career and life admittedly the workbook is spiced by some inserts that make it interesting and beneficial to different users such insert include a brief section of business and banking related exercises to provide a student of business or a banking career seeker the chance to assess his or her level of understanding some business and banking language which is by no means comprehensive another insert emphasizes some common mistakes made by foreign learners in addition to this in section five of the workbook the user will find a few vocabulary enrichment exercises derived from lively day to day conversations finally whether the user of this workbook is a high school student a university student or a job seeker the workbook is an excellent tool and a road to college and career success only if the exercises are given the time and the effort required my piece of advice to users is to make a few copies of the blank answer sheet provided at the end of the workbook to write down the answers to the questions in the review exercises then to compare their own answers with the answer key provided at the end of each exercise good luck
