A Financial History of the United States: From Christopher Columbus to the Robber Barons (1492-1900) 2002 the first comprehensive financial history of the united states in more than thirty years accessible to undergraduate level readers it focuses on the growth and expansion of banking securities and insurance from the colonial period right up to the incredible growth of the stock market during the 1990s and the attack on the world trade center in 2001 the author traces the origins of american finance to the older societies of europe and northern africa and shows how english merchants transferred their financial systems to america he explains how financial matters dominated the founding and development of the colonies and how financial concerns incited the revolution and he shows how the civil war began the transformation of america from a small economy largely dependent on foreign capital into a complex capitalist society from the civil war the nation s financial history breaks down into periods of frenzied speculation quiet growth periodic panics and furious periods of expansion right up through the incredible growth of the stock market during the 1990s

The Origins of Business, Money, and Markets 2011-06-28 to understand business and its political cultural and economic context it helps to view it historically yet most business histories look no further back than the nineteenth century the full sweep of business history actually begins much earlier with the initial cities of mesopotamia in the first book to describe and explain these origins roberts depicts the society of ancient traders and consumers tracing the roots of modern business and underscoring the relationship between early and modern business practice roberts s narrative begins before business which he defines as selling to voluntary buyers at a profit before business he shows the material conditions and concepts for the pursuit of profit did not exist even though trade and manufacturing took place the earliest business he suggests arose with the long distance trade of early mesopotamia and expanded into retail manufacturing and finance in these command economies culminating in the middle eastern empires part one but it was the largely independent rise of business money and markets in classical greece that produced business much as we know it alexander the great s conquests and the societies that his successors created in their kingdoms brought a version of this system to the old middle eastern empires and beyond part two at rome this entrepreneurial market system gained important new features including business corporations public contracting and even shopping malls the story concludes with the sharp decline of business after the 3rd century ce part three in each part roberts portrays the major new types of business coming into existence he weaves these descriptions into a narrative of how the prevailing political economic and social culture shaped the nature and importance of business and the status wealth and treatment of business people throughout the discussion indicates how much and how little business has changed provides a clear picture of what business actually is presents a model for understanding the social impact of business as a whole and yields stimulating insights for public policy today

Business finance 1919 this comprehensive two volume history of canadian business is a detailed account of the development of commerce and industry in the formative period from confederation to the first world war most of author tom naylor s information gathered from contemporary sources and particularly the business press is recorded here for the first time this research has led him to offer a fundamental reinterpretation of canadian business and economic history which is bound to generate worldwide controversy in volume i on the banks and finance capital the story of the growth of the canadian chartered banking system is told in detail included is an analysis of the many bank failures and an explanation of the techniques used successfully by the largest chartered banks to dominate banking and finance in the new confederation several chapters deal with hitherto unrecorded facets of the development of the financial system of canada the major financial institutions and the types of operations they financed volume ii deals mainly with the development of manufacturing and industry the rapid growth of foreign branch plants which followed the national policy is examined in detail as are business assistance measures like patent laws tariffs government subsidies and municipal bonusing naylor offers detailed accounts of the rise of big business through the formation of cartels and mergers assembled out of smaller independent operations these two volumes offer a completely new perspective on the development of the canadian economy they cast important new light on the historical forces which lie behind many pressing current economic and political issues

The History of Canadian Business, Volume I 1975-01-01 the routledge companion to business history is a definitive work of reference and authoritative international source on business history compiled by leading scholars in the field it offers both researchers and students an introduction and overview of current scholarship in this expanding discipline drawing on a wealth of international contributions this volume expands the field and explores how business history interacts theoretically and methodologically with other fields it charts the origins and development of business history and its global reach from latin america and africa to north america and europe with this multi perspective approach it illustrates the unique contribution of business history and its relationship with a range of other disciplines from finance and banking to gender issues in corporations the routledge companion to business history is a vital source of reference for students and researchers in the fields of business history corporate governance and business ethics

