2010

how many decisions do you think the average person makes in a day how can these choices affect our lives both positively and negatively author waymond rodgers illustrates four basic concepts of decision making in a single model that produces a limited number of possible courses of action process thinking six pathways to successful decision making allows you to gauge which of the pathways is appropriate for a particular situation this in turn can contribute an overall improvement in your happiness relationships finances education and employment dr rodgers breakthrough analysis of decision making should be mandatory reading for anyone managing people or negotiating transactions hank adler c p a accounting professor chapman university and retired partner deloitte touche i think your formulaic approach to decision making will make it much easier for people to make correct choices your approach forces decision makers to address the role their own subjective feelings perceptions have upon the process it thereby makes the choice much more objective and rational randall l erickson j d partner in the california office of crowell moring and chair of the firm s construction group

Process Thinking

2006

this book is a comprehensive summary primarily of the author s own thinking and research about the analytic hierarchy process and decision making it includes advanced mathematical theory and diverse applications fundamentals of decision making has all the latest theoretical developments in the ahp and new theoretical material not published elsewhere we consider this book to be the replacement for the original book on the subject the analytic hierarchy process that was published by mcgraw hill publishers new york

Business Statistics

2009-11-13

this book is about how to make decisions using the analytic hierarchy process the basics of the theory are described in a clear non technical manner with many examples it is suitable for business leaders and also is probably the best book for introducing the ahp to students at the college and graduate level in this fifth printing of the book the reader will find a new appendix containing real life applications that validate the use of the fundamental scale of the ahp

Business Statistics

2009-11-12

the book is designed to help students to prepare for real world ethical dilemmas instead of focusing on intellectual reasoning or a philosophical discussion of ideas it includes chapter on best practices ethics audits and disaster recovery planning helps increase students awareness of cross national ethical issues and develop their strategic skills for planning and working through disasters the book incorporates nine new cases that reinforce the text s applied approach to ethics and cover a range of organizations and topics i an overview of business ethics ii the ethical decision making process iii implementing business ethics in a global economy iv 18 cases appendices

Fundamentals of Decision Making and Priority Theory With the Analytic Hierarchy Process

2010-05-25

the sixth international multiple criteria decision making mcdm conference is one of a biennial series that serve as a forum

for exchange of the latest information and new developments in this rapidly growing field participants are carefully chosen from among scholars and practitioners so that widely ranging perspectives and disciplines are represented this insures the dissemination of valuable new know ledge to those scholars policy makers and industrial analysts who will best utilize and share it both in developed and in third world countries the sixth internaitona1 mcdm conference was held from june 4 to 8 1984 at case western reserve university cleveland ohio the conference program reflects the evolution of the field from infancy through adolescence to maturity as marked by the progression from single objective modeling and optimization to multiple objective deci sion making because the theoreticians practitioners and students who attend these mcdm conferences necessarily have different needs and expectations the program now offers fewer monologues and more panels overview papers and tutorial sessions focusing on case studies and other practical experiences
