the crimean war 1853-56 between russia turkey britain france and the kingdom of sardinia was a diplomatically preventable conflict for influence over an unstable near and middle east it could have broken out in any decade between napoleon and wilhelm ii equally it need never have occurred in this masterly study based on massive archival research david goldfrank argues that the european diplomatic roots of the war stretch far beyond the eastern question itself and shows how the domestic concerns of the participants contributed to the outbreak of hostilities

chloroform telegraphy steamships and rifles were distinctly modern features of the crimean war covered by a large corps of reporters illustrators and cameramen it also became the first media war in history for the benefit of the ubiquitous artists and correspondents both the domestic events were carefully staged giving the crimean war an aesthetically alluring even spectacular character with their exclusive focus on written sources historians have consistently overlooked this visual dimension of the crimean war photo historian ulrich keller challenges the traditional literary bias by drawing on a wealth of pictorial materials from scientific diagrams to photographs press illustration and academic painting the result is a new and different historical account which emphasizes the careful aesthetic scripting of the war for popular mass consumption at home

the crimean war was the most destructive conflict of queen victoria s reign the outcome of which was indecisive most historians regard it as an irrelevant and unnecessary conflict despite its fame for florence nightingale and the charge of the light brigade here hugh small shows how the history of the crimean war has been manipulated to conceal britain s and europe s failure the war governments and early historians combined to withhold the truth from an already disappointed nation in a deception that lasted over a century accounts of battles still widely believed gave fictitious leadership roles to senior officers careful analysis of the fighting shows that most of britain s military successes in the war were achieved by the common soldiers who understood tactics far better than the officer class and who acted usually without orders and often in contravention of them hugh small s mixture of politics and battlefield narrative identifies a turning point in history and raises disturbing questions about the utility of war

The Crimean War 2011-04-12

the crimean war has been called the last great war to be fought without the help of modern resources of science it was also the last great war to be fought by the british army in all its splendour of scarlet and gold using weapons and tactics which would not have astonished the prince rupert or the duke of marlborough many who fought in the first and not a few who fought in the second world war will have known personally those who took part in such battles and heard their accounts from their own lips on the other hand no campaign should be more familiar because none has been covered more fully and more candidly the historian of the crimean battles has then it would appear only to make a synthesis of the innumerable letters and reports and his story is complete unfortunately this is not so with smoke from the black powder then used drifting across the battlefield lying heavily over batteries the combatant could often see and report little more than what had happened in his vicinity and even in this he is not necessarily reliable as for those who recollected in tranquillity and there were many it is enough to record the remark of a contemporary canadian military historian memory can play tricks upon an officer after some lapse of time especially when the officer s own interest and prejudice are engaged beset by these difficulties the writer who surrounds every incident with reservations and qualifications will rapidly weary his readers he must on matters of moment such for example as nolan s responsibility for the light brigade charge use his judgment on the evidence available and make up his own mind this i have tried to do

home in time for the pheasant season was the cheerful assumption of most british officers when the army was shipped off to fight the russians in 1854 but it was not to be after landing in the crimea and beating the russians in open battle the redcoats found themselves laying siege to the great naval base of sebastopol there they endured a bitter winter in improvised positions desperately short of supplies and with next to no medical care published to mark the 150th anniversary of the crimean war julian spilsbury s narrative is drawn from the diaries and letters of soldiers of this most famous victorian army from the initial landings in an exotic land to the battles the long months of siege and the final victorious assault the story unfolds through the words of the men and women who were there we follow a cast of extraordinary characters who one after another fall some to bounce back with almost superhuman resilience others to die at the incompetent hands of the army s surgeons the army s leading personalities are a collection of

eccentrics some were short sighted some downright criminal but not one of them doubted the british would win no matter how dire the odds and this is why they ultimately prevailed

in september 1854 the armies of britain france and turkey invaded russia in the months that followed over half a million soldiers fell they died from bullet wounds and shrapnel cholera and disease starvation and freezing the crimean war was a medieval conflict fought in a modern age but what is rarely appreciated and what this historical examination shows is that this extraordinary and costly struggle was fought not only in the crimea but also along the danube in the arctic ocean in the baltic and pacific few wars in history reveal greater confusion of purpose or have had richer unintended consequences much has been written about this most senseless of wars and this new history does not aim to cover old ground instead it traces the war's causes and sketches a vivid picture of the age which made it possible up until the moment of the allies departure for the crimea woven together with developments in diplomacy trade and nationalistic expression are descriptions of the russian turkish and british armies and the principals of the drama napoleon iii marshal st arnaud lord raglan the great russian engineer topleban florence nightingale nicholas i and his magnificently terrible russian empire

you positively annoy me joseph and make me feel more angry than i care to admit the matter is a serious one and i am deeply distressed after thirteen years of the most careful bringing up there is complete and absolute failure it is a miserable reward and then to make matters worse you laugh at me and egg the lad on to even greater crimes fiddlesticks sir humbug a miserable reward indeed was the spirited answer no one but yourself would admit it he is a fine lad though a little wild i will own but for all that a generous good hearted boy let him alone don't worry him with all these goody goody ideas there is plenty of time for him to settle down and meanwhile he will come to no harm and i'll be bound will bring no discredit on you the speaker shook his head knowingly and helped himself to a large pinch of snuff how can you argue like that joseph when you know what the lad has done the former speaker replied with much sternness i hold practical joking to be at any time disgraceful but when one's adopted son is one of three who actually laid a booby trap for the mayor of this town in broad daylight and made him a laughing stock for all then discreditable is the least one can say of it it is positively scandalous

A Historical-Etymological Dictionary of Pre-Russian Habitation Names of the Crimea **2006-10-01**

in contrast to every other book about the conflict andrew lambert s ground breaking study the crimean war british grand strategy against russia 1853 1856 is neither an operational history of the armies in the crimea nor a study of the diplomacy of the conflict the core concern is with grand strategy the development and implementation of national policy and strategy the key concepts are strategic derived from the works of carl von clausewitz and sir julian corbett and the main focus is on naval not military operations this original approach rejected the continentalist orthodoxy that dominated contemporary writing about the history of war reflecting an era when british security policy was dominated by inner german frontier the british army of the rhine and air force germany originally published in 1990 the book appeared just as the cold war ended the strategic landscape for britain began shifting away from the continent and new commitments were emerging that heralded a return to maritime strategy as adumbrated in the defence policy papers of the 1990s with a new introduction that contextualises the 1990 text and situates it in the developing historiography of the crimean war the new edition makes this essential book available to a new generation of scholars

the crimean war is famous as a source of heroic and horrific legend philip warner s concern in his reassessment of the campaign has been to uncover the true course of the war to place the heroics in their proper context and to show how general simpson s description of the assault on the redan can be applied to the whole war warner also brings together the initial strands of the conflict and its escalation to involve many of the great powers of the day he is also able to bring in the other locations of the conflict as the two sides poured men and resources into containing the other the author philip warner quotes extensively from contemporary sources and especially from previously unpublished allied and russian soldiers letters and diaries which provide haunting glimpses of the realities of war his expert knowledge of fortification and siege warfare and his understanding of nineteenth century armies have combined to make this book both a valuable work of scholarship and an intensely readable account of the battles
