## **Advanced Methods, Techniques, and Applications in Modeling and Simulation**

***2012-10-19***

this book is a compilation of research accomplishments in the fields of modeling simulation and their applications as presented at asiasim 2011 asia simulation conference 2011 the conference held in seoul korea november 16 18 was organized by asiasim federation of asian simulation societies kss korea society for simulation cass chinese association for system simulation and jsst japan society for simulation technology asiasim 2011 provided a forum for scientists academicians and professionals from the asia pacific region and other parts of the world to share their latest exciting research findings in modeling and simulation methodologies techniques and their tools and applications in military communication network industry and general engineering problems

## **IAENG Transactions on Engineering Technologies 2014-07-08**

this book contains fifty eight revised and extended research articles written by prominent researchers participating in the advances in engineering technologies and physical science conference held in london u k 4 6 july 2012 topics covered include applied and engineering mathematics computational statistics mechanical engineering bioengineering internet engineering wireless networks knowledge engineering computational intelligence high performance computing manufacturing engineering and industrial applications the book offers the state of art of tremendous advances in engineering technologies and physical science and applications and also serves as an excellent reference work for researchers and graduate students working on engineering technologies and physical science and applications

## **Proceedings of Asia International Conference on Tribology 2018 2018-09-17**

this ebook is a compilation of 234 papers presented at the 6th asia international conference on tribology asiatrib2018 kuching sarawak malaysia from 17 to 20 september 2018

## **Advances in Computer Science and its Applications 2013-11-23**

these proceedings focus on various aspects of computer science and its applications thus providing an opportunity for academic and industry professionals to discuss the latest issues and progress in this and related areas the book includes theory and applications alike

## **Proceedings of Malaysian International Tribology Conference 2015 2015-11-16**

this ebook is a compilation of papers presented at the malaysian international tribology conference 2015 mitc2015 penang malaysia on 16 17 november 2015

## **Who is Who in Thermal Analysis and Calorimetry 2014-11-18**

this is an expanded and revised second edition presenting accurate and comprehensive information about our leading thermal scientists to current and future generations in our globalized world most researchers in thermal analysis do not know each other in person and are not familiar with each other's achievements this volume provides the reader with an up to date list of the prominent members in this community the publication contains only living scientists the selection is based partly on several decades of the editors personal professional experience and also partly on the opinion of the regional editors of the journal of thermal analysis and calorimetry

## ***4th Kuala Lumpur International Conference on Biomedical Engineering 2008***

***2008-07-30***

it is with great pleasure that we present to you a collection of over 200 high quality technical papers from more than 10 countries that were presented at the biomed 2008 the papers cover almost every aspect of biomedical engineering from artificial intelligence to biomechanics from medical informatics to tissue engineering they also come from almost all parts of the globe from america to europe from the middle east to the asia pacific this set of papers presents to you the current research work being carried out in various disciplines of biomedical engineering including new and innovative researches in emerging areas as the organizers of biomed 2008 we are very proud to be able to come up with this publication we owe the success to many individuals who worked very hard to achieve this members of the technical committee the editors and the international advisory committee we would like to take this opportunity to record our thanks and appreciation to each and every one of them we are pretty sure that you will find many of the papers illuminating and useful for your own research and study we hope that you will enjoy yourselves going through them as much as we had enjoyed compiling them into the proceedings assoc prof dr noor azuan abu osman chairperson organising committee biomed 2008

## **Intelligent Sensors for Positioning, Tracking, Monitoring, Navigation and Smart Sensing in Smart Cities 2021-03-04**

the rapid development of advanced arguably intelligent sensors and their massive deployment provide a foundation for new paradigms to combat the challenges that arise in significant tasks such as positioning tracking navigation and smart sensing in various environments relevant advances in artificial intelligence ai and machine learning ml are also finding rapid adoption by industry and fan the fire consequently research on intelligent sensing systems and technologies has attracted considerable attention during the past decade leading to a variety of effective applications related to intelligent transportation autonomous vehicles wearable computing wireless sensor networks wsn and the internet of things iot in particular the sensors community has a great interest in novel intelligent information fusion and data mining methods coupling ai and ml for substantial performance enhancement especially for the challenging scenarios that make traditional approaches inappropriate this reprint book has collected 14 excellent papers that represent state of the art achievements in the relevant topics and provides cutting edge

coverage of recent advances in sensor signal and data mining techniques algorithms and approaches particularly applied for positioning tracking navigation and smart sensing

