ACCA Options P5 Advanced Performance Management Study Text 2014

the essential guide by one of america's leading doctors to how digital technology enables all of us to take charge of our health a trip to the doctor is almost a guarantee of misery you'll make an appointment months in advance you'll probably wait for several hours until you hear the doctor will see you now but only for fifteen minutes then you'll

wait even longer for lab tests the results of which you'll likely never see unless they indicate further and more invasive tests most of which will probably prove unnecessary much like physicals themselves and your bill will be astronomical in the patient will see you now Eric Topol one of the nation's top physicians shows why medicine does not have to be that way instead you could use your smartphone to get rapid test results from one drop of blood monitor your vital signs both day and night and use an artificially intelligent algorithm to receive a diagnosis without having to see a doctor all at a small fraction of the cost imposed by our modern healthcare system the change is powered by what Topol calls medicine's Gutenberg moment much as the printing press took learning out of the hands of a priestly class the mobile internet is doing the same for medicine giving us unprecedented control over our healthcare with smartphones in hand we are no longer beholden to an impersonal and paternalistic system in which doctor knows best medicine has been digitized Topol argues now it will be democratized computers will replace physicians for many diagnostic tasks citizen science will give rise to citizen medicine and enormous data sets will give us new means to attack conditions that have long been incurable massive open online medicine where diagnostics are done by Facebook like comparisons of medical profiles will enable real time real world research on massive populations there's no doubt the path forward will be complicated the medical establishment will resist these changes and digitized medicine inevitably raises serious issues surrounding privacy nevertheless the result better cheaper and more human health care will be worth it provocative and engrossing the patient will see you now is essential reading for anyone who thinks they deserve better health care that is for all of us

Testing Software and Systems

Previous Papers

in this book the authors pursue quantitative qualitative and mixed methods approaches conducting hundreds of large scale surveys and in depth interviews in 679 schools 67 counties and 13 provinces throughout china they also conducted longitudinal case studies in five municipalities and provinces to better reflect education reform and development in different education levels or sectors the authors used national statistical data from the 1970s to 2013 as well as a wealth of first hand documents and data from different levels of educational departments in schools counties municipals and provinces and grass roots input from 253 teachers principals education administrators and students the authors applied sem hlm gcm and many other statistic techniques and qualitative methods to analyse the data and materials in order to explore correlations between development and reform internal and external factors in educational reforms as well as strategies for resolving core issues their findings indicate that institutional reforms concerning financial investments allocation of teaching resources allocation of facilities curricula design systems and political economic social system reforms all contribute to the development of different levels and types of education in different modes and to different extents topics of particular interest include five case studies conducted in five different municipalities and provinces that showcase the nation s education reform and development in a specific model and on the basis of substantial data further milestone events regarding educational reform and development that have taken place in china since 2013 are examined as a unique feature the book also includes 353 diagrams and tables on the development and reform of education in china offering extensive and up to date information on a part of the world that often remains difficult to access the book provides an expansive and in depth examination of the nation s education reform and development from its historical roots to the present and combining official and grass roots standpoints it will help readers to understand why and how chinese education could lead students to win in international comparisons like pisa while at the same time often being the target of scathing

criticism as well as how the nation is now working to provide a better education to serve the world's largest population

Journal of a Mad Man

this important new manual goes beyond the published nfpa standards on installation of standpipe systems to include the rules in the international building code municipal fire codes the national fire code of canada and information on inspection testing and maintenance of standpipe systems also covered are the interactions between standpipe and sprinkler systems since these important fire protection systems are so frequently installed together illustrated with design examples and practical applications to reinforce the learning experience this is the go to reference for engineers architects design technicians building inspectors fire inspectors and anyone that inspects tests or maintains fire protection systems fire marshals and plan review authorities that have the responsibility for reviewing and accepting plans and hydraulic calculations for standpipe systems are also an important audience as are firefighters who actually use standpipe systems as a member of the committees responsible for some of these documents isman also covers the rules of these standards and codes as they are written but also provides valuable insight as to the intent behind the rules a noted author and lecturer professor isman was an engineer with the national fire sprinkler association nfsa is an elected fellow of the society of fire protection engineers sfpe and currently clinical professor in the department of fire protection engineering at university of maryland div

Stress Testing the Law of the Sea

an increasing number of genetically modified organisms gmos continues to be produced every day in response to the concerns raised by the development of gmos and their incorporation in foods and feed guidelines and regulations to govern and control the use of gmos and their products have been enacted these regulations necessitated the design of methods to detect and analyse the presence of gmos or their

products in agriculture produce food and feed production chains design of techniques and instruments that would detect identify and quantify gm ingredients in food and feed will help inspection authorities to relay reliable information to consumers who might be concerned about the presence of gm ingredients information generated by detection of gmos in food and feed would be helpful for setting regulations that govern the use of gm components as well as for labeling purposes qualitative detection methods of gm dna sequences in foods and feeds have evolved fast during the past few years there is continuous need for the development of more advanced multi detection systems and for periodic updates of the databases related to these systems testing and analysis of gmo containing foods and feed presents updates and comprehensive views on the various methods and techniques in use today for the detection identification and quantification of gmos in foods and feed the eleven book chapters cover recent developments on sample preparation techniques immunoassays methods and the pcr technique used in gmo analysis the use of biosensors in relation to gmo analysis the application of nucleic acid microarrays for the detection of gmos validation and standardization methods for gmo testing in addition to the type of reference material and reference methods used in gmo testing and analysis some of the iso standards designed for identifying and detecting the presence of gm material in foods are also presented in the book

Reform and Development of Educational System

this book analyzes policy making and implementation in indonesia conducted at the school of government and public policy indonesia the research presented here provides original insights into the country s public policy processes by exploring the conditions on the ground that shape implementation the studies brought together in this volume are based on fieldwork involving interviews with various stakeholders first hand observations and the collection of original documents and data they address policy issues

ranging from health insurance district recruitment community empowerment and solid waste management to tourism and the status of refugees the result is a wealth of case study data on policy implementation experiences in indonesia that will benefit students academics and practitioners alike

Standpipe Systems for Fire Protection

this 2014 article iv consultation highlights that economic rebound in zimbabwe experienced since the end of hyperinflation in 2009 has now ended after averaging 10 percent over 2009 2012 growth fell to an estimated 3.3 percent in 2013 reflecting tight liquidity conditions election year uncertainty weak demand for key exports competitiveness pressures and the impact of adverse weather conditions inflation continued its downward trend from 2.9 percent year over year at end 2012 to 0.3 percent in april 2014 the medium term outlook under the baseline scenario is for growth to average some 4 percent as large mining sector investments reach full capacity
