Saline and Alkaline Soils in Latin America 2020-09-26 this book provides the first comprehensive overview of saline and alkaline soils in latin america known for having one of the most extensive surface of salt affected soils in the world it is organized along two main axes soils and vegetation the book discusses the occurrence of such soils in the region focusing mainly in management strategies for their sustainable use and it presents accounts of natural vegetation and crops in the various environments of the region social impacts of such conditions and ongoing projects to overcome them are considered likewise the book highlights physiological mechanisms that are responsible for the negative effects these soils exert on crops and forest resources and determine vegetation distribution in them plant breeding challenges and new perspectives for such environments are discussed technologies such as irrigation and drainage are included the readership includes soil and plant scientists as well as policy makers

Critical Theory of Coloniality 2022-04-19 this book reveals how the critique of the domination of capitalism inaugurated by the frankfurt school becomes pluriversal motivating the historical critical theory of coloniality ctc dialogue between the global south and the global north ctc expresses the emergence and historical actuality of a set of intellectual fields aimed at denouncing domination and promoting emancipatory ideas at the borders of colonial capitalism the book argues that the actuality of the ctc relies on the importance of valuing theoretical and methodological pluralism in the context of the necessary redefinition of the directions of global society it reveals a plural reflection of scientific moral and aesthetic character in different areas of former planetary colonisation such as asia africa and america but also on the borders of europe this book is aimed at researchers and students in the social sciences as well as in interdisciplinary studies it is attractive to those who are interested in the plural development of theoretical criticism outside the european universe and who seek to understand how capitalist power has metamorphosed with planetary coloniality considering this book implies important reflections on topics such as development modernity tradition imperialism dependency and democracy it is interesting to specialists in development issues international relations and policymakers

Latin American Extractivism 2020-12-07 this cutting edge book presents a broad picture of global capitalism and extractivism in contemporary latin america leading scholars examine the cultural patterns involving gender ethnicity and class that lie behind protests in opposition to extractivist projects and the contrast in responses from state actors to those movements

China's Western Horizon 2020-02-03 a crucial assessment of how global and regional politics converge in the swath of eurasia that includes south asia central asia and the middle east under the

ambitious leadership of president xi jinping china is transforming its wealth and economic power into tools of global political influence but china s foreign policy initiatives even belt and road will be shaped and redefined as they confront the ground realities of local and regional politics outside china in china s western horizon daniel s markey previews how china s efforts are likely to play out along its western horizon across the swath of eurasia that includes south asia central asia and the middle east drawing from extensive interviews travels and historical research markey describes how perceptions of china vary widely within states such as pakistan kazakhstan and iran on balance markey anticipates that china s deepening involvement will play to the advantage of regional strongmen and exacerbate the political tensions within and among eurasian states to make the most of america s limited influence along china s western horizon and elsewhere he argues that us policymakers should pursue a selective and localized strategy to serve america s specific aims in eurasia and to better compete with china over the long run

Latinx Revolutionary Horizons 2024-05-07 a necessary reconceptualization of latinx identity literature and politics in latinx revolutionary horizons renee hudson theorizes a liberatory latinidad that is not yet here and conceptualizes a hemispheric project in which contemporary latinx authors return to earlier moments of revolution rather than viewing latinx as solely a category of identification she argues for an expansive historicized sense of the term that illuminates its political potential claiming the x in latinx as marking the suspension and tension between how latin american descended people identify and the future politics the x points us toward hudson contends that latinidad can signal a politics grounded in shared struggles and histories rather than merely a mode of identification in this way latinx revolutionary horizons reads against current calls for cancelling latinidad based on its presumed anti black and anti indigenous framework instead she examines the not yet here of latinidad to investigate the connection between the revolutionary history of the americas and the creation of new genres in the hemisphere from conversion narratives and dictator novels to neoslave narratives and testimonios by comparing colonialisms she charts a revolutionary genealogy across a range of movements such as the mexican revolution the filipino people power revolution resistance to trujillo in the dominican republic and the cuban revolution in pairing nineteenth century authors alongside contemporary latinx ones hudson examines a longer genealogy of latinx resistance while expanding its literary canon from the works of josé rizal and martin delany to those of julia alvarez jessica hagedorn and leslie marmon silko in imagining a truly transnational latinidad latinx revolutionary horizons thus rewrites our understanding of the nationalist formations that continue to characterize latinx studies

