the classics were core to the curriculum and ethos of the intensely homosocial victorian and edwardian public schools yet ancient homosexuality and erotic pedagogy were problematic to the educational establishment which expurgated classical texts with sexual content this volume analyses the intimate and uncomfortable nexus between the classics sex and education primarily through the figure of the schoolmaster philip gillespie bainbrigge 1890 1918 whose clandestine writings not only explore homoerotic desires but also offer insightful comments on classical education now a marginalized figure bainbrigge s surviving works a verse drama entitled achilles in scyros featuring a cross dressing achilles and a chorus of lesbian schoolgirls and a latin dialogue between schoolboys vividly demonstrate the queer potential of classics and are marked by a celebration of the pleasures of sex and a refusal to apologize for homoerotic desire reprinted here in their entirety they are accompanied by chapters setting them in their social and literary context including their parallels with the writings of bainbrigge s contemporaries and near contemporaries such as john addington symonds e m forster and a e housman what emerges is a provocative new perspective on the history of sexuality and the place of the classics within that history which demonstrates that a highly queer version of classics was possible in private contexts

Joseph Conrad's 1904 adventure novel set amid the mist-covered mountains of a fictional South American republic spins a colorful tale of capitalist exploitation and rebellion. The story begins halfway through the revolution, employing flashbacks and glimpses of the future to depict the lure of silver and its effects on men, corrupting and destroying some, revealing the strengths of others. Conrad's deep moral consciousness and masterful narrative technique are at their best in *Nostromo*, one of his greatest works.

The Declaration of Independence and Other Great Documents of American History, 1775-1864

2000-06-20

The relative peace and prosperity of the Elizabethan age (1558-1603) fostered the growth of one of the most fruitful eras in literary history. Lyric poetry, prose, and drama flourished in sixteenth-century England in works that blended medieval traditions with Renaissance optimism. This anthology celebrates the wit and imaginative creativity of the Elizabethan poets with a generous selection of their graceful and sophisticated verse. Highlights include sonnets from Astrophel and Stella written by Sir Philip Sidney, a scholar-poet, critic, courtier, diplomat, soldier, and ideal English Renaissance man; poems by Edmund Spenser, whose works combined romance with allegory, adventure, and morality; and sonnets by William Shakespeare, whose towering poetic genius transcends the ages. Other celebrated contributors include John Donne, *Go and Catch a Fallen Star*; Ben Jonson, *Drink to Me Only with Thine Eyes*; and Christopher Marlowe, *The Passionate Shepherd to His Love*. The poetry of lesser-known figures such as Michael Drayton, Samuel Daniel, and Fulke Greville appears here along with verses by individuals better known in other fields: Francis Bacon, Queen Elizabeth I, and Walter Raleigh, whose poems offer valuable insights into the spirit of the age.
