to devastate modern society weaving together a new view of the origins and antiquity of civilization and the dynamics of the planet we live on schoch maintains we must heed the megalithic warning of the past and collectively prepare for future events

## Expel the Pretender

2015-04-01

political fights are not waged over who is speaking the truth but over whether any given claim seems to be authentic expel the pretender rhetoric renounced and the politics of style examines how rhetorical style influences judgments about how to communicate integrity and good will eve wiederhold argues that attitudes about style s significance to judgment are both undertheorized and over determined especially when style is regarded as an embellishment rather than as a constitutive aspect of language use examining news reports covering controversial speakers including president bill clinton linda tripp and the rev jeremiah wright she demonstrates how rhetorical style is both belittled and yet remains a focal point for assessing public figures who have been publicly rebuked and discredited expel the pretender claims style as a

conflicted site of materiality critiquing contemporary rhetorical theories that configure style as a dependable resource for democratic inquiry wiederhold argues that conceptions of style s significance to judgment must be reframed to understand how we make decisions about who and what to believe

### 4th Fighter Group

2012-12-20

formed around a nucleus of pilots already seasoned by their experience as volunteers in the raf s eagle squadrons the 4th fighter group was established in england in october 1942 initially flying spitfires the debden eagles went on to fly the p 47 and p 51 becoming in july 1943 the first eighth air force fighter group to penetrate german air space the group s record of 583 air and 469 ground victories was unmatched in the eighth air force and the group produced a cast of characters that included legendary aces don blakeslee pierce mckennon kid hofer duane beeson steve pisanos and howard hively involved in the d day landings operation market garden the battle of the bulge and the crossing of the rhine the group s achievements came at a high price with a 42 percent casualty rate packed with first hand accounts detailed aircraft profiles and full combat histories this book is an intriguing insight into the best known american fighter unit in world war ii
