as modern foreign policy and international relations encompass more and more scientific issues we are moving towards a new type of diplomacy known as science diplomacy will this new diplomacy of the 21st century prove to be more effective than past diplomacy for the big issues facing the world such as climate change food and water insecurity diminishing biodiversity pandemic disease public health genomics or environmental collapse mineral exploitation health and international scientific endeavours such as those in the space and the antarctic providing a new area of academic focus that has only gathered momentum in the last few years this book considers these questions by bringing together a distinguished team of international specialists to look at various facets of how diplomacy and science are influenced by each other the book not only dissects the ways that politics science and diplomacy have become intertwined but also highlights how the world s seemingly most intractable problems can be tackled with international collaboration and diplomacy that is rooted in science and driven by technology it therefore challenges the conventional wisdom concerning the juxtaposition of science and the world of diplomacy

CTET GUIDE: Child Development and Pedagogy Paper 1 & 2 with Previous Papers 1st Edition 2013-10-30

criminological and penological scholarship has in recent years explored how and why institutions and systems of punishment change and how and why these changes differ in different contexts important though these analyses are this book focuses not so much on the changing nature of institutions and systems but rather the changing nature of penal practice and practitioners bringing together leading researchers from around the world this collection unites studies that aim to describe and critically analyse penal practice with studies that investigate its effectiveness and prescribe its future development reversing penology's usual preoccupation with the prison the book focuses mainly on penal practice in the community i.e. on probation parole offender supervision and community corrections the first part of the book focuses on understanding practice and practitioners exploring how changing social cultural political and organisational contexts influence practice and how training development professional socialisation and other factors influence practitioners the second part is concerned with how practitioners can be best supported to develop the skills and approaches that seem most likely to generate positive impacts it contains accounts of new practice models and approaches as well as reports of research projects seeking both to discover and to encourage effective practices this book explores internationally significant and cutting edge theoretical and empirical work on the cultures practices roles and impacts of frontline practitioners in delivering penal sanctions as such it will be of interest to researchers in criminology social work and social policy as well as correctional policy makers and those involved in community supervision

Understanding Penal Practice 2013-09-05

the tokyo international conference on african development ticad was established in 1993 with the intention of creating opportunities for trade and investment on both sides and the promotion of sustainable development in 2003 the conference translated japanese aid policy to africa into three key pillars human centered development poverty reduction through economic growth and the consolidation of peace and since 2005 africa has on several occasions been the largest recipient of japanese overseas aid tracing japanese foreign aid to africa during and after the cold war this book examines how the ticad process sits at the intersection of international relations and domestic decision making indeed it questions whether the increase in aid has been driven by domestic changes such as demands from civil society and donor interest or pressures emanating from the international system taking angola and mozambique as case studies the book explores how japan s development cooperation with africa has assisted previously war torn states make the transition from war to peace and in doing so demonstrates the centrality of human security to japanese foreign policy as a means of ensuring sustainable development this book will have great interdisciplinary appeal to students and scholars of japanese and african studies japanese politics international relations theory foreign policy economic development and sustainable development

Japan's Foreign Aid to Africa 2014-03-14

this book explains what small states are and explores their current security challenges in general terms and through specific examples it reflects the shift from traditional security definitions emphasizing defence and armaments to new security concerns such as economic societal and environmental security where institutional cooperation looms larger these complex issues linked with traditional power relations and new types of actors need to be tackled with due regard to democracy and good governance key policy challenges for small states

are examined and applied in the regional case studies the book deals mainly with the current experience and recent past of such states but also offers insights for their future policies although many of the states covered are european the study also includes african caribbean and asian small states their particular interest and relevance is outlined as is the connection between their security challenges and their smallness policy lessons for other states are then sought the book is the first in depth multi continent study of security as an aspect of small state governance today it is novel in placing the security dilemmas of small states in the context of wider ideas on international and institutional change and in dealing with non european states and regions

Small States and International Security 2017-10-02

urban and regional development in the baltic states and other central and eastern european countries has experienced rapid changes since their re independence at the beginning of the 1990s meanwhile urban and regional planning institutions and organizational cultures in the baltic states have only changed rather incrementally despite various national and european pressures for reform as a consequence the effects of european cohesion and structural policy measures have been quite modest and the ability of the planning systems in the baltic states to manage contemporary trends in urban and regional development has become increasingly limited this book focuses on these issues and tensions of spatial planning and development in the baltic states and their distinctiveness compared to other european countries it provides an overview of the historical and cultural context of spatial development a discussion of the processes of europeanization of spatial planning in the specific context of the baltic states and an analysis of whether these processes may be leading to policy convergence in the region this book was published as a special issue of european planning studies

Impacts of European Territorial Policies in the Baltic States

this sporting life offers an important view of england s cultural history through its sporting pursuits carrying the reader to a match or a hunt or a fight viscerally drawing a portrait of the sounds and smells and showing that sport has been as important in defining british culture as gender politics education class and religion

