many trumpet players struggle with chop problems it s demoralizing when you know you are a great trumpet player but your limitations in endurance and range exclude you from crucial opportunities the question is how do you develop range and endurance without putting all your eggs in the high note basket most great trumpet players with limited chops deplore the idea of practicing high note methods they want to be able to grow their range and endurance in a way that will not sacrifice their current strengths there are dozens of practice routines available to the modern trumpet player with new ones being added at a dizzying rate some of us already know what works for our specific needs while others seem to be swimming aimlessly through a sea of exercises and confusing information amid so many options the trumpet chops series stands out as being not only physically but also musically beneficial trumpet chops

player is for trumpet players with a range up to the g above the staff

if you are happy with the way this world has prepared for the second coming of christ fine go your merry way and enjoy i am not and the results are why you are reading this story i was raised by a very strong believing mother she taught the truth always wins be sure your sins will find you out and as you sow so shall you reap she didn t prepare me for this world but for the next when i finally understood this it was too late i could not believe it was possible to have the spirit of jesus christ enter my heart mind and soul and feel no difference for years i searched for the feeling of total acceptance i often felt the presence of the holy spirit but it was always in someone else i could not find the feelings i was looking for it s not possible to list the extent and searching of this journey but in the end i gave up if there is no god it makes no difference if there is a god and he won t talk to me that s worse so i quit the last day when all living beings go before the final judgment i have no defense i believed by not talking to me god was not living up to his promise then i got very happy all my worries about hell s fury and roasting for the rest of time vanished i set a time limit of three weeks and then i was going to stop living nothing fancy i was going to find a simple way to stop living i rejected this life completely my worries were over then after two weeks i got an overwhelming desire to get a pencil and paper the desire was so strong if i didn t have paper in time i would write on table tops or anything that was handy they were poems they came pouring from my hand they came so fast there is no way i could tell them that fast now i offer them to those that think there has to be more in this life the hope and prayers that we will be covered by his loving grace even though we make no effort to live better just don t wash if you want to live again you have got to try i say again if you believe you already have a passkey to heaven have a nice day if these poems can help one person praise god

this is the first book of its kind what began as a fun activity for my trumpet students has turned into a wonderful resource to improve their trumpet playing trumpet folk fill in the blank is a book of thirty folk songs and nursery rhymes each song is presented first in an easy key like c f or g then it is transposed to other keys and certain strategic notes are left out those notes are replaced by question marks the students are to practice the first version of the song until they get the sound of the melody in their ears after they master the first version then they are ready to play the fill in the blank versions of the songs in

other keys we use a total of seven key signatures in this book up to three flats and three sharps any student who knows their scales up to three flats and three sharps should have a lot of fun playing these fill in the blank songs benefits of playing the fill in the blank songs include ear training finger technique sight reading phrasing and tone

“The” Works of William Shakespeare

1882

The present tale is founded more largely on testimony oral and written than any other in this series. The external incidents which direct its course are mostly an unexaggerated reproduction of the recollections of old persons well known to the author in childhood but now long dead who were eye witnesses of those scenes. If wholly transcribed their recollections would have filled a volume thrice the length of the trumpet major down to the middle of this century and later there were not wanting in the neighbourhood of the places more or less clearly indicated herein casual relics of the circumstances amid which the action moves: our preparations for defence against the threatened invasion of England by Buonaparte; an outhouse door riddled with bullet holes which had been extemporized by a solitary man as a target for firelock practice when the landing was hourly expected; a heap of bricks and clods on a beacon hill which had formed the chimney and walls of the hut occupied by the beacon keeper; worm-eaten shafts and iron heads of pikes for the use of those who had no better weapons; ridges on the down thrown up during the encampment; fragments of volunteer uniform and other such lingering remains brought to my imagination in early childhood the state of affairs at the date of the war more vividly than volumes of history could have done.