Papers from the 6th International Conference on Trilobites and their Relatives 2019-04-15 a volume from a monograph series featuring seven papers on trilobites with brief summaries this research volume is entitled papers from the 6th international conference on trilobites and their relatives it s volume 64 within the fossils and strata monograph series the research compilation originated from a 2017 conference in estonia seven papers on trilobites are included with summaries in the publication the papers topics cover trilobites from the early cambrian to the late devonian

Resilient Water Services and Systems: 2019-08-15 resilient water services and systems the foundation of well being provides an overarching framework on water and sanitation services and how they are coping with resilience aging infrastructure and climate change the editors present conceptual evidence

about resilience backed by case studies that demonstrate resilience in practice there are 13 case studies from asia africa europe and north and south america providing informative perspectives from around the world this is a timely collection of historic and contemporary evidence that will have increasing relevance in the coming decades this volume will be of relevance to both scholars and practitioners resilient water services are the key to water security across the world sustaining them is a challenging task in high income countries where aging infrastructure is a critical issue and in low income countries where new infrastructure is needed and ability to pay is a more formidable barrier to success the editors have compiled a succinct analysis and assembled case studies that cover diverse regions and contexts from this book the reader will gain a wealth of knowledge about water services as well as rich vicarious experiences from the cases

International Aviation Law for Aerodrome Planning 2020-11-03 the objective of this book is to provide icao states competent authorities and aerodrome operators with a comprehensive overview of legal challenges related to international aerodrome planning answers to derived legal questions as well as recommendations thereafter shall help to enhance regulatory systems and to establish a safer aerodrome environment worldwide compliant aerodrome planning has an immense impact on the safety of passengers personnel aircraft and of course the airport achieving a high safety standard is crucial as many incidents and accidents in aviation happen at or in the vicinity of airports currently more than 40 of the icao member states do not fully comply with international legal requirements for aerodrome planning representatives of icao and states as well as aerodrome and authority personnel will understand why compliance with the different legal facets of aerodrome planning is challenging and learn how shortcomings can be solved

Journalism and Safety 2024-06-03 this volume presents key international research on journalism and safety with a focus on conceptual global and transnational approaches as well as conflict challenges and consequences for democracy it offers an overview of the latest research and ongoing developments in the field of journalism and safety and speaks to the ways in which digital developments have worsened the risks surrounding journalists with online harassments security breaches surveillance and so forth challenging their safety like never before the first of two volumes this book comprises a handpicked collection of cutting edge research articles authored by distinguished international scholars the chapters in the book were originally published in digital journalism journalism studies and journalism practice during the years 2019 2023 and have thus been through rigorous double blind peer review the chapters draw on data from diverse geographical locations such as u s syria yemen libya iraq palestine latin america pakistan philippines afghanistan venezuela ethiopia and slovakia the first section of the book focuses on research that either has made significant conceptual advancements on journalism and safety and or has contributed with global or transnational approaches and the second section focuses on challenges in conflict coverage and the impact it has on democracies this collection offers important points of entry for understanding this area of research and insights into worthwhile concepts and approaches that can be used to further study and advance knowledge it will be a key resource for scholars practitioners and researchers of journalism media and cultural studies communication studies and sociology while also being of interest to those seeking an introduction to the field

Social Programmes, Poverty Eradication and Labour Inclusion 2019 diverse social programmes including conditional cash transfer programmes labour and production inclusion programmes and social pensions are being implemented in latin american and caribbean countries with the aim of ending poverty and reducing inequalities throughout the life cycle this book offers an up to date analysis of these programmes and the way they relate to labour inclusion and analyses ongoing debates regarding the possible incentives and disincentives they create in terms of the labour supply

formalization and child labour among the target population considering that poverty is a structural problem of highly unequal societies the thesis that poverty is due to a lack of effort on the part of the poor is argued to be an expression of the strong prejudice against those living in poverty the great majority of whom work or are actively seeking employment but are hampered by the large decent work deficits existing in the region from an integrated and rights based perspective public policies should simultaneously address the twofold challenge of social and labour inclusion in order to achieve basic thresholds of well being by ensuring income universal access to good quality social services and opportunities for decent work

Data Mining and Methods for Early Detection, Horizon Scanning, Modelling, and Risk Assessment of