### **Proceedings of Mechanical Engineering Research Day 2020 2020-12-01**

this e book is a compilation of 170 articles presented at the 7th mechanical engineering research day merd 20 kampus teknologi utem virtual melaka malaysia on 16 december 2020

### ***The Malaysia-Japan Model on Technology Partnership 2014-07-24***

the selected papers included in this proceedings on malaysia japan academic scholar conference mjasc 2013 are related to nano science engineering mechanical engineering electrical and electronic engineering computer science information technology etc this proceedings will be a source of research findings for malaysia and japan specifically and other countries in general especially among researchers industry sectors and government policy makers it will be served as a resourceful reference and platform to reflect the significant of the look east policy outcomes and products

### **Modern Advances in Applied Intelligence 2014-05-20**

the two volume set Inai 8481 and 8482 constitutes the refereed conference proceedings of the 27th international conference on industrial engineering and other applications of applied intelligent systems iea aie 2014 held in kaohsiung taiwan in june 2014 the total of 106 papers selected for the proceedings were carefully reviewed and selected from various submissions the papers deal with a wide range of topics from applications of applied intelligent systems to solve real life problems in all areas including engineering science industry automation and robotics business and finance medicine and biomedicine bioinformatics cyberspace and human machine interaction

### ***Proceedings of Regional Tribology Conference 2011 2011-11-22***

this book is a compilation of papers presented at the regional tribology conference 2011 rtc2011 langkawi malaysia on 22 24 november 2011

### **Electrical Engineering and Intelligent Systems 2012-08-01**

the revised and extended papers collected in this volume represent the cutting edge of research at the nexus of electrical engineering and intelligent systems they were selected from well over 1000 papers submitted to the high profile international world congress on engineering held in london in july 2011 the chapters cover material across the full spectrum of work in the field including computational intelligence control engineering network management and wireless networks readers will also find substantive papers on signal processing internet computing high performance computing and industrial applications the electrical engineering and intelligent systems conference as part of the 2011 world congress on engineering was organized under the

auspices of the non profit international association of engineers iaeng with more than 30 nations represented on the conference committees alone the congress features the best and brightest scientific minds from a multitude of disciplines related to engineering these peer reviewed papers demonstrate the huge strides currently being taken in this rapidly developing field and reflect the excitement of those at the frontiers of this research

## **Knowledge Management in Organizations *2015-08-03***

this book contains the refereed proceedings of the 10th international conference on knowledge management in organizations kmo 2015 held in maribor slovenia in august 2015 the theme of the conference was knowledge management and internet of things the kmo conference brings together researchers and developers from industry and academia to discuss how knowledge management using big data can improve innovation and competitiveness the 59 contributions accepted for kmo 2015 were selected from 163 submissions and are organized in topical sections on knowledge management processes successful knowledge sharing and knowledge management practices innovations for competitiveness knowledge management platforms and tools social networks and mining techniques knowledge management and the internet of things knowledge management in health care and knowledge management in education and research

## **Advances in Information Technology *2013-12-09***

this book constitutes the proceedings of the 6th international conference on advances in information technology iait 2013 held in bangkok thailand in december 2013 the 23 revised papers presented in this volume were carefully reviewed and selected from numerous submissions they deal with all areas related to applied information technology

## **Proceedings of the 36th International MATADOR Conference *2010-08-05***

presented here are 130 refereed papers given at the 36th matador conference held at the university of manchester in july 2010 the matador series of conferences covers the topics of manufacturing automation and systems technology applications design organisation and management and research the proceedings of this conference contain original papers contributed by researchers from many countries on different continents the papers cover the principles techniques and applications in aerospace automotive biomedical energy consumable goods and process industries the papers in this volume reflect the importance of manufacturing to international wealth creation the emerging fields of micro and nano manufacture the increasing trend towards the fabrication of parts using lasers the growing demand for precision engineering and part inspection techniques and the changing trends in manufacturing within a global environment

