hansen love that the meaning of a work of literature is generated by the interaction of paradigmatic and syntagmatic mechanisms the image of character in turgenev s stories is the result of devices characteristic of narrative as well as of verbal art it is partly created with the help of leitmotifs that form sequences of equivalences and of intertextual references thus social

representation is supplemented by lyrical and philosophical overtones

highly accessible project whose material spans the period 1976 84 during which
virtually all of his fictional writings including several novels or works of
