jfk and the end of america is the culmination of tim fleming s 50 years of research into the kennedy assassination the book makes the case that lee harvey oswald did not kill the president rather an elaborate plot concocted and executed by a sinister covert cabal took kennedy s life the plotters who stood to gain the most from jfk s death lyndon johnson and allen dulles were abetted by powerful interests in government business and the military kennedy was moving america toward a permanent peace state threatening the national security military establishment whose

existence is dependent on a permanent war state since 1963 we have been at war or under a threat of war spending nearly six of every ten tax dollars on defense it is vital to expose the truth of who killed kennedy and why if we are to understand the real history of america since 1963 fleming draws a straight line from dallas to the political and cultural divide that afflicts us today

this is an enhanced e book edition with videos and pictures president john f kennedy tried to warn us of the secrete shadow government that has taken control of our country there is a plot in this country to enslave every man woman and child before i leave this high and noble office i intend to expose this plot in a speech three weeks before he was murdered john f kennedy asked the american people for their help in this tremendous task

of informing and alerting the american people for i have complete confidence in the response and dedication of our citizens whenever they are fully informed because he knew that he could not defeat this secrete society of corporate demons on his own but i am confident that with your help man will be what he was born to be free and independent kennedy realized as do many american s today that the cia possessed entirely too much power and was placing our nation in grave danger acting on their own starting war after war after war without the consent or authority of either the president congress or the american people kennedy angrily vowed to splinter the cia into a thousand pieces and scatter them to the winds twice the cia flatly refused to carry out the president s orders concerning vietnam and their planned invasion of cuba because the agency disagreed with him kennedy likened the cia s growth to a malignancy which he was not sure even the white house could control any longer the agency represents a tremendous power and total unaccountability to anyone kennedy went on to say that if the united states ever experiences an attempt at a coup to overthrow the government it will come from the cia john f kennedy tried to end the wars and do away with the federal reserve banksters that control our government and a month later they blew his brains out into a thousand pieces and scattered them to the winds
