Studies in Philology *2015-02-05*

linguistics literature and cultural studies are the three main research areas within philology scientific production such as conferences and journals has tended towards specialization and has been traditionally classified according to separate disciplines and languages however this volume offers a holistic view of the wide area of philology therefore allowing the permeability of the three areas mentioned above as such this book shows that the line that separates linguistics literature and cultural studies is actually very thin this volume is composed of a miscellanea of philological studies dealing with various trends in modern language research it looks at three languages in particular spanish english and french with a special relevance to the first two

Three philological studies *1963*

reprint of the original first published in 1857

Philological Studies with English Illustrations *1857*

comparative philology was one of the most prolific fields of knowledge in the humanities during the 19th century based on the discovery of the indo european language family it seemed to admit the reconstruction of a common history of european languages and even mythologies literatures and people however it also represented a way to establish geographies of belonging and difference in the context of 19th century nation building and identity politics in spite of a widely acknowledged consensus about the principles and methods of comparative philology the results depended on local conditions and practices if scandinavians were considered to be germanic or not for example was up to identity politics that differed in berlin strasbourg copenhagen and paris the contributors here elaborate these dynamics through analyses of the changing and conflicting versions of imaginative geographies that the actors of comparative philology evoked by using scandinavian literatures and cultures they also show how these seemingly delocalized scientific models depended on ever different local needs and practices through this the book represents the first distinctly transnational dynamic geography and history of the philological knowledge of the north not only as a history of a scientific discourse but also as a result of doing and performing scientific work

Philological Inquiries 1781

no detailed description available for english verse

Philological Inquiries 1781

Philological Studies with English Illustrations 2023-10-09

beginning with v 31 the proceedings and papers of the philological association of the pacific coast are included

Epitomes of Three Sciences 1890

azuma old japanese is an areal term for the two major dialects of eastern azuma japan during the eighth century eastern old japanese and tōpo suruga old japanese this volume is an exhaustive comparative reference grammar based on the linguistic data contained in the man yōshū poetic anthology 759 ce it contains chapters dedicated to the different lexical categories the lexicon the phonology and the historical development this volume serves to fill the last remaining gap in english language scholarship on the grammar of premodern japanese dialects and significantly contributes to our understanding of the historical development of the earliest attested japanese dialects it also contains an extensive reconstruction

of proto japanese

Geographies of Knowledge and Imagination in 19th Century Philological Research on Northern Europe 2017-08-21

the chinese educational mission was one of the earliest efforts at educational modernization in china as part of the self strengthening movement the qing government sent 120 students to new england to live and study for a decade before they were abruptly summoned home to china in 1881 this book based upon extensive research in local archives and newspapers focuses on the experiences of the students during their nine year stay in the united states historians of modern china will find this book highly relevant because of its detailed account of one of the major projects of the self strengthening movement to date there are at most two credible studies in english and chinese on the chinese educational mission both are deficient in source citation and tend to dwell on the students experiences after their return to china rather than during their stay in america this volume will also appeal to specialists in asian american studies for its comparing and contrasting the experiences of the chinese students with those of other chinese in the united states during a period of rising anti chinese sentiment which culminated in the enactment of chinese exclusion in 1882 this book offers a slightly different perspective than most other works on the nature of the anti chinese movement which may have been more class based rather than race based the compare and contrast of students from china with those from japan which also sent large numbers of students to new england at roughly the same period of time will be of interest to east asian comparative historians as well edward j m rhoads is a professor emeritus in history at the university of texas at austin he is the author of china's republican revolution the case of kwangtung 1895-1913 and manchus and han ethnic relations and political power in late qing and early republican china 1861-1928 rhoads has meticulously constructed the individual and collective histories of the 120 young men and boys sent by a beleaguered late qing government to live and acquire english and western knowledge in white new england families schools and universities as the vanguard of legions of chinese students who have studied in the u s since and as contemporaries of the far more numerous chinese coolies whose paths they never crossed this compelling study adds a surprising new chapter to early asian american history evelyn hu dehart professor of history and ethnic studies director center for the study of race and ethnicity in america brown university

this volume provides a lengthy introduction and detailed translation and commentary for the first two tablets of the baal cycle which witnesses to both the religious worldview of ugarit and many of the formative religious concepts and images in the bible

Semitic and Assyriological Studies *2021-01-25*

this is the first biography in any language of comrade prince d s mirsky 1890 1939 who uniquely participated in three distinctive episodes of modern european culture in late imperial st petersburg he was a poet a student of oriental languages and ancient history and also a guardsofficer after fighting in world war i and the russian civil war mirsky emigrated taught at london university and became a literary critic and historian writing prolifically in english and also in russian for the paris centred emigration especially as a leading member of the eurAsian movement his closest literary relationships were with marina tsvetaeva and aleksei remizov and later with maksim gorky in 1926 7 he published a history of russian literature written in english which remains the standard introduction to the subject while in london he lived in bloomsbury and knew thewoolfs he also knew t s eliot and was the first russian critic to write about him mirsky became a communist in 1931 and returned to stalin s moscow the following year becoming a prominent soviet critic and in particular championing boris pasternak in 1937 he was arrested and died in thegulag this biography draws on much unpublished material including mirsky s nkvd files

New Testament studies (philological, versional, and patristic) *1888*

excerpt from epitomes of three sciences comparative philology psychology and old testament history this little book epitomes of three sciences gives an account of the recent work done in three different fields of modern knowledge viz comparative philology experimental psychology and old testament history these three sciences have an almost direct bearing upon the religious views of our time in spite of their difference of subject and the divergence of their authors standpoints this preface is intended to explain in a few words the relation in which comparative philology experimental psychology and biblical history stand to one another philology treats of language and it is language that has created man and human society it is speech that distinguishes the soul of man from the souls of brute creation we shall never understand the mystery of man s dignity bis superiority and dominion over the rest of the animal world upon earth until we have acquired an insight into the growth of the human soul as mirrored in the evolution of human speech language is not as has been supposed in former times a supernatural phenomenon it is of natural growth and nothing elucidates this truth more than comparative philology which demonstrates that where at first sight the whims of fanciful invention or wilful caprice seemed to reign in reality definite laws obtain shaping the development of our speech in all its innumerable phases and changes the same holds good of psychology about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally

reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