## **Proceedings of the 3rd Malaysian International Tribology Conference *2022-02-22***

this book is a compilation of selected papers presented at the 3rd malaysian international tribology conference mitc 2020 held in langkawi malaysia september 28 30 2020 the book presents the advancement in the field of tribology and is divided into main topics such as bearing design biotribology dry friction and wear green tribology green lubricant lubricant and fuel surface

engineering the contents of this book appeal globally to scientists scholars engineers and students from universities research institutions and industries working in the field of tribology

## **Futuristic Trends in Intelligent Manufacturing *2021-05-31***

this book shows how industry 4.0 is a strategic approach for integrating advanced control systems with internet technology enabling communication between people products and complex systems it includes processes such as machining features machining knowledge execution control operation planning machine tool selection and cutting tool this book focuses on different articles related to advanced technologies and their integration to foster industry 4.0 being useful for researchers as well as industrialists to refer and utilize the information in production control

## **Proceedings of Mechanical Engineering Research Day 2016 *2016-03-31***

this e book is a compilation of papers presented at the mechanical engineering research day 2016 merd 16 melaka malaysia on 31 march 2016

## **Proceedings of Mechanical Engineering Research Day 2017 *2017-05-29***

this e book is a compilation of papers presented at the mechanical engineering research day 2017 merd 17 melaka malaysia on 30 march 2017

## **Material Science and Engineering Technology VI *2018-03-20***

6th icmset 2017 selected peer reviewed papers from the 6th international conference on material science and engineering technology icmset 2017 october 20 22 2017 seoul south korea

## **Materials and Manufacturing Technologies XIV *2012-01-24***

volume is indexed by thomson reuters cpci s was this special issue of advanced materials research contains a selection of high quality research papers presented at the 14th international conference on advances in materials and processing technologies ampt held in istanbul turkey on july 13 16th 2011 the papers are related mainly to materials and processing technologies and the aim of the book is to provide a basis for the identification of new research and development needs in the fields of advanced engineering materials and manufacturing technologies

## **Proceedings of the 5th International Conference on Water Resources (ICWR) – Volume 2 *2012-12-06***

a collection of articles in memory of irene dorfman and her research in mathematical physics among the topics covered are the

hamiltonian and bi hamiltonian nature of continuous and discrete integrable equations the t function construction the r matrix formulation of integrable systems pseudo differential operators and modular forms master symmetries and the bocher theorem asymptotic integrability the integrability of the equations of associativity invariance under laplace darboux transformations trace formulae of the dirac and schrodinger periodic operators and certain canonical 1 forms

## **Algebraic Aspects of Integrable Systems 2016-09-15**

selected peer reviewed papers from the 2016 international conference on materials engineering and nanotechnology may 21 23 2016 taipei taiwan

## ***Proceeding of the International Conference on Materials Engineering and Nanotechnology 2016 2001***

with the rapid expansion of the asia pacific economy in the last decade and the recovery after the recent crisis severe demands will be placed on energy services and the environment coping with the volatile oil prices that persist in the market introduces an additional factor into the energy supply and demand equation not just for countries in this region but also worldwide inevitably there will be implications for environmental issues too the future will see a continuing challenge to balance growth with sustainability in the economic social and environmental sectors this conference a sequel to the immensely successful apcset conferences held in singapore and australia is aimed at meeting that challenge by addressing the pertinent issues related to sustainable energy and environmental protection it provides a forum for participants from academia industry and government agencies to interact report on research in progress and identify opportunities in the fields of sustainable energy and environmental technologies the presentations include not only technical issues such as air pollution control wastewater treatment solid waste management renewable energy and cleaner production but also education and policy issues

## **Proceedings of the Third Asia-Pacific Conference on Sustainable Energy and Environmental Technologies, Hong Kong, 3-6 December 2000 2012-01-03**

this monograph presents recent research findings on fracture properties and behavior of the composites and their damage and cracking process under both quasi static and impact loading conditions theoretical treatment experimental investigation and numerical simulation aspects of the mechanics of composites including sandwich structures are included

