Training Readers and Writers for a Multimodal and Multimedia Society:

Cognitive Aspects

2024-02-07

contemporary societies have been advancing gradually towards the construction of a model of a literate population significant efforts have been made so that most citizens can access various sources today using their reading and writing abilities but are we really prepared to face the information age is information literacy being promoted from schools are individual capabilities being considered do we have a true critical literacy this article collection aims to show an overview of the most recent research ranging from the individual to the collective from the subject s competencies and their beliefs to the way to develop them from school there is room in this research topic for investigations belonging to the linguistic psychological and didactic field this research topic aims to address a pressing problem in contemporary world societies it is proposed to offer various contributions related to critical literacy in general and reading and writing in this sense research that addresses analog and digital reading writing processes academic literacy and the use of resources such as non fiction illustrated books to develop critical thinking will be welcome but also and in a very important way the cognitive processes of the subject will be considered not only to deal with access to information but also in the construction of their mental lexicon an issue that offers the vision of the world of those who are immersed in literacy and in the post truth era

approaching the bible in an original way comparing biblical heroes to heroes in world literature elliot rabin addresses

a core biblical question what is the bible telling us about what it means to be a hero focusing on the lives of six major biblical characters moses samson david esther abraham and jacob rabin examines their resemblance to hero types found in and perhaps drawn from other literatures and analyzes why the bible depicts its heroes less gloriously than do the texts of other cultures moses founds the nation of israel and is short tempered and weak armed samson arrogant and unhinged can kill a thousand enemies with his bare hands david establishes a centralized unified triumphal government through pretense and self deception esther saves her people but marries a murderous misogynist king abraham s relationships are wracked with tension jacob fathers twelve tribes and wins his inheritance through deceit in the end is god the real hero or is god too removed from human constraints to even be called a hero ultimately rabin excavates how the bible s unique perspective on heroism can address our own deep seated need for human scale heroes

this volume containing a representative yet somewhat diffused gathering of israeli shakespearean criticism attests to the cultural pluralism constituting the elusive construct of modern israeli culture still struggling for self definition book jacket title summary field provided by blackwell north america inc all rights reserved

The Quest for Modern Vocational Education

the poetics of victory in the greek west examines the relationship between epinician and the heroizing narratives about athletes or hero athlete narratives that circulated orally in sicily and italy in the late archaic and early classical period drawing on the colorful stories told about athletes in later sources the fragments of simonides and the surviving odes of pindar and bacchylides it argues that epinician was formed in opposition to orally transmitted narratives and that these two forms epinician and the hero athlete narrative promoted opposed political visions with epinician promoting the deinomenid empire and its structures and the hero athlete narrative opposing deinomenid rule combining an intimate knowledge of the material culture of the greek west with an innovative use of available source material the poetics of victory in the greek west exposes the rich intersections between athletics and politics in sicily and italy offering a new and compelling account of deinomenid self promotion and of the varied and complex communities that operated under the deinomenids control or within their shadow further by establishing models of production and interpretation for the orally transmitted narratives and bringing them into dialogue with epinician the poetics of victory in the greek west reveals much about epinician as a form how it developed in the greek west what meanings it already carried and what meanings it accrued as it was appropriated by hieron the second deinomenid ruler
