The Urdu Ghazal 2020-01-02 in a blow against the british empire khan suggests that london artificially divided india s hindu and muslim populations by splitting their one language in two then burying the evidence in obscure scholarly works outside the public view all language is political and so is the boundary between one language and another the author analyzes the origins of urdu one of the earliest known languages and propounds the iconoclastic views that hindi came from pre aryan dravidian and austric munda not from aryan s sanskrit which like the indo european languages greek and latin etc are rooted in the middle east mesopotamia not in europe hindi s script came from the aramaic system similar to greek and in the 1800s the british initiated the divisive game of splitting one language in two hindi for the hindus and urdu for the muslims these facts he says have been buried and nearly lost in turgid academic works khan bolsters his hypothesis with copious technical linguistic examples this may spark a revolution in linguistic history urdu hindi an artificial divide integrates the out of africa linguistic evolution theory with

the fossil linguistics of middle east and discards the theory that sanskrit descended from a hypothetical proto indoeuropean language and by degeneration created dialects urdu hindi and others it shows that several tribes from the middle east created the hybrid by cumulative evolution the oldest groups austric and dravidian starting 8000 b c provided the grammar syntax plus about 60 of vocabulary s k t added 10 after 1500 b c and arabic persian 20 30 after a d 800 the book reveals mesopotamia as the linguistic melting pot of sumerian babylonian elamite hittite hurrian mitanni etc with a common script and vocabularies shared mutually and passed on to i e s k t d r arabic and then to hindi urdu in fact the author locates oldest evidence of s k t in syria the book also exposes the myths of a revealed s k t or hebrew and the fiction of linguistic races i e aryan semitic etc the book supports the one world concept and reveals the potential of urdu hindi to unite all genetic elements races and regions of the indo pakistan sub continent this is important reading not only for those interested to understand the divisive exploitation of languages in british led india s partition but for those interested in the science and history of origin of urdu hindi and other languages the false claims of linguistic races and creation history of languages and scripts language mythology and racism ancient history and fossil languages british rule and india s partition

A Life in Urdu 2023-05-24 although a major language in itself urdu has borrowed words from three major languages of the world namely persian arabic and english with various loan morphological and phonological features there have been very few studies on this phenomenon and many features are still unexplored this study focuses on loanword morphology and looks at the nature of loanwords borrowed from these three languages the book begins by examining the morphological adaptation of loanwords secondly parallels and differences are explored between the relatively recent adaptation of english loans and the older adaptation of words from arabic and persian the descriptive content of the book covering as it does not only english loanwords but those from arabic and persian as well in addition to examining native urdu structures is refreshingly broad the study itself is primarily descriptive carefully teasing apart the sometimes complex interactions between syntax semantics and linguistic function relative to loanword adaptation however even beyond the question of loanword adaptation there is much to recommend itself descriptively here with regard to the morphological structures of urdu including endocentric exocentric copulative postpositional and verbal compounds in addition to such derivational processes this study also considers various inflectional issues such as gender number and case morphology the pluralisation of english nominal loans and the adaptation of english verbs through the use of urdu dummy verbs the book offers a good foundation for a more in depth examination of the data against current morphological theory taken as a whole it not only presents a large quantity of interesting data in pursuing the immediate question of loanword adaptation in urdu but also provides a fruitful starting point for a wealth of further investigations into urdu and into loanword adaptation more generally