Invasive Species 2018-05-03 invasive alien species are non indigenous taxa introduced to areas beyond their natural distribution and bio geographical barriers by human activity with important impacts on biodiversity human health and ecosystem services with the human population being higher than ever before and increasing together with unprecedented rates of mobility of humans and goods the introduction of new invasive species is more common than ever and is at the forefront of research in many disciplines such as ecology epidemiology and food security the mechanisms of successful introduction establishment and spread of invasive alien species are highly complex as biological social geographic economic and climatic factors influence the way an invasive species is introduced and determine the options available for its eventual detection and control with the rapid development of smart sensors social networks digital maps and remotely sensed imagery spatio temporal data are more ubiquitous and richer than ever before the availability of such large datasets big data poses great challenges in data analysis in addition increased availability of computing power facilitates the use of computationally intensive methods for the analysis of such data thus new methods are needed to efficiently study and understand biological invasions a research topic held in frontiers environmental informatics aimed to address this topic methods are defined in the widest terms and may be analytical practical or conceptual among others a key aim of the thematic was to maximize the use of the proposed methods techniques by the scientific community and environmental stakeholders

Reoccupying the Political 2020-06-29 focusing on the increasing refusal and transgression of politics as normal across the globe this book examines new forms of democratisation democratic life and political subjectivity as people seek to gain control over the decisions and processes affecting their lives the contributors to this volume challenge the hegemonic truth regimes of political science by bringing to our attention practices and discussions on the margins of political theorisation and conceptualisation they offer a pluridiveristy of theorisations and engagements that mirror the very practises of democratic life of which they speak they demonstrate how research on the margins enables us to develop and deepen our conceptualisation and engagement with these new forms of democratic thought and practice and hence our understanding of the political and the transformation of political science these new forms of politics call into question the epistemological authority of political science and this book will be of interest to those seeking to understand the increasing trend towards prefigurative epistemologies decolonising methodologies and participatory forms of becoming political this book was originally published as a special issue of social identities

Critical Junctures and Historical Legacies 2022-02-28 over the past 50 years scholars across the social sciences have employed critical juncture analysis to understand how social orders are created

become entrenched and change in this book leading scholars from several disciplines offer the first coordinated effort to define this field of research assess its theoretical and methodological foundations and use a critical assessment of current practices as a basis for guiding its future contributors include stars in this field who have written some of the classic works on critical junctures as well as the rising stars of the next generation who will continue to shape historical comparative analysis for years to come critical junctures and historical legacies will be an indispensable resource for social science research methods scholars and students

Global Productivity 2021-06-09 the covid 19 pandemic struck the global economy after a decade that featured a broad based slowdown in productivity growth global productivity trends drivers and policies presents the first comprehensive analysis of the evolution and drivers of productivity growth examines the effects of covid 19 on productivity and discusses a wide range of policies needed to rekindle productivity growth the book also provides a far reaching data set of multiple measures of productivity for up to 164 advanced economies and emerging market and developing economies and it introduces a new sectoral database of productivity the world bank has created an extraordinary book on productivity covering a large group of countries and using a wide variety of data sources there is an emphasis on emerging and developing economies whereas the prior literature has concentrated on developed economies the book seeks to understand growth patterns and quantify the role of among other things the reallocation of factors technological change and the impact of natural disasters including the covid 19 pandemic this book is must reading for specialists in emerging economies but also provides deep insights for anyone interested in economic growth and productivity martin neil baily senior fellow the brookings institution former chair u s president s council of economic advisers this is an important book at a critical time as the book notes global productivity growth had already been slowing prior to the covid 19 pandemic and collapses with the pandemic if we want an effective recovery we have to understand what was driving these long run trends the book presents a novel global approach to examining the levels growth rates and drivers of productivity growth for anyone wanting to understand or influence productivity growth this is an essential read nicholas bloom william d eberle professor of economics stanford university the covid 19 pandemic hit a global economy that was already struggling with an adverse pre existing condition slow productivity growth this extraordinarily valuable and timely book brings considerable new evidence that shows the broad based long standing nature of the slowdown it is comprehensive with an exceptional focus on emerging market and developing economies importantly it shows how severe disasters of which covid 19 is just

the latest typically harm productivity there are no silver bullets but the book suggests sensible strategies to improve growth prospects john fernald schroders chaired professor of european competitiveness and reform and professor of economics in sead
