Strategies and Models for Teachers 2006 0205453325
egen strategies for teachers 5e this k 12 teaching methods
text opens each chapter with case studies illustrating a
model in actual classroom practice and translates cognitive
principles of learning into teaching strategies the text
focuses on active learning the use of research cognitive
psychology and experience and it emphasizes the teacher s
central role in the learning process as in past editions the
fifth edition of strategies and models for teachers continues to
focus on instruction using a models approach that links
prescriptive teaching strategies to specific content and
thinking objectives this edition is composed of two main
parts the first three chapters outline advances in effective
teaching cognitive learning and motivation theory and the
teaching of thinking the remaining chapters offer detailed
coverage of the individual models including suggestions for
modifications that make them adaptable to a variety of
teaching learning situations a new chapter on learning
motivation and models of teaching together with new
sections in each chapter describing the learning and
motivation functions for each phase of each model help
provide a more solid conceptual foundation for the models
while simultaneously retaining the models classroom
applications the practicality of this text is one of its key
selling points promising to make the fifth edition an even
more vital tool for instructors and students than the previous
editions have been
