Organisations and Development 2000-09-22

readers will find in these pages a very lucid creative and highly readable version of many of the ideas that have taken shape through the medium of the human development reports during the last four years busy policy makers all over the world will find this an indispensable primer mahbub ul haq from the preface this book introduces the basic concepts of human development and presents policy guidelines for implementing a human development strategy in developing countries human development is seen both as

an end in itself and as a means to increase the capabilities of people the role of the state the market and of people's participation in such a strategy are described specific chapters discuss the structure of incentives allocation of public sector resources structural reforms the relationship of human development to environmental issues and finance and administration

Implementing a Human Development Strategy 1994-11-12

this book presents development strategies and lessons based on a large range of success countries across the developing world in addition to the country cases it presents regional and overall syntheses that cover orthodox vs heterodox policies the importance of capability primary exports diversification and financing managing diversity the role of institutions and governance and human development the book reveals much diversity in successful development strategies offered by the various select countries for example the disinterested government political economy of china the democratically supported high service sector development approach of india the washington consensus based reforms of ghana and china the diversification strategies of the united arab emirates uae bahrain and oman the dynamic orthodox heterodox strategy of malaysia and vietnam the effective natural resource management of botswana oman bahrain and the uae the social sector underpinnings of development in costa rica and tunisia and the democratic political system of managing diversity in india this refreshing approach to studying development will interest researchers teachers students development practitioners and policymakers alike

Achieving Development Success 2013-03-14

the result of two years work by 19 experienced policymakers and two nobel prize winning economists the growth report is the most complete analysis to date of the ingredients which if used in the right country specific recipe can deliver growth and help lift populations out of poverty

The Growth Report 2008-07-23

with the larger role that the agricultural sector plays in the eastern europe and central asian eca region emphasis must be placed on the sector's sustained growth and prosperity the bank strategy for rural development in the eca region during the early phase of transition emphasized the reform of agricultural policies and assistance in privatizing restructuring and rebuilding agriculture and agro industrial complexes in retrospect it can be seen that the eca countries concerned made the right choice when they set their objective to transform their socialized agriculture into a private ownership and market based system given the developments of the past decade it is clear however that the initial expectations for the outcomes of such reforms were overly optimistic the transition process in agriculture is far more complex than originally envisaged by both the countries themselves and the international community including the bank increased social problems and alarming growth of poverty have added a new unexpected dimension to the transition process as the analysis indicates the region's rural economy is still struggling to adjust to new economic realities and this will require further refinement and adjustment of the bank's approach as well this volume based on an overview of recent regional developments summarizes the revised world bank assistance strategy for rural development in the eca region

Strategies for African Development 1986-01-01

in recent years government and policymakers around the world have shifted their attention away from money oriented supply side economics to institutional economics and people oriented social and economic development issues such as poverty reduction win win solutions and strategies in social policy and their implementation universalization and a variety of new large scale conditional cash transfers programs have become ever present in the global discussion about development and social policy this book provides win win strategies for social policies on the ground as developed and put forward by the normative theoretical paradigm of developmental social policy dsp taking the state of the art general development theory as a starting point of reference and discussion it goes on to discuss in detail the key win win strategies

that form the basis and core of the dsp paradigm it examines key related issues such as the performance of provident fund systems the performance of conditional cash transfer systems especially their elements that are based on asset and means testing universalism and extension in social security provision in the context of especially developing countries and non economically targeted social welfare benefits and services providing fully fledged theoretical guidance paired with key social policy strategies and solutions it will be highly valuable for students and scholars of social policy development studies and asia pacific studies

Rural Development Strategy 2000-01-01

this book is a cornerstone resource for a wide range of organizations and individuals concerned with sustainable development at national and local levels as well as for international organizations concerned with supporting such development while the focus is on integrated strategies for sustainable development the approaches and methods covered are equally relevant to poverty reduction environmental and sectoral strategies program development and review agenda 21 called for all countries to develop sustainable development strategies for such strategies to be effective there needs to be a real commitment in every country government at all levels the private sector and civil society must work together in a true partnership in transparent ways which enable genuine stakeholder participation the necessary mechanisms and processes need to be coordinated to enable continuous learning and improvement this resource book provides flexible non prescriptive guidance on how to develop assess and implement national sustainable development strategies it sets out principles and ideas on process and methods and suggests how these can be used it is based on an analysis of past and current practice drawing directly from experience in both developed and developing countries following a discussion of the nature and challenges of sustainable development and the need for strategic responses to them the heart of the book covers the main tasks in strategy processes individual chapters offer a rich range of guidance ideas and case studies on the nature of sustainable development strategies and current practice key steps in starting managing and improving sustainable development strategies analysis of and for sustainable development participation for sustainable development information education and communications strategy decision making frameworks and procedures the financial basis for strategies monitoring and evaluation systems

Achieving Development Success 2013

could information and communication technology ict become the transformative tool for a new style of global development could ict promote knowledge based innovation driven and smart adaptive participatory development as countries seek a way out of the present period of economic contraction they are trying to weave ict into their development strategies in the same way organizations have learned to use ict to transform their business models and strategies this integration offers a new path to development that is responsive to the challenges of our times in e transformation nagy hanna identifies the key ingredients for the strategic integration of ict into national development with examples from around the world he draws on his rich experience of over 35 years at the world bank and other aid agencies to outline the strategic options involved in using ict to maximize developmental impact transforming public service institutions networking businesses for innovation and competitiveness and empowering communities for social inclusion and poverty reduction he identifies the key interdependencies in e transformation and offers a holistic framework to tap network effects and synergies across all elements of the process including leadership cyber policies institutions human resources technological competencies information infrastructure and ict uses for government business and society integrating analytical insights and practical applications across the fields of development political economy public administration entrepreneurship and technology management the author candidly argues that e transformation like all bold ideas faces implementation challenges in particular the aspiration reality gap needs to be systematically addressed if ict enabled innovation and transformation is to become a development practice e transformation is first and foremost about thinking strategically and creatively about the options made possible by the information technology revolution in the context of globalization to this end the author provides tools and best practices designed to nurture innovation select entry points prioritize among competing demands and sequence and scale up he outlines the roles of all participants political managerial entrepreneurial social and technical whose leadership is essential for successful innovation

The Growth Report 2008

studies in development strategy and systemic transformation examines many of the leading issues in economic development in part i professor griffin analyses strategic visions the role of culture in long term economic growth globalization and its implications for the territorial state and global governance the human development strategy and the effects of the distribution of productive assets on the pace of development part ii is concerned with systemic transformation and macroeconomic reform alternative reform strategies are analysed for countries trying to effect a transition from centrally planned to market oriented economies shock therapy is severely criticized an alternative approach to macroeconomic reform also is presented for sub saharan africa in which emphasis is placed on an investment led strategy of structural development a separate chapter is devoted to how an investment led strategy could be financed with domestic resources alone part iii contains three case studies of low income transition economies two of which are examples of success vietnam and china and one an example of failure kazakhstan

Strategic Development 1998

while fashionable rhetoric threatens to overwhelm clear thinking sustainable development the authors of this study believe that serious and difficult questions need to be asked if we are to move to a concept and practice of development which really integrates the needs of people the economy the environment and the practical world of decision making in particular it is too easy to assume a positive relation between poverty reduction and an improved environment instead they argue that the alleviation of poverty and sustainable development are only likely if the idea of empowerment and its practical institutionalization in the law the educational process and the machinery of government becomes a reality this innovative book explores some of the multiple ways in which this approach could become a reality as well as the difficulties that stand in the way

1966 ?????? ???? ?????? ?????? ????