## **Damage and Fracture of Composite Materials and Structures 2011-11-10**

this 4 volume set ccis 0251 ccis 0254 constitutes the refereed proceedings of the international conference on informatics engineering and information science icieis 2011 held in kuala lumpur malaysia in november 2011 the 210 revised full papers presented together with invited papers in the 4 volumes were carefully reviewed and selected from numerous submissions the papers are organized in topical sections on e learning information security software engineering image processing algorithms

artificial intelligence and soft computing e commerce data mining neural networks social networks grid computing biometric technologies networks distributed and parallel computing wireless networks information and data management web applications and software systems multimedia ad hoc networks mobile computing as well as miscellaneous topics in digital information and communications

## **Informatics Engineering and Information Science, Part IV *2011-11-11***

this 4 volume set ccis 0251 ccis 0254 constitutes the refereed proceedings of the international conference on informatics engineering and information science icieis 2011 held in kuala lumpur malaysia in november 2011 the 210 revised full papers presented together with invited papers in the 4 volumes were carefully reviewed and selected from numerous submissions the papers are organized in topical sections on e learning information security software engineering image processing algorithms artificial intelligence and soft computing e commerce data mining neural networks social networks grid computing biometric technologies networks distributed and parallel computing wireless networks information and data management web applications and software systems multimedia ad hoc networks mobile computing as well as miscellaneous topics in digital information and communications

## **Informatics Engineering and Information Science, Part II *2012-04-25***

these are the proceedings of the international conference on manufacturing engineering and processing icmep 2012 held on the 21st and 22nd april 2012 in kunming china the objective of icmep 2012 was to provide a forum for the discussion of new developments recent progress and innovations in manufacturing engineering and processing these proceedings address all aspects of design methods with the emphasis placed on current and future challenges in research and developments in academia and industry

## **Intelligent Manufacturing and Mechatronics *2011-09-27***

volume is indexed by thomson reuters cpci s was these proceedings contain the fully refereed papers which were presented at the 2nd international conference on materials and manufacturing technology icmmt 2011 held during july 8 10 2011 in xiamen china the main goal of the event was to provide an international scientific forum for the exchange of new ideas in a number of fields and to facilitate in depth discussions with peers all over the world core areas of materials and manufacturing technology as well as multidisciplinary interdisciplinary and future applications are covered thus providing a timely guide to the entire field

## **Manufacturing Engineering and Process *2022-03-08***

this book presents the proceedings of the 6th international conference on electrical control and computer engineering inecce 2021 held in kuantan pahang malaysia on 23 august 2021 the topics covered are sustainable energy power electronics and drives and power engineering including distributed renewable generation power system optimization artificial computational intelligence smart grid power system protection and machine learning energy management and conservation the book showcases some of the latest

technologies and applications developed to solve local energy and power problems in order to ensure continuity reliability and security of electricity for future generations it also links topics covered the sustainable developed goals sdgs areas outlined by the united nation for global sustainability the book will appeal to professionals scientists and researchers with experience in industry

### ***Material and Manufacturing Technology II 2017-12-20***

this book covers recent advancement methods used in analysing the root cause of engineering failures and the proactive suggestion for future failure prevention the techniques used especially non destructive testing such x ray are well described the failure analysis covers materials for metal and composites for various applications in mechanical civil and electrical applications the modes of failures that are well explained include fracture fatigue corrosion and high temperature failure mechanisms the administrative part of failures is also presented in the chapter of failure rate analysis the book will bring you on a tour on how to apply mechanical electrical and civil engineering fundamental concepts and to understand the prediction of root cause of failures the topics explained comprehensively the reliable test that one should perform in order to investigate the cause of machines component or material failures at the macroscopic and microscopic level i hope the material is not too theoretical and you find the case study the analysis will assist you in tackling your own failure investigation case

### **Proceedings of the 6th International Conference on Electrical, Control and Computer Engineering 2021-04-19**

this book presents a unified approach to fracture behavior of natural and synthetic fiber reinforced polymer composites on the basis of fiber orientation the addition of fillers characterization properties and applications in addition the book contains an extensive survey of recent improvements in the research and development of fracture analysis of frp composites that are used to make higher fracture toughness composites in various applications the frp composites are an emerging area in polymer science with many structural applications the rise in materials failure by fracture has forced scientists and researchers to develop new higher strength materials for obtaining higher fracture toughness therefore further knowledge and insight into the different modes of fracture behavior of frp composites are critical to expanding the range of their application