This Sporting Life 2014-07-11

this book explores the persistence of the governance gap with respect to the human rights impacting conduct of transnational extractive corporations operating in zones of weak governance the authors launch their account with a fascinating case study of talisman energy s experience in sudan informed by their own experience as members of the 1999 canadian assessment mission to sudan harker mission drawing on new governance reflexive law and responsive law theories the authors assess legal and other non binding governance mechanisms that have emerged since that time including the un guiding principles on business and human rights they conclude that such mechanisms are incapable of systematically preventing human rights violating behaviour by transnational corporations or of assuring accountability of these actors or recompense for victims of such violations the authors contend that home state regulation while not a silver bullet has a crucial role to play in regulating such conduct they pick up where un special representative john ruggie s guiding principles on business and human rights left off and propose an innovative robust and adaptable template for strengthening the regulatory framework of home states their model draws insights

this book offers a comprehensive analysis of the legal issues around intangible cultural heritage also known as traditional cultural expressions or folklore it explores both institutional and substantive responses the law offers to the safeguarding of intangible heritage relying heavily on critiques internal and external to the law these external critiques primarily come from the disciplines of anthropology and heritage studies intangible cultural heritage is safeguarded on three different levels international regional and national at the international level the foremost instrument is the specific unesco convention for the safeguarding of the intangible cultural heritage 2003 at the regional level initiatives are undertaken both in schemes of political and economic integration a common thread being that intangible cultural heritage helps promote a common identity for the region becoming thus a desirable aspect of the integration process domestically responses range from strong constitutional forms of protection to rather weak policy initiatives aimed primarily at attracting foreign aid intangible heritage can also be safeguarded via substantive law and in this respect the book looks at the potential and pitfalls of human rights law intellectual property tools and contractual approaches it investigates how the law works and ought to work towards protecting communities defined as those from where intangible cultural heritage stems and to whom benefits of its exploitation must return the book takes the critiques from anthropological and heritage studies into account in order to posit a re shaped law offering tools that can be valuable to both scholars and practitioners when understanding how to safeguard intangible heritage

Intangible Cultural Heritage in International Law 2014-03-21

the corporation is a major vehicle of business activity worldwide it incurs social costs and generates benefits that continually change hence whether it still provides a net benefit to society is contestable evidence based observations of the last decade of corporate sagas and the role of accounting and auditing suggests a serious rethink is needed about how commerce is pursued and in particular whether the current corporate form has passed its use by date the authors of this new book including internationally renowned accounting scholars argue that the two major governance tools of accounting and auditing require major makeovers beginning by analyzing the global sweep of deregulation that corporations experienced since 2000 the authors go on to discuss the various scandals and crises that characterized the subsequent period culminating in yet more calls for further deregulation having thoroughly assessed the status quo they provide a series of urgent recommendations for reforms designed to bring the corporation back to the real world and restore its purpose this book will be of great interest to students and academics across accounting business law and finance especially more advanced students at undergraduate and postgraduate level

The Unaccountable & Ungovernable Corporation 2013-07-18

low carbon development key issues is the first comprehensive textbook to address the interface between international development and climate change in a carbon constrained world it discusses the key conceptual empirical and policy related issues of low carbon development and takes an international and interdisciplinary approach to the subject by drawing on insights from across the natural sciences and social sciences whilst embedding the discussion in a global context the first part explores the concept of low carbon development and explains the need for low carbon development in a carbon constrained world the book then discusses the key issues of socio economic political and technological nature for low carbon development exploring topics

such as the political economy social justice financing and carbon markets and technologies and innovation for low carbon development this is followed by key issues for low carbon development in policy and practice which is presented based on cross cutting issues such as low carbon energy forestry agriculture and transportation afterwards practical case studies are discussed from low carbon development in low income countries in africa middle income countries in asia and latin america and high income countries in europe and north america written by an international team of leading academics and practitioners in the field of low carbon development this book is essential reading for students academics professionals and policy makers interested in the fields of low carbon development climate change mitigation climate policy climate change and development global environmental change and environment and development

Low Carbon Development 2013-09-28

the chapters in this book explore the impact of recent shifts in global and regional power and the subsequent development and enforcement of international refugee protection standards in the asia pacific region drawing on their expertise across a number of jurisdictions the contributors assess the challenges confronting the implementation of international law in the region as well as new opportunities for extending protection norms into national and regional dialogues the case studies span key jurisdictions across the region and include a comparative analysis with china indonesia thailand myanmar malaysia bangladesh and australia this topical and important book raises critical questions for the asia pacific region and sheds light on the challenges confronting the protection of refugees and displaced persons in this area interdisciplinary in its approach it will be of interest to academics researchers students and policy makers concerned with the rights and protection of refugees

