francis bacon was one of most elusive and enigmatic creative geniuses of the twentieth century however much his avowed aim was to simplify both himself and his art he remained a deeply complex person bacon was keenly aware of this underlying contradiction and whether talking or painting strove consciously towards absolute clarity and simplicity calling himself simply complicated until now this complexity has rarely come across in the large number of studies on bacons life and work francis bacon studies for a portrait shows a variety of bacons many facets and questions the accepted views on an artist who was adept at defying categorization the essays and interviews brought together here span more than half a century opening with an interview by the author in 1963 the year that he met bacon there are also essays written for exhibitions memoirs and reflections on bacons late work some published here for the first time included are recorded conversations with bacon in paris that lasted long into the night and an overall account of the artists sources and techniques in his extraordinary london studio this is an updated edition of francis bacon studies for a portrait 2008 published for the first time in a paperback reading book format it brings this fascinating artist into closer view revealing the core of his talent his skill for marrying extreme contradictions and translating them into immediately recognizable images whose characteristic tension derives from a life lived constantly on the edge

central object of his study the knowledge necessary to understand the general environment but knowledge so acquired is apt to be deficient one sided and full of gaps and it is safer for a student to start from a general acquaintance with the european history of the period before embarking on any special medieval study a student equipped with this general knowledge who was attracted by st francis 1182 1226 might begin by reading one of the numerous lives which have been published recently either sabatier s famous *vie de s franfois d assise* 1st edition 1894 which should be read in the original french or father cuthbert s sympathetic *life of st francis of assisi* longmans 1912 which has the advantage of being based on later researches gebhart s *l italie mystique* paris 1890 though often inaccurate in details contains very suggestive chapters on a phase of thought and feeling characteristic of the thirteenth century and of the early franciscan movement the present writer was led to begin a long course of franciscan study by reading brewer s preface to *monumenta franciscana* rolls series an essay which is more or less out of date now but still retains inspiring qualities two classes of controversial writings bearing on the history of the order are to be distinguished according as they are concerned a with the controversies between the mendicant orders and the secular clergy b with controversies within the franciscan order about the interpretation of the rule and the observance of poverty both were complicated by the adhesion of a powerful section of the franciscans to the doctrines of joachim of flora and the inferences drawn from them

# Reflections on Pope Francis's Encyclical, Laudato si'

according to most of the critical commentary on francis bacon the paintings by this crucially important artist are about violence torment fragmentation and loss however ernst van alphen argues that it is the violence done to the viewer that needs to be addressed if we are to understand how these works function in this provocative and highly original interpretation of bacon s art the author offers close readings of significant works discussing them in relationship to theories of schizophrenia masculinity and contemporary literature as well as issues of representation and visuality by looking at the paintings in intricate detail and exploring their connections within cultural theory van alphen brings bacon into the context of the contemporary critical debate this examination of critical reactions to bacon is very welcome the art newspaper

this book engages thinkers from different religious and humanist traditions in response to pope francis s pronouncements on interreligious dialogue the contributors write from the perspectives of judaism christianity islam hinduism sikhism buddhism and humanism each author elaborates on how the pope s openness to dialogue and invitation to practical collaboration on global concerns represents a significant achievement as the world faces an uncertain future the theological tension within the catholic double commitment to evangelization on the one hand and dialogue on the other remains unresolved for most writers but this does not prevent them from praising the strong invitation to dialogue especially with the focus on justice peace and ecological sustainability

# The Lessons of Saint Francis

the learning of english there are a lot of good books on this subject already so why do i want to write another one it all started when i was invited to write a weekly blog for special broadcasting service sbs a statutory national broadcaster in australia and later provide a talk segment when i delved into the subject i began to realise the complexity of the task i could start from the most basic such as verb subject noun like all the good books do however one obstacle facing the learner is that all the basic elements are interrelated so knowledge in the others is often a prerequisite to probing into any a child born into his her native language would experience all the basic elements holistically and not sequentially this opportunity is not available to learners of a new language it soon dawned on me that to overcome the above we need to firstly explain how the english speaking world has put its sentence together before presenting the various elements that fit into it this book begins with a conceptual understanding of the english sentence before commencing with basic grammar then proceeds to language skills and common faults as well a lot of cross referencing are employed so that the readers know where to access the related elements a chapter on letter writing is also included my excitement in writing this book goes further than just explaining grammar usage i want to share the beauty and efficacy of the english sentence such as one by nelson mandela former president of south africa 2 02h in book we dedicate this day to all the heroes and heroines in this country and
