typical men is the first book length study of masculinity in british cinema and offers a broad and lively overview from the second world war to the present day spicer argues that masculinity in popular fiction can best be understood as a range of dynamic and competing cultural types which rise and fall in relation to shifting patterns of film production audience taste and social change specific chapters are devoted to each of the major types debonair gentlemen civilian professionals action adventurers the ever yma n fools and rogues criminals rebels and damaged men which trace their changing histories through innovative readings of key films together with a fresh look at the performances of particular stars including james mason kenneth more

michael caine and sean connery a final chapter explores the complex and hybrid types that have evolved within a volatile and unstable contemporary british cinema now part of an array of interrelated media images of masculinity typical men will be of keen interest to those concerned with the cultural history of gender and its detailed and carefully contextualised interpretations of films afford a reappraisal of british cinema history especially the neglected and despised 1950s andrew spicer s typical men is a major intervention in debates about masculinity in the cinema it takes a lot of intellectual risks and locates cinematic stereotypes of masculinity in a cinematic and cultural context it is trenchant and original and redefines the field of gender representation sue harper professor of film history university of portsmouth the strength of this elegantly and wittily written book is that in the precision of its detail about individual performances actors and films it never loses sight of its argumentative threads brian mcfarlane screening the past

did loss of imperial power and the end of empire have any significant impact on british culture and identity after 1945 within a burgeoning literature on national identity and what it means to be british this is a question that has received surprisingly little attention englishness and empire makes an important and original contribution to recent debates about the domestic consequences of the end of empire wendy webster explores popular narratives of nation in

the mainstream media archive newspapers newsreels radio film and television the contours of the study generally follow stories told through prolific filmic and television imagery the second world war the coronation and everest colonial wars of the 1950s and winston churchill s funeral the book analyses three main narratives that conflicted and collided in the period a commonwealth that promised to maintain britishness as a global identity siege narratives of colonial wars and immigration that showed a little england threatened by empire and its legacies and a story of national greatness celebrating the martial masculinity of british officers and leaders through which imperial identity leaked into narratives of the second world war developed after 1945 the book also explores the significance of america to post imperial britain englishness and empire considers how far and in what contexts and unexpected places imperial identity and loss of imperial power resonated in popular narratives of nataion as the first monograph to investigate the significance of empire and its legacies in shaping national identity after 1945 this is an important study for all scholars interested in questions of national identity and their intersections with gender race empire immigration and decolonization

2001-04-12

the western one of hollywood s great film genres has surprisingly enjoyed a revival recently in asia and in other parts of the world whilst at the same time declining in america although the western is often seen as an example of american cultural dominance this book challenges this view it considers the western from an asian perspective exploring why the rise of asian westerns has come about and examining how its aesthetics styles and politics have evolved as a result it analyses specific asian westerns as well as westerns made elsewhere including in australia europe and hollywood to demonstrate how these employ asian philosophical and mythical ideas and value systems the book concludes that the western is a genre which is truly global and not one that that is purely intrinsic to america

#### **Saints and Avengers**

2002-04-26

this set is one of the cornerstones of film scholarship and one of the most important works on twentieth century british culture published between 1948 and 1985 the volumes document all aspects of film making in britain from its origins in 1896 to 1939 rachael low pioneered the interpretation of films in their context arguing that to understand films it was necessary to establish their context her seven volumes are an object lesson in meticulous research lucid analysis and accessible style and have become the benchmark in film history
