A Book of English Essays (1600-1900) (Classic Reprint) 2018-01-16 excerpt from a book of english essays 1600 1900 of the word essay it is necessary to say some thing because at different times it has borne different meanings johnson's definition of it as a loose sally of the mind an irregular undigested piece covered its employment by authors to excuse shortcomings and to disarm the critic in his examination of a work which boasted of no pretence to literature some such idea of admitted or implied failure in a worthy experiment adhered to montaigne's use of the word in those essays which were published in 1580 but the decay of this sense began in fact with this publication although the author expressed his apology for being some thing fantastical for that very wandering from point to point which in montaigne was a habit of mind was developed by the english essayists of the eighteenth century into a deliberate study out of what montaigne would have been only too pleased to call irregularity and want of finish they invented a literary quality which in goldsmith rose to a perfection of carelessness in approaching and retreating from a subject it was in another direction from that taken by montaigne and his followers that bacon enlarged the meaning of the word essay in literature he applied it to his pieces not in the sense of an experiment but in the sense of a test or assay he weighed and examined his subjects one by one with the grip of his intellect he clung to each separate subject as to a rock while he treated of it refusing to dip to the invading wave of kindred ideas by which it was surrounded in the dedication of his second edition of pieces to prince henry of wales in 1612 he wrote of them as brief notes set down rather significantly than curiously which i have called essays the word is late but the thing is ancient and he went on to point out that seneca's epistles to lucilius were if read aright nothing but essays about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Principles at stake, essays on Church questions of the days ed. by G.H. Sumner 1868 this book collects joseph greenberg's most important writings on the genetic classification of the world's languages william croft sets the work in context and considers its impact and the bitter controversy it excited

Principles at Stake. Essays on church questions of the day. Edited by G. H. S. Second edition 1868 winner of the 2012 prose award for mathematics from the american publishers awards for professional and scholarly excellence a great book one that i will certainly add to my personal library paul j nahin professor emeritus of electrical engineering university of new hampshire classic problems of probability presents a lively account of the most intriguing aspects of statistics the book features a large collection of more than thirty classic probability problems which have been carefully selected for their interesting history the way they have shaped the field and their counterintuitive nature from cardano's 1564 games of chance to jacob bernoulli's 1713 golden theorem to parrondo's 1996 perplexing paradox the book clearly outlines the puzzles and problems of probability interweaving the discussion with rich historical detail and the story of how the mathematicians involved arrived at their solutions each problem is given an in depth treatment including detailed and rigorous mathematical proofs as needed some of the fascinating topics discussed by the author include buffon's needle problem and its ingenious treatment by joseph barbier culminating into a discussion of invariance various paradoxes raised by joseph bertrand classic problems in decision theory including pascal's wager kraitchik's neckties and newcomb's problem the bayesian paradigm and various philosophies of probability coverage of both elementary and more complex problems including the chevalier de méré problems fisher and the lady testing tea the birthday

problem and its various extensions and the borel kolmogorov paradox classic problems of probability is an eye opening one of a kind reference for researchers and professionals interested in the history of probability and the varied problem solving strategies employed throughout the ages the book also serves as an insightful supplement for courses on mathematical probability and introductory probability and statistics at the undergraduate level

Genetic Linguistics 2005-03-18 essays and reviews is a collection of seven articles that appeared in 1860 sparking a victorian culture war that lasted for at least a decade with pieces written by such prominent oxford and cambridge intellectuals as benjamin jowett mark pattison baden powell and frederick temple later archbishop of canterbury the volume engaged the relations between religious faith and current topics of the day in education the classics theology science history literature biblical studies hermeneutics philology politics and philosophy upon publication the church the university the press the government and the courts both ecclesiastical and secular joined in an intense dispute the book signaled an intellectual and religious crisis raised influential issues of free speech and questioned the authority and control of the anglican church in victorian society the collection became a best seller and led to three sensational heresy trials although many historians and literary critics have identified essays and reviews as a pivotal text of high victorianism until now it has been almost inaccessible to modern readers this first critical edition edited by victor shea and william whitla provides extensive annotation to map the various positions on the controversies that the book provoked the editors place the volume in its complex social context and supply commentary background materials composition and publishing history textual notes and a broad range of new supporting documents including material from the trials manifestos satires and contemporary illustrations not only does such an annotated critical edition of essays and reviews indicate the impact that the volume had on victorian society it also sheds light on our own contemporary cultural institutions and controversies