Protection of Refugees and Displaced Persons in the Asia Pacific Region 2015-10-29

testicular cancer tc is the most common cancer in males aged 20 40 years with a worldwide incidence of 7.5 per 100 000 but the rates vary considerably between countries and ethnic groups and there is evidence also for an increasing incidence in last decades about 95% of all tcs are represented by testicular germ cell tumors tgcts which include seminoma and non seminoma histological types it is generally assumed that the development of tgct is under endocrine control in particular unbalanced androgen/estrogen levels and/or activity are believed to represent the key events for tgct development and progression furthermore recent evidence has suggested genetic association of tgct with variations in genes involved in hypothalamic-pituitary-testicular axis and steroidogenic enzymes this recent evidence expands the current knowledge on the role of genetic contribution in testicular cancer susceptibility and supports the hypothesis that variations in hormone metabolism genes might change the hormonal environment implicated in testicular carcinogenesis therefore hormonal carcinogenesis is an important and controversial area of current research in tgct and further attention is given to genetic factors influencing hormone-related cancer risk the genetic component to tgct is in general strong in fact although environmental factors clearly contribute to tgct development and probably to its increasing incidence in some geographical areas the proportion of tgct susceptibility accounted for by the genetic effects is estimated at 25% tgct has high familial risks compared with most other cancer types that are generally no more than two-fold brothers of individuals with tgct have an 8 to 12-fold increased risk of disease and sons of affected individuals have a 4 to 6-fold increased risk despite this strong familial relative risk early results from linkage studies identified a limited relationship with genetic factors suggesting that tgct is a genetically complex trait however more recently four genome-wide association studies (GWAS) from the UK and USA have reported association of TGCTs with six new loci: KITLG, SPRY4, BAK1, DMRT1, TERT and ATF7IP1

strongest association for tgct susceptibility was found for snps in kitlg ligand for the membrane bound receptor tyrosine kinase kit gene with a greater than 2.5 fold increased risk of disease per major allele which is the highest reported for any cancer to date these studies are being now replicated by other researches and attention is given to the relationship between these genetic variations tgct risk and frequently associated anomalies of the reproductive tract such as cryptorchidism and infertility finally over the past few decades tgct research has focused also on external environmental causes acting mainly as endocrine disrupters of androgen and oestrogen pathways even during the foetal development of the testis it is well known that the testicular dysgenesis syndrome tds hypothesis proposed ten years ago suggests that disturbed testicular development in fetal life may result in one or more of four disorders postnatally named cryptorchidism hypospadias poor semen quality and tgct these four disorders are therefore considered as one clinical entity and are linked together by epidemiological and pathophysiological relations the relative contribution of genetics and environment in tgct development and the interactions between endocrine disruptors and variations in genes involved in hormonal carcinogenesis is therefore another interesting area of research

Testis cancer: genes, environment, hormones 2016-04-08

this book takes bold steps in forming much needed philosophical foundations for restorative justice through deconstructing and reconstructing various models of thinking it challenges current debates through the consideration and integration of various disciplines such as law criminology philosophy and human rights into restorative justice theory resulting in the development of new and stimulating arguments topics covered include the close relationship and convergence of restorative justice and human rights some of the challenges of engagement with human rights the need for the recognition of the teachings of restorative justice at both the theoretical and the applied level the aristotelian theory on restorative justice the role of restorative justice in schools and in police practice and a discussion of the humanistic african philosophy of ubuntu with

international contributions from various disciplines and through the use of value based research methods the book deconstructs existing concepts and suggests a new conceptual model for restorative justice this unique book will be of interest to academics researchers policy makers and practitioners

Reconstructing Restorative Justice Philosophy 2014-01-30

much of the existing literature within the varieties of capitalism voc and comparative business systems fields of research is heavily focused on europe japan and the anglo saxon nations as a result the field has yet to produce a detailed empirical picture of the institutional structures of most asian nations and to explore to what extent existing theory applies to the asian context the oxford handbook of asian business systems aims to address this imbalance by exploring the shape and consequences of institutional variations across the political economies of different societies within asia drawing on the deep knowledge of 32 leading experts this book presents an empirical comparative institutional analysis of 13 major asian business systems between india and japan to aid comparison each country chapter follows the same consistent outline complementing the country chapters are eleven contributions examining major themes across the region in comparative perspective and linking the empirical picture to existing theory on these themes a further three chapters provide perspectives on the influence of history and institutional change the concluding chapters spell out the implications of all these chapters for scholars in the field and for business practitioners in asia the handbook is a major reference work for scholars researching the causes of success and failure in international business in asia