The Routledge Companion to Business History 2016-12-01 globalization is not an external force but a result of concrete business decisions made by millions of entrepreneurs and managers across the world as such the modern corporation has completely altered the economic landscape business and finance have shaped the international order of the modern world history of financial institutions contributes to the analysis of how the modern corporation business and finance have shaped and keep on shaping our world in a collection of nine succinct essays this volume looks at the role of finance in european history from the beginning of the 19th century to the period after the second world war archivists and financial historians who are also leading scholars of banking and financial history investigate the ways in which the international post war order developed they draw on often hitherto unused archival sources from central banks and other institutions to reveal the unique histories of a variety of european countries and the paths that have led to the contemporary economic and financial system the collection includes reflections on monetary stabilization inflation hyperinflation globalization and public relations in banking and commerce this book is essential reading for banking and finance executives as well as policy makers with a historical interest it will also be of importance to academics with a particular interest in economic history financial or banking history and european history

A Financial History of the United States 2011 the field of business history has changed and grown dramatically over the last few years there is less interest in the traditional company centred approach and more concern about the wider business context with the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance in addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook the international bibliography of business history brings all of the strands together and provides the user with a comprehensive guide to the literature in the field the bibliography is a unique volume which covers the depth and breadth of research in business history this exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians

History of Financial Institutions 2016-10-04 a definitive new reference on the major failures of american corporate governance at the start of the 21st century tracing the market boom and bust that preceded enron s collapse as well as the aftermath of that failure the book chronicles the meltdown in the telecom sector that gave rise to accounting scandals globally featuring expert analysis of the sarbanes oxley legislation that was adopted in response to these scandals the author also investigates the remarkable market recovery that followed the scandals an exhaustive guide to the collapse of the enron corporation and other financial scandals that erupted in the wake of the market downturn of 2000 this book is an essential resource for students teachers and professionals in corporate governance finance and law

Banking and Business in the Roman World 1999-10-14 a comprehensive survey of international financial history across three thousand years that reveals how previous crises were successfully overcome

The History of Canadian Business 1867-1914 1975 this book examines women s financial activity from the early days of the stock market in eighteenth century england and the south sea bubble to the mid twentieth century the essays demonstrate how many women managed their own finances despite legal and social restrictions and show that women were neither helpless incompetent and risk averse nor were they unduly cautious and conservative rather many women learnt about money and made themselves effective and engaged managers of the funds at their disposal the essays focus on britain from eighteenth century london to the expansion of british financial markets of the nineteenth century with comparative essays dealing with the us italy sweden and japan hitherto writing about women and money has been restricted to their management of household finances or their activities as small business women this book examines the clear evidence of women s active engagement in financial matters much neglected in historical literature especially women s management of capital

Business Finance, a Practical Study of Financial Management in Private Business Concerns 2015-11-05 this volume includes a broad sample of scholarly publications of professor edwin j perkins on u s financial history and related topics in the fields of economic and business history included are journal articles excerpts from his prominent books plus three previously unpublished manuscripts the content is organized chronologically starting with the colonial era and ending with the second half of the twentieth century a major highlight of the book is the key role stockbroker charles merrill founder of merrill lynch co played in the evolution and expansion of the nation s equity markets in the twentieth century book jacket

A Concise History of International Finance 2015-10-22 based on computer analysis of price quotes from the eighteenth century financial press this work reevaluates the evolution of financial markets

Women and Their Money 1700-1950 2008-11-20 the history of accounting has been constructed from 68 items previously published between 1971 and 1998 representing the key works of 72 leading authors the set is designed for a number of applications which include a range of readings suitable for graduate and postgraduate courses on accounting history background literature for courses dealing with particular aspects of accounting an initial source of reference for students undertaking a doctoral thesis in accounting history and the initial source of reference for existing members of faculty who decide to develop their research in this area the set also provides a coverage of accounting history that meets the needs of business historians whose research encompasses financial matters the set is divided into four separate volumes dealing with the following broad subject areas accounting research methods and twentieth century developments in accounting theory record keeping systems and financial reporting procedures cost and management accounting the professionalisation of accounting a significant feature of the study of accounting history in recent years has been the emergence of a widening range of theoretical approaches the editor has therefore ensured that writers from these different traditions are fairly represented

Perkins on U.S. Financial History and Related Topics 2009 for the first time the complete financial history of berkshire hathaway is available under one cover in chronological format beginning at the origins of the predecessor companies in the textile industry the reader can examine the development of the modern day conglomerate year by year and decade by decade watching as the struggling textile company morphs into what it has become today this comprehensive analysis distils over 10 000 pages of research material including buffett s chairman s letters berkshire hathaway annual reports and sec filings annual meeting transcripts subsidiary financials and more the

analysis of each year is supplemented with buffett s own commentary where relevant and examines all important acquisitions investments and other capital allocation decisions the appendices contain balance sheets income statements statements of cash flows and key ratios dating back to the 1930s materials brought together for the first time the structure of the book allows the new student to follow the logic reasoning and capital allocation decisions made by warren buffett and charlie munger from the very beginning existing berkshire shareholders and long time observers will find new information and refreshing analysis and a convenient reference guide to the decades of financial moves that built the modern day respected enterprise that is berkshire hathaway