Classic Problems of Probability 2016-05-02 reprint of the original first published in 1867

Essays and Reviews 2000 patriotism and public spirit is an innovative study of the formative influences shaping the early writings of the irish english statesman edmund burke and an early case study of the relationship between the business of bookselling and the politics of criticism and persuasion through a radical reassessment of the impact of burke s irishness and of his relationship with the london based publisher robert dodsley the book argues that burke saw patriotism as the best way to combine public spirit with the reinforcement of civil order and to combat the use of coded partisan thinking to achieve the dominance of one section of the population over another no other study has drawn so extensively on the literary and commercial network through which burke s first writings were published to help explain them by linking contemporary reinterpretations of the work of patriot sympathizers and writers such as alexander pope and lord bolingbroke with generally neglected trends in religious and literary criticism in the republic of letters this book provides new ways of understanding burke s early publications the results call into question fundamental assumptions about the course of enlightenment thought and challenge currently dominant post colonialist and irish nationalist interpretations of the early burke

The Eclectic review. vol. 1-New [8th] 1844 the three volumes that make up this work are the records of the contents of the new york magazine from the years 1790 1797 this study contributes to ordering the data and easing the ongoing work of assessing the worth of this magazine its intention is to make further examination of the new york magazine easier and to parade facts useful to students of the history of magazines or of popular culture

The Eclectic Review 1844 the pleasure and excitement of exploring virginia woolf s writings is at the heart of this book by a highly respected woolf critic and biographer julia briggs reconsiders woolf s work from some of her earliest fictional experiments to her late short story the symbol and from the most to the least familiar of her novels from a series of highly imaginative and unexpected angles individual essays analyse woolf s neglected second novel night and day and investigate her links with other writers byron shakespeare her ambivalent attitudes to englishness and to censorship her fascination with transitional places and moments with the flow of time and its relative nature her concern with visions and revision and with printing and the writing process as a whole we watch woolf as she typesets an extraordinarily complex high modernist poem hope mirrlees s paris and as she revises her novels so that their structures become formally and even numerologically significant a final essay examines the differences between woolf s texts as they were first published in england and america and the further changes she occasionally made after publication changes that her editors have been slow to acknowledge julia briggs brings to these discussions an extensive knowledge of woolf both as a scholar and as an editor she records her findings and observations in a lively graceful and approachable style that will entice readers to delve further and more meaningfully into woolf s work

Essays on the Supernatural Origin of Christianity 1870 presents test taking strategies and practice questions on the graduate management admission test focusing on grammar reading comprehension critical reasoning and sentence correction

Target XAT 2022 (Past Papers 2005 - 2021 + 5 Mock Tests) 13th Edition 2020-07-01 across america today conservatism is being hotly debated both across the political spectrum and within the conservative movement itself much of the public debate is without definition or historical context this history of conservatism by renowned historian social critic and poet peter viereck aims to meet the need for a concise balanced picture of conservative thought in all its different shadings and cultural contexts the analytical portion of the book provides a succinct but thorough critical overview of conservatism s most representative figures viereck begins with chapters defining conservatism itself its special technical terms and its changing historical circumstances the rest deals with its actual thinkers and statesmen after each main conservative thesis the anti conservative rebuttal is summarized and the reader is allowed to reach his own conclusions though the first stress is on conservative political philosophy from john adams to churchill key sections also stress non political conservatism in

religion cardinal newman and in the primarily cultural protest against material progress coleridge dostoyevsky melville henry adams every major point is concretely illustrated by an appended cross reference to a primary source in the second half a well chosen anthology of key conservative documents criteria for inclusion are three representativeness depth of perception importance of influence the result is not uniformity but a gamut from extreme intolerant reaction to an evolutionary moderate spirit the former passes imperceptibly into authoritarianism the latter into liberalism