The Oxford Handbook of Asian Business Systems 2013-04-25

uzbekistan s foreign policy from 1991 to 2016 starting from independence right up to the death of its first president islam karimov is one of the more distinctive approaches to international politics since the end of the cold war this distinctiveness rests on the republic s gradual struggle for self reliance upon becoming independent authorities in uzbekistan especially its president were sceptics of the norms that came to prevail across regional and broader international politics this book addresses the making of uzbekistan s general foreign policy and its corresponding effects outside central asia particularly at the highest level among state officials heads of state and ministers it shows how a particular set of promises slogans and attitudes became the pillars upon which uzbekistan s international role was shaped a role which then affected tashkent s twenty five year relations with russia the united states germany and turkey the book argues that the government of uzbekistan sought to be recognised as a self reliant power after independence but that the international norms of the post cold war order coupled with the conflicting aims of the partners with whom it interacted hindered acknowledgement and contributed to a twenty year struggle for recognition providing a thorough assessment of president karimov s legacy in the foreign policy domain this book contributes to the developing field of role theory and recognition in international relations it will also be of interest to academics in the fields of central asian and eurasian politics and international relations

10 YEAR-WISE CTET Paper 1 Solved Papers (2011 - 2018) - English Edition 2013-08-03

Carefully distinguishing between big data and open data and exploring various data infrastructures, Kitchin vividly illustrates how the data landscape is rapidly changing and calls for a revolution in how we think about data. Evelyn Ruppert Goldsmiths University of London deconstructs the hype around the data revolution to carefully guide us through the histories and the futures of big data. The book skilfully engages with debates from across the humanities, social sciences, and sciences in order to produce a critical account of how data are enmeshed into enormous social, economic, and political changes that are taking place. Mark Graham, University of Oxford, traditionally, data has been a scarce commodity which, given its value, has been either jealously guarded or expensively traded. In recent years, technological developments and political lobbying have turned this position on its head. Data now flows as a deep and wide torrent, are low in cost, and supported by robust infrastructures and are increasingly open and accessible. A data revolution is underway, one that is already reshaping how knowledge is produced, business conducted, and governance enacted, as well as raising many questions concerning surveillance, privacy, security, profiling, social sorting, and intellectual property rights. In contrast to the hype and hubris of much media and business coverage, the data revolution provides a synoptic and critical analysis of the emerging data landscape. Accessible in style, the book provides a synoptic overview of big data, open data, and data infrastructures; an introduction to thinking conceptually about data; data infrastructures; data analytics; and data markets; a critical discussion of the technical shortcomings and the social, political, and ethical consequences of the data revolution; an analysis of the implications of the data revolution to academic, business, and government practices.

10 YEAR-WISE CTET Paper 2 (Social Science/ Studies) Solved Papers (2011 - 2018) - English Edition

this book provides an expert analysis of alternative investments routes and the investment strategies available to the major port players and is a much needed guide to expanding the investor base for private debt funding of projects from loan providers to bond investors port infrastructure investments are vitally important to all ports throughout the world without these investments the competitive position of ports and of the dependent logistics sector will deteriorate national regional governments and the local port authorities are no longer a guaranteed source of sufficient financial input to meet the continuous port infrastructure investment needs of major ports it is therefore increasingly crucial for ports to broaden their strategies and secure alternative streams of investment this book provides expert insight into areas of port infrastructure finance across the main regions of europe asia africa and the usa topics include how to estimate future demand by way of forecasting public private partnerships corporatisation the pricing mechanisms for syndicated loans european port privatisation finance strategies for ports in asia the usa and africa and a discussion of the investment strategies available to the major port players port infrastructure finance is an invaluable book for all parties involved in the port and maritime business as well as investment companies banks and other financial institutions involved in infrastructure investment

The Data Revolution

words worlds and narratives transmedia and immersion offers an interdisciplinary discussion of the way in which narrative is transmitted transformed and translated through the wide variety of technologies and media platforms available in the 21st century this volume critically engages with the field of transmedia studies and

addresses the significance of media to narrative and authorship to immersion what emerges is a unique look at collaborative scholarship and storytelling which is both disruptive and immersive using a diverse archive of narrative forms including video games fan fiction film adaptation and social media the chapters in this volume explore the narratological social political and economic implications of transmedia narrative in the public and private spaces of the digital and the immersive media communities

Port Infrastructure Finance

this book analyses the role of the oecd in diffusing policy innovations through the case study of regulatory impact analysis ria this study shows how transnational networks have an impact on national policy process the analytical framework encompasses the institutional features as well as internal and international determinants of a policy innovation such as ria drawing on original data sets three empirical analyses assess to what extent government decisions to adopt implement and evaluate ria was driven by the oecd transnational policy innovation argues that concepts of policy innovation diffusion provide a useful framework for understanding the dynamics of transnational governance it shows that the oecd has been successful in framing and diffusing a template of evidence based decision making however downplaying ria as an instrument of political control has limited the influence of the oecd s peer review and comparative indicators on the administrative and institutional setting