FINANCIAL HISTORY OF THE UNITED STATES 2022 klassen looks at the role businesses have played in the economic political and social development of the province since the earliest european traders relying heavily on analysis and case studies he considers the birth of business firms and the subsequent effects they have had on broader political and cultural matters canadian card order number c99 910550 7 annotation copyrighted by book news inc portland or

The Rise of Financial Capitalism 1993-11-26 the papers in this volume demonstrate that it can be fruitful to apply institutional theory to business history in addition the volume shows that the wider study of the institutional environment is inseparable from the study of business it is clear however that although institutionalism in business history has a long pedigree many areas of research and potential interaction with theory remain to be explored the extent to which this will occur inevitably depends upon the degree to which the interests of theoreticians serve the needs of historians and vice versa

The History of Accounting 2000 one striking weaknesses of our financial architecture which helped bring on and perhaps deepen the panic of 2008 is an inadequate appreciation of the past information about how the system functioned and the reliability of organizations and institutional controls were drawn from a relatively narrow group of recent examples history and financial crisis lessons from the 20th century is an attempt to broaden the range of historical sources used by policy makers to understand and treat financial crises many recent discussions of the 2008 panic and the economic turmoil have found the situation to either be unprecedented or greatly similar to that of 1931 however the book s wide range of contributors suggest that the economic crisis of 2008 cannot be categorised in this way this book was originally published as a special issue of business history

The Complete Financial History of Berkshire Hathaway 2021-04-13 for many americans capitalism is a dynamic engine of prosperity that rewards the bold the daring and the hardworking but to many outside the united states capitalism seems like an initiative that serves only to concentrate power and wealth in the hands of a few hereditary oligarchies as a history of corporate governance around the world shows neither conception is wrong in this volume some of the brightest minds in the field of economics present new empirical research that suggests that each side of the debate has something to offer the other free enterprise and well developed financial systems are proven to produce growth in those countries that have them but research also suggests that in some other capitalist countries arrangements truly do concentrate corporate ownership in the hands of a few wealthy families a history of corporate governance around the world provides historical studies of the patterns of corporate governance in several countries including the large industrial economies of canada france germany italy japan the united kingdom and the united states larger developing economies like china and india and alternative models like those of the netherlands and sweden

A Business History of Alberta 1999 in the seven years since the publication of the first edition of wall street america s financial industry has undergone a series of wrenching events that have dramatically changed the nation s economic landscape the bull market of the 1990 s came to a close ushering in the end of the dot com boom a record number of mergers occurred and accounting scandals in companies like enron and worldcom shook the financial industry to its core in this wide ranging volume financial historian charles geisst provides the first history of wall street explaining how a small concentrated pocket of lower manhattan came to have such enormous influence in national and world affairs in this updated edition geisst sums up the recent turbulence that has threatened america s financial industry he shows how in 1997 thirty nasdaq market makers paid a record 1 3 billion fine for price irregularities in

stocks he makes sense of the closing of the bull market and explains a major change in the accounting rules for mergers that caused monumental losses for companies like aol time warner and he recounts how in the aftermath of the speculative fever that swept wall street in the 1990 s the scandals at enron tyco worldcom and conserco represent a last gasp of mergermania and a fallout from a bubble like market wall street is at once the story of the street itself from the days when the wall was merely a defensive barricade built by peter stuyvesant to the modern billion dollar computer driven colossus of today in a broader sense it is an engaging economic history of the united states the role wall street played in making america the most powerful economy in the world and the many challenges to that role it has faced in recent years

Institutions and the Evolution of Modern Business 2014-01-14 this book offers the first in depth international survey of current research and debates in business history great advances have been made in the history of business enterprise and business systems over the last two decades historians are documenting and analyzing the evolution of a wide range of important companies their patterns of innovation production and distribution financial affairs political activities and their social impact the volume is a reference work of value to historians economists management researchers and others concerned in accessing the latest perspectives on the evolution of business
