cross referenced index to aid scholars and researchers working in the field of 20th century literature all of american author frank norris s significant critical writings have been compiled in this book including his articles for the san francisco wave during 1896 1897 and selections from his weekly letter column for the chicago american in 1901 essays from these two previously unexploited sources comprising almost half the book reveal certain areas of norris s thought which heretofore had been overlooked by scholars this book was compiled in order to clarify frank norris s literary creed when donald pizer began to read norris s uncollected critical articles he observed concepts which had been unnoted or misunderstood by his critics crediting this to the inadequate representation of norris s ideas in the posthumous the responsibilities of the novelist 1903 pizer recognized the need for an interpretive and complete edition of norris s critical writings this volume thus fills a noticeable gap in the field of american literary criticism by the time of his death in 1902 norris had a closed system of critical ideas this core of ideas however is only peripherally related to the conventional concept of literary naturalism which perhaps explains why critics have gone astray trying to find zolaesque ideas in norris s criticism norris s central idea around which he built an aesthetic of the novel was that the best novel combines an intensely primitivistic subject matter and theme with a highly sophisticated form his paradox of sophisticated primitivism clarifies the vital link between the fiction produced in the 1890s and that written by hemingway faulkner and steinbeck norris s essays deal with many of the literary themes which preoccupy modern critical theorists his range of subjects includes the form and function of the novel definitions of naturalism realism and romanticism and the problem of what constitutes an american novel his interpretation of commonplace events his comments on prominent figures of his day and his parodies of writers such as bret harte stephen crane and rudyard kipling are characterized by ingenuity and perception through these writings the personality of a man with well defined convictions and the ability to expound them provocatively comes into sharp focus in a general introduction pizer summarizes norris s critical position and surveys his career as literary critic this introduction and the interpretative introductions preceding each section constitute an illuminating essay on the literary temper of the period and provide a new insight into norris craft and his literary philosophy contains updated and revised sketches on nearly 800 of the most widely read authors and illustrators appearing in gale s something about the author series between 1929 and 1988 american mystery writer mignon good eberhart wrote fifty nine mystery novels at least as many short stories and served a term as president and grand master of the mystery writers of america this study of eberhart s life and work considers the influence of her childhood in nebraska her marriage and frequent travels and her various professional and personal contacts in chicago and on the east coast eberhart s friendships with well known literary figures including mystery and romance authors provide a fascinating glimpse into the social matrix of a bygone publishing world eberhart s experiences with hollywood and broadway show how the mystery genre and writer were transformed in an alternate medium leading women s magazines of the day also sought eberhart s talent and inevitably transformed her writing eberhart s novels and correspondence provide insight into the social mores of her day in particular about women s friendships repressed sexuality and closeted homosexuality those interested in cultural studies women s studies and twentieth century popular literature will find this book valuable
