reliable products at a low cost assists service engineers in providing superior after sales support enables managers to respond to the changing market and customer needs uses end of chapter case studies to illustrate industry best practice lifecycle approach to reliability maintenance and spares provisioning reliability engineering and service is an important book for graduate engineering students researchers and industry based reliability practitioners and consultants

The Savvy Guide to Car Maintenance and Repair 2005-09 in 1950 the soviet union and the people s republic of china signed a treaty of friendship alliance and mutual assistance to foster cultural and technological cooperation between the soviet bloc and the prc while this treaty was intended as a break with the colonial past austin jersild argues that the alliance ultimately failed because the enduring problem of russian imperialism led to chinese frustration with the soviets jersild zeros in on the ground level experiences of the socialist bloc advisers in china who were involved in everything from the development of university curricula the exploration for oil and railway construction to piano lessons their goal was to reproduce a chinese administrative elite in their own image that could serve as a valuable ally in the soviet bloc s struggle against the united states interestingly the ussr s allies in central europe were as frustrated by the great power chauvinism of the soviet union as was china by exposing this aspect of the story jersild shows how the alliance and finally the split had a true international dimension

Bureau Publication ... 1928 this volume showcases the valuable achievements of the romanian technology and industry worldwide it started from the premise that the history of romanian technique is scarcely known outside the borders of romania the main romanian contributions to the world s technological heritage are missing except for a few names in the field of aviation from the great encyclopedias and dictionaries published worldwide this is due among other reasons to the insufficient promotion in widely spoken languages of the history of romanian technology the multidisciplinary approach of the volumes means that the field of technology had to be split into several branches the present volume includes the following industries mining metallurgy oil natural gas machine building agricultural machinery military textiles and construction folk technology the formation of the industrial system and mechanics are tackled in separate chapters for each field are engaged the collaboration of authors who have already published a history of their field certain chapters were drafted with the aid of specialists who have played the part of policy makers in the elaboration of development strategies for romania and who are familiar not only with the facts and the history of their field but also with the philosophy behind its development

Manzanar National Historic Site, California 1996 the russia that satter depicts in this brave engaging book cannot be ignored required reading for anyone interested in the post soviet state newweek anticipating a new dawn of freedom after the disintegration of the soviet union russians could hardly have foreseen the reality of their future a decade later a country impoverished and controlled at every level by organized crime this riveting book views the 1990s reform period through the experiences of individual citizens revealing the changes that have swept russia and their effect on russia s age old ways of thinking with a reporter s eye for vivid detail and a novelist s ability to capture emotion he conveys the drama of russia s rocky road for the average victimized russian this is only half the story of what is happening in russia these days but it is the shattering half and satter renders it all the more poignant by making it so human foreign affairs satter tells engrossing tales of brazen chicanery official greed and unbearable suffering satter manages to bring the events to life with excruciating accounts of real russians whose lives were shattered the baltimore sun satter must be commended for saying what a great many people only dare to think the globe and mail toronto humane and articulate the spectator vivid impeccably researched and truly frightening western policy makers would do well to study these pages national post
