

Free pdf Corporate finance by ross westerfield and jaffe 8th edition [PDF]

comprehensive textbook that uses contemporary examples to illustrate the theory
 executive summary corporate finance by ross westerfield jaffe and jordan emphasises the modern
 fundamentals of the theory of finance while providing contemporary examples to make the
 theory come to life the authors present corporate finance as the working of a small
 number of integrated and powerful intuitions rather than a collection of unrelated topics
 they develop the central concepts of modern finance arbitrage net present value efficient
 markets agency theory options and the trade off between risk and return and use them to
 explain corporate finance with a balance of theory and application the twelfth edition
 includes many exciting new research findings as well as the incorporation of the tax cuts
 and jobs act tcja throughout the text the fourth edition of corporate finance takes an
 applied approach to cover all the latest research and topic areas important to students
 taking finance courses the new edition provides an international perspective on all areas
 of corporate finance and has been updated to include discussion on current trends such as
 the rise of populism and trade barriers on international finance the advent of financial
 technology and key regulatory changes impacting the sector understanding and
 application clear user friendly style example boxes in every chapter provide hypothetical
 examples to illustrate theoretical concepts such as cash flow timing dividend smoothing
 and differential growth real world insight boxes use real companies like siemens avast and
 adidas to show how they have applied corporate finance theories and concepts to their
 businesses and business decisions chapter links in the margin provide quick cross
 referencing to show students the connections between topics practice and proficiency mini
 and practical cases present scenarios and questions to practice applying what you have
 learnt rigorous testing between 30 and 40 questions and problems per chapter are
 categorised by topic and level of difficulty numbered maths equations and key notation
 boxes listing the variables and acronyms that will be encountered in each chapter
 designed to encourage mastery of maths exam questions designed to take 45 minutes and
 test you on material learned in a more formal exam style connect resources include
 algorithmic questions designed to ensure equations and calculations are not learned by
 rote but by thorough understanding and practice new to this edition updated discussions
 on peer to peer trading cash flow forecasting methods import export partners and
 additional investment appraisal methods updated chapters on corporate governance to
 reflect global changes efficient markets and mergers and acquisition to reflect new
 research financial distress to reflect new data with discussion on trends and insolvencies
 and fully updated chapter on leasing to reflect new ifrs standards new section on modified
 internal rate of return and margin of safety in investment appraisal net asset value islamic
 financing and alternatives to capm to reflect research developments new this edition has
 now been updated with 8 new videos that covers a worked example from the text and each
 video has associated concept check questions the videos are now available on connect and
 cover chapter 1 2 introduction to finance and corporate governance chapter 5 long term
 financing chapter 6 investment appraisal chapter 9 10 risk and return chapter 15 and 16
 equity and debt valuation chapter 20 advanced capital budgeting chapter 21 dividends
 chapter 22 options david hillier is associate principal and executive dean of the university
 of strathclyde business school a professor of finance david was recognized as being in the
 top 3 per cent of the most prolific finance researchers in the world over the past 50 years
