Seven Unholy Days 2013-04-04 this book aims to reflect on the experiential side of writing political lives in the pacific region the collection touches on aspects of the life writing art that are particularly pertinent to political figures public perception and ideology identifying important

political successes and policy initiatives grappling with issues like corruption and age old political science questions about leadership and dirty hands these are general themes but they take on a particular significance in the pacific context and so the contributions explore these themes in relation to patterns of colonisation and the memory of independence issues elliptically captured by terms like culture and tradition the nature of self presented in pacific life writing and the tendency for many of these texts to be written by outsiders or at least the increasingly contested nature of what that term means

The Last Days of Dispensationalism 2010-10-28 from 2013 to 2015 over 11 000 people across west africa lost their lives to the deadliest outbreak of the ebola virus in history crucially this epidemic marked the first time the virus was able to spread beyond rural areas to major cities overturning conventional assumptions about its epidemiology with backgrounds ranging from development to disease control the contributors to this volume some of them based in countries affected by the ebola epidemic consider the underlying factors that shaped this unprecedented outbreak while championing the heroic efforts of local communities and aid workers in halting the spread of the disease the contributors also reveal deep structural problems in both the countries and humanitarian agencies involved which hampered the efforts to contain the epidemic alarmingly they show that little has been learned from these events with health provision remaining underfunded and poorly equipped to deal with future outbreaks such issues they argue reflect the wider challenges we face in tackling epidemic disease in an increasingly interconnected world

The Inevitable 2011-04 from dial up to wi fi an engaging cultural history of the commercial web industry in the 1990s the world wide helped transform the internet from the domain of computer scientists to a playground for mass audiences as urls leapt off computer screens and onto cereal boxes billboards and film trailers the web changed the way many americans experienced media socialized and interacted with brands businesses rushed online to set up corporate home pages and as a result a new cultural industry was born web design for today s internet users who are more familiar sharing social media posts than collecting hotlists of cool sites the early web may seem primitive clunky and graphically inferior after the dot com bubble burst in 2000 this pre crash era was dubbed 1 0 a retronym meant to distinguish the early web from the social user centered and participatory values that were embodied in the internet industry s resurgence as 2 0 in the 21st century tracking shifts in the rules of good web design ankerson reimagine speculation and design as a series of contests and collaborations to conceive the boundaries of a new digitally networked future what was it like to go online and surf the in the 1990s how and why did the look and feel of the web change over time how do new design paradigms like user experience design ux gain traction bringing together media studies internet studies and design theory dot com design traces the shifts in and struggles over the web s production aesthetics and design to

provide a comprehensive look at the evolution of the web industry and into the vast internet we browse today