### **Failure Analysis and Prevention 2012-08-30**

this book constitutes the proceedings of the 12th international workshop on knowledge management and acquisition for intelligent systems pkaw 2012 held in kuching malaysia in september 2012 the 21 full papers and 11 short papers included in this volume were carefully reviewed and selected from 141 papers they deal with knowledge acquisition issues and evaluation language text and image processing incremental knowledge acquisition agent based knowledge acquisition and management ontology based approaches web 2 0 methods and applications and other applications

## **Fracture Failure Analysis of Fiber Reinforced Polymer Matrix Composites**

***2014-11-23***

this biannual conference in pahang malaysia is a clearing house for many of the latest research findings in a highly multidisciplinary field the contributions span a host of academic disciplines which are themselves rapidly evolving making this collection of 90 selected papers an invaluable snapshot of an arena of pure and applied science that produces many versatile innovations the book covers a multitude of topics ranging from the sciences pure and applied to technology computing and engineering and on to social science disciplines such as business education and linguistics the papers have been carefully chosen to represent the leading edge of the current research effort and come from individuals and teams working right around the globe they are a trusted point of reference for academicians and students intending to pursue higher order research projects in relevant fields and form a major contribution to the international exchange of ideas and strategies in the various technological and social science disciplines it is the sheer scope of this volume that ensures its relevance in a scientific climate with a marked trend towards disciplinary synthesis

## **Knowledge Management and Acquisition for Intelligent Systems 2020-12-14**

this book covers the current advances and practices in tribological applications of composite materials under various processes presenting the development characterization and morphological properties of composite materials in tribological applications it covers a wide range of subjects extending from fundamental research on the tribological characteristics of various multi phase materials to the final applications of composites in wear loaded technical components it brings together contributions from researchers who discusses innovative experimental approaches and analytical techniques creating a reference with comprehensive coverage of modern research techniques and the potential application of tribological composites in biomedical aerospace automotive marines and construction industries this volume will be of interest to material science researchers working in both industry and academia

## ***Proceedings of the International Conference on Science, Technology and Social Sciences (ICSTSS) 2012 2013-09-12***

the changing manufacturing environment requires more responsive and adaptable manufacturing systems the theme of the 5th international conference on changeable agile reconfigurable and virtual production carv2013 is enabling manufacturing competitiveness and economic sustainability leading edge research and best implementation practices and experiences which address these important issues and challenges are presented the proceedings include advances in manufacturing systems design planning evaluation control and evolving paradigms such as mass customization personalization changeability re configurability and flexibility new and important concepts such as the dynamic product families and platforms co evolution of products and systems and methods for enhancing manufacturing systems economic sustainability and prolonging their life to produce more than one product generation are treated enablers of change in manufacturing systems production volume and capability scalability

and managing the volatility of markets competition among global enterprises and the increasing complexity of products manufacturing systems and management strategies are discussed industry challenges and future directions for research and development needed to help both practitioners and academicians are presented about the editor prof dr ing michael f zaeh born in 1963 has been and is professor for and manufacturing technology since 2002 and together with prof dr ing gunther reinhart head of the institute for machine tools and industrial management iwmb at the technische universitaet muenchen tum after studying general mechanical engineering he was doctoral candidate under prof dr ing joachim milberg at tum from 1990 until 1993 and received his doctorate in 1993 from 1994 to 1995 he was department leader under prof dr ing gunther reinhart from 1996 to 2002 he worked for a machine tool manufacturer in several positions most recently as a member of the extended management prof dr ing michael f zaeh is an associated member of the cirp and member of acatech wgp and wlp his current researches include among others joining and cutting technologies like laser cutting and welding as well as friction stir welding structural behaviour and energy efficiency of machine tools and manufacturing processes like additive manufacturing

### ***Tribological Applications of Composite Materials 2015-05-18***

this volume provides a complete record of presentations made at industrial engineering management science and applications 2015 icimsa 2015 and provides the reader with a snapshot of current knowledge and state of the art results in industrial engineering management science and applications the goal of icimsa is to provide an excellent international forum for researchers and practitioners from both academia and industry to share cutting edge developments in the field and to exchange and distribute the latest research and theories from the international community the conference is held every year making it an ideal platform for people to share their views and experiences in industrial engineering management science and applications related fields
